JACK DORSEY'S BLOCK SHAKES OFF SHORT SELLER HINDENBURG'S REPORT TO RISE IN QUARTERLY REVENUE

Block posted a rise in first-quarter revenue on Thursday as its popular payments platform Cash App continued to drive growth, a metric investors will watch closely following U.S. short-seller Hindenburg Research's disclosure in March of short positions in the firm. Shares of Block, formerly called Square, were up more than 1 percent in extended trading on Thursday, paring gains after rising more than 4 percent. Prior to market close, its stock was down more than 10 percent from the beginning of this year. The company posted total net revenue of \$4.99 billion (roughly Rs. 40,800 crore) in

the quarter ended March 31, up 26 percent from the prior year and beating analysts' estimate of \$4.59 billion (roughly Rs. 37,500 crore), according to Refinitiv data. The San Francisco-based

fintech, which offers merchant payment services and an app that facilitates peer-to-peer payments and lets people trade cryptocurrency, said gross profit in the first-quarter rose

32 percent to \$1.71 billion (roughly Rs. 14,000 crore). Hindenburg, whose report this year triggered a rout of more than \$100 billion (roughly Rs. 8,17,200 crore) in shares of India's Adani Group companies, had accused Block of overstating its user numbers by allowing fake or duplicate accounts to exist on its Cash App platform. The allegations sent shares in the company down 22 percent. Reuters could not verify the claims raised in the report. Block has denied the allegations and has said it would explore legal action against the short seller. Short sellers like Hindenburg typically sell borrowed

securities and aim to buy these back at a lower price. In a call with analysts, Block CEO Jack Dorsey said the firm stands by its response to the report. "We will not be distracted from our strategy and from our prioritizations," he said. "We have a pretty compelling roadmap ahead of us in every one of our ecosystems." Block's revenue growth has moderated over the past few quarters as inflation prompted consumers to defer big-ticket purchases. In its previous earnings report, the payments firm said it was "meaningfully slowing" the pace of hiring this year to control costs.

GOOGLE OFFICIALLY REVEALS PIXEL FOLD IN A SHORT VIDEO TEASER AHEAD OF GOOGLE I/O 2023 LAUNCH

After plenty of rumours and leaks, Google finally made official the existence of its upcoming foldable device — the Pixel Fold. Google released a short teaser video on its social media channels on the occasion of Star Wars Day, showcasing the device's design, hinge mechanism, inner display, and the underlying software. In each post across social media, Google also hinted at a 10 May announcement, which happens to be the first day of Google's annual I/O 2023 developer conference. Apart from the Pixel Fold, Google will also be announcing its successor to the Pixel 6a, called the Pixel 7a, and the Pixel Tablet at the upcoming event. The video teaser is quite short, but unlike most

teasers, it showcases the Pixel Fold in its entirety, giving us a good idea about its design, hinge, display, and software. The video starts off by showing what appears to be a chunky camera module at the back sporting three cameras and an LED flash unit, alongside a "mysterious" grille, as its purpose is yet to be confirmed. We are then

treated to a view of the hinge, which for now, appears to fold the two halves shut without a visible gap. Next up is a view of the inner display and software layout. What's evident is the rather thick bezel, which is a detail the Galaxy Z Fold dealt with in its earlier models. Our best guess is that with a phone to tablet form factor, Google

may have thought of thicker bezels as it generally makes a tablet easier to hold. Then there's also space needed for the inner selfie camera — shown off in recent leaks — placed near the top right corner. Software-wise, the layout looks very familiar to a regular Android 13 homescreen. So, we will have to wait and watch to know what sort of optimisations Google has made for its first foldable Pixel device. And lastly, we get a glimpse of the outer display which has its Always on Display feature enabled, so we don't have an idea of its bezel. What is clearly evident is that the Pixel Fold's form factor is closer to Oppo's Find N2, which is shorter and wider when folded compared to the

Samsung Galaxy Z Fold 4's narrow and taller design. As per a recent report, the device will be powered by Google's current generation Tensor G2 SoC, which already powers its Pixel 7 and Pixel 7 Pro smartphones. It is expected to have a 120Hz, 5.8-inch OLED outer display (1,080x2,092 pixels) with a 17.4:9 aspect ratio and a 120Hz, 7.6-inch inner display (1,840 x 2,208 pixels) with a 6:5 aspect ratio. The foldable is said to have a 48-megapixel primary camera, a 10.8-megapixel ultrawide camera and a 10.8-megapixel telephoto camera with 5x optical zoom. For selfies, it is likely to sport a 9.5-megapixel selfie camera in the outer display and an 8-megapixel camera above the inner display.

APPLE ACCUSES PATENT OWNER ARENDI OF REVEALING SECRET SETTLEMENT AGREEMENT DETAILS IN GOOGLE TRIAL

Apple on Wednesday accused patent owner Arendi S.A.R.L. of revealing secret information about a settlement agreement between them, including how much Apple paid, during Arendi's separate infringement trial against Alphabet's Google. Apple asked a Delaware federal judge to impose monetary sanctions against Arendi and its law firm Susman Godfrey one day after Google defeated Arendi's \$45.5 million

(roughly Rs. 44 crore) lawsuit at the trial, which did not involve Apple. Arendi's attorneys and representatives for Apple and Susman Godfrey did not immediately respond to requests for comment Thursday. Arendi has sued several tech companies over its patents, which relate to retrieving information such as names and addresses from a database and entering it into word processors and spreadsheets. It sued Apple

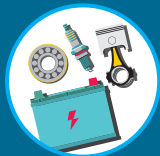

in 2012 and Google in 2013, accusing their mobile devices of violating the patents. Apple settled with Arendi in 2021 under confidential terms. Apple's Wednesday filing said it attended the

Google trial because it feared Arendi would misuse its confidential business information during the proceedings. "And Plaintiff did just that," the filing said. Apple said Arendi's damages expert disclosed the monetary terms of their settlement during questioning by Susman Godfrey partner Seth Ard, violating the companies' confidentiality agreement. The company said Arendi and Susman Godfrey have

"strong motivations to push the envelope on 'inadvertently' disclosing Apple's confidential information" for "the ultimate benefit of Plaintiff's licensing regime and Plaintiff's counsel's litigation strategy." Susman Godfrey previously represented Arendi in other patent lawsuits against companies including Apple, Samsung and LG. Apple asked the court to award an unspecified amount of fees for the "flagrant violations."

KIRITKUMAR OGANJA IS CHOSEN TO LEAD THE RCTA AS ITS NEW PRESIDENT

“PERSONAL COMPUTER TODAY” IS INVITED AS MEDIA PARTNER FOR THE YEAR 2023-2025

MR. KIRITKUMAR OGANJA
PRESIDENT

Shri Kiritkumar, who has held a variety of positions, adds that after taking on this new duty, his goal is to advance the association while maintaining a grounded attitude. Discipline-timing and Association principles will receive greater weight from us. Increasing the number of association members is our aim.

Shri Kiritkumar Oganja was just elected as the new president of the Rajkot Computer Traders Association, and good wishes are flooding in from all who wish him well. It should be remembered that the Rajkot Computer Traders Association (RCTA) was established in the year 1996. The Federation of IT Association of Gujarat (FITAG) and RCTA collaborate. Rajkot Computer

Traders Association is the most well-known amongst 44 such associations that operate under the auspices of FITAG. New recruits are given management responsibilities every two years.

Now, for two years Mr. Kiritkumar Oganja is the newly selected president of RCTA by members. Bhaveshbhai Marakana is selected as the new vice-president, Prashantbhai Pipaliya as the new secretary, Kaushikbhai Parikh as the new Joint-Secretary and Chetanbhai Vakhariya as the new treasurer.

Every year, the association (RCTA) puts on medical camps, cultural events, sporting events, and get-togethers. The newly elected President, Shri Kiritkumar, states that he will endeavour to innovate these activities this time. We'll do our work on the ground. We'll work to find agreeable solutions to the issues that small-time traders are facing. In order to prepare our staff for the newest advancements in information technology, we will set up specialised training programmes. We shall pay close attention to the association's discipline, timing, cohesion, and strength.

Shri Kiritkumar Oganja has

MEDIA PARTNER

acted appropriately for the last ten years in his roles as a committee member, joint secretary, secretary, and treasurer. He is so familiar with how the association operates that he can handle problems with it and make positive adjustments. He continues by saying that our association is not about titles and positions but rather responsible teamwork for the wellbeing of the members. His main goal is to "take the association ahead," which is why RCTA is in front amongst 44 FITAG associations.

According to Shri Kiritkumar, a medical health check-up camp and sporting events would be held this year as they are every year. An awareness campaign against cyberfraud is also planned this year. Additionally, a B2B and B2C tech fair is in the planning stages, which will significantly improve trader business and raise association revenue. We'll set

up a charity programme for the less fortunate as well. This year's Navratri garba will take place as usual, and there are also plans for a get-together. To give you all a better idea of Kiritkumar's character, he enjoys trekking and touring in nature. He has been frequently undertaking Himalayan tracking for the past 15 years. He enjoys playing cricket in sports. He is an accomplished swimmer and a member of the International Swimming Pool. He has a lot of friends and well-wishers because of his outgoing attitude.

Shri Kiritkumar claims that because he began his business on a very modest scale, he is an expert on the challenges faced by part-time traders. He said that in 1995, with just one computer system, he founded the company "PC Systems" with the help of his older brother. Prior to that, in 1991, computer training classes under the name "Patel Computers" had been launched by his family. The students who attended classes, inquired about purchasing computers, which became the basis for beginning a computer sales firm. As a result, PC Systems was established, and it has since grown to be well-known in Saurashtra for its goods

MR. UDAYKUMAR BHOJANI
EDITOR - PCT Magazine

and services.

This is why Kiritkumar is familiar with the concerns that computer merchants who deal in laptops, desktops, CCTV, networking, etc. experience in the real world. The newly elected council would prioritise preserving and strengthening the link between service centre and traders.

In order to cover all of the association's events, Shri Kiritkumar Oganja has invited the widely read publication "Personal Computer Today" from all around India. Only "Personal Computer Today" will cover all of the association's activities.

For further details please contact Shir Kiritkumar at PC Systems, 4-Sardarnagar, near Astron chowk, Tagore Marg, Rajkot (94282 11618).

તમારા ફોનમાંના ફોટા અને ઈ-મેઈલ મુસીબત બની શકે

સંકલન :- અનિશ ઈનામદાર

વિશે લખ્યું હતું કે, એ રોજ હજારો તસવીરો ખેંચતો હતો. પછી, કલાકોના કલાકો એ તસવીરોનું પ્રોસેસિંગ કર્યા કરતો હતો. એને માટે એક અખબારે લખ્યું હતું કે, “એ માગસ પોતે પાડેલા ફોટા ફરી વાર ક્યારેય જોતો પાળ નહોતો, પાળ એને એવું લાગતું હતું તે ભવિષ્યમાં આ તસવીરોનું કોઈને કોઈ કામ ચોક્કસ જ પડી શકે છે. ડિજિટલ સંઘરાખોરીની કંઈક આ રીતે વ્યાખ્યા કરવામાં આવી છે, “ડિજિટલ ફાઈલોનો એવી રીતે ભંડાર ભરતાં જવું કે એને સંભાળવાનો, સાચવવાનો મક્કસ જ ક્યાંક ખોવાઈ જાય’. આવી સંઘરાખોરીનું આ એવું નવું રૂપ છે, જેને મનોવૈજ્ઞાનિક માંદગી કહેવામાં આવે છે. નેધરલેન્ડની આ તસવીરકાર વ્યક્તિ પહેલા તમામ બિનજરૂરી વસ્તુઓનો સંઘરો કરતી હતી. બ્રિટનમાં લંડનની નોર્થમિથ્રિયા યુનિવર્સિટીમાં ડિજિટલ સંઘરાખોરી સંબંધે રિસર્ચ કરનારો નિક નિવ કહે છે કે, “જેમ આપણે રોજરોજના જીવનમાં બિનજરૂરી ચીજોને હટાવતા કે દૂર નથી કરતાં, પાળ એને સંભાળીને રાખીએ છીએ એવું જ બરાબર ડિજિટલ જગતમાં થઈ રહ્યું છે. જ્યારે આપણે અસલી સંઘરાખોરીની વાત કરીએ છીએ ત્યારે અન્યને કહીએ છીએ કે આ શો બિનજરૂરી ચીજોનો ઢગલો રાખ્યો છે, કાઢી નાખો નકામી વસ્તુઓ...ત્યારે તરત જ એ વ્યક્તિ તમને જવાબ આપે છે કે, કદાચ ભવિષ્યમાં આમાંનું કશું કામ લાગે તો...!! બરાબર આવું જ ઈ-મેલોનો દરિયો કે પહાડ સર્જી નાખનારાઓનું હોય છે.

લોકો શું કામ જમા કરે છે, ડિજિટલ ડાટા...?? એવો સવાલ થયો સાહજિક છે. એનો જવાબ શોધવા માટે નિક નિવ અને એની ટીમે જમાખોરી પરની રિસર્ચ દરમિયાન ૪૫ લોકો સાથે વાત કરી અને એમને પૂછ્યું કે તેઓ આવો ડિજિટલ ઢગલો કેમ સાચવીને બેઠા છે? આ લોકોએ એનાં અનેક કારણો ગણાવ્યા જેમકે, આજસને કારણે અથવા ભવિષ્યમાં કોઈ ચીજ કામ આવી જાય તો, કોઈ ચીજને કાયમ માટે ડિવિટ કરવાથી શું થશે એવો અજ્ઞાત ભય, અથવા કોઈની વિરુદ્ધ ડેટાનો ઉપયોગ કરવા માટે જતન કરવું વગેરે. ડિજિટલ જમાખોરીમાં પહેલો નંબર આવે છે ઈ-મેલોનો. મોટાભાગના લોકો ખાતગી કે અંગત અને ઓફિસિયલ મેલ ઈ-મેલ અકાઉન્ટમાં હજારો મેલ પડેલાં હોય છે.

ઓફિસના ઈ-મેલ ડિવિટ ન કરવા પાછળ લોકોનો એક જ વિચાર હોય છે કે ક્યાંક ભવિષ્યમાં આમાંથી કશાની કદાચ જરૂર પડશે, પાળ હકીકત એવી હોય છે કે, આમ સાચવીને, જતનપૂર્વક સંભાળીને રાખેલા ઈ-મેલ આપણે ભાગ્યે જ ફરી જોઈએ છીએ કે વાંચીએ છીએ. નિક નિવ કહે છે કે, “લોકોને ખબર છે કે ઈ-મેલોનો આ પહાડ એક સમસ્યા છે, પાળ તમામ કંપનીઓની કામ કરવાની રીતને કારણે તેઓ આવા મેલને ડિવિટ કરવાથી ખચકાતાં-અચકાતાં હોય છે. એની સાથે જ નિક નિવ એમ પણ કહે છે કે, ડિજિટલ સંઘરાખોરી પર રિસર્ચ હમણાં નવી નવી છે એટલે એકદમ કોઈ નિષ્કર્ષ પર પહોંચવું બરાબર નથી. વળી, એવું પણ જોવામાં આવ્યું છે કે ડિજિટલ ડેટાના ઢગલામાંથી કામની ચીજની તલાશ તો અતિશય મુશ્કેલ છે. લગભગ વાર આપણે બધા ઈ-મેલના દરિયામાંથી જરૂરી મેલ શોધવામાં મુશ્કેલી ઉઠાવીએ છીએ. ફોટાના ઢગલામાંથી જરૂરી તસવીર શોધીને મરી જવા છતાં મળતી નથી. ઓસ્ટ્રેલિયાની મોનાશ યુનિવર્સિટીના દર્શના સેડરા છેલ્લાં કેટલાંક વર્ષોથી ડિજિટલ સંઘરાખોરી પર રિસર્ચ કરે છે. એમણે આ મામલે જેટલા લોકો સાથે વાતચીત કરી એમાંના મોટાભાગના લોકોને ડિજિટલ ડેટામાંથી શોધવામાં મુશ્કેલી પડી જ છે. ડિસેમ્બર ૨૦૧૮માં દર્શના સેડરાએ પોતાની સાથી સંશોધક સચિત્રા લોકુગેના સંગાથમાં એક રિસર્ચ પેપર પ્રકાશિત કર્યો હતો. એમણે ૮૪૬ લોકો સાથે વાત કર્યા બાદ એવો નિષ્કર્ષ કાઢ્યો હતો કે, ડિજિટલ ડેટાના ઢગલામાંથી જરૂરી ચીજોને તલાશવામાં-શોધવામાં એ લોકોને તાણાવ થયો હતો. વિનાકારણે સામાન એકઠો કરનારા લોકોને પણ ડિજિટલ જમાખોરી કરવાની આદત પડી જાય છે. આવા લોકો મોટા ભાગે તાણ-તંગદિલી-દબાણ-તાણાવના શિકાર બને છે.

અમે રિકાની વિસ્કોન્સિન વ્હાઈટવોટર યુનિવર્સિટીમાં આઈટીના પ્રોફેસર જે એન ઓરાવેક કહે છે કે, ડિજિટલ સંઘરાખોરીનો ફક્ત એટલો જ મતલબ નથી કે, તમે ઢગલાબંધ ડેટા જમા કરી રાખ્યો છે. ખરેખર તો એવી વાત છે કે, આપણી પાસે જે ડેટા જમા છે એની ઉપયોગિતાની આપણને જાણ છે કે નહીં? જે તમને એ સંખ્યાબંધ મેલની ઉપયોગિતાની જાણ હોય તો આપણે એને સંઘરાખોરી ન કહી શકીએ. જોકે, મેડમ પ્રોફેસર

ઓરાવેક કહે છે કે, જ્યારે આપણે વિના કારણે ડેટા એકત્ર કરવા લાગીએ છીએ તો એને સંઘરાખોરી કહેવાય છે. એનાથી આપણા આંતરિક માનસિક સંતુલન પર અસર પડી શકે છે. ઘણા લોકોને આંકડાના આવા ઢગલાને પગલે મુશ્કેલી થાય છે. એ લોકો પરેશાન થઈ જાય છે. ઢગલાબંધ ફાઈલોના ઢગલામાંથી જરૂરી ફાઈલ શોધવામાં દિક્કત થાય છે. એટલે કે આપણે આપણા જ ડેટા પરથી નિયંત્રણ ખોઈ બેસીએ છીએ. આ મુસીબતનું મૂળ સ્ટોરેજની વધતી જતી ઉપલબ્ધતામાં રહેલું છે. ઘણી કંપનીઓ કલાઉડ સ્ટોરેજની સગવડ મામૂલી ભાવે આપે છે એટલે આપણા ફોનમાં, લેપટોપ કે કમ્પ્યુટરમાં ડેટા સંભાળવાની, સાચવવાની જગ્યા-સ્પેસ વધતી જાય છે અને એમાંથી ડિજિટલ ડેટાની સંઘરાખોરી વધતી જાય છે. પ્રોફેસર એન ઓરાવેકનું કહેવું છે કે, ડિજિટલ ડેટા સ્ટોરેજની સુવિધા આપનારી કંપનીઓએ એ બાબતનો નવેસરથી વિચાર કરવો જોઈએ. સામે પક્ષે લોકો પણ પોતે સાચવેલા ડેટાને ફરી ફરી જુએ અને એમાંથી બિનજરૂરી ફાઈલો સમયાંતરે ડિવિટ કર્યા કરે. સેલ્ફીના ઢગલા, વાળજેલી ઈ-મેલ અને બીજી બિનજરૂરી ફાઈલોનો પહાડ સર્જવાથી કશો ફાયદો નથી. એનાથી માનસિક તાણ-તાણાવ વધે છે. એ બધું દૂર કરીને આપણે આપણા પોતાના ખરા ડિજિટલ ખજાનાનું ખરા અર્થમાં નિયંત્રણ કરી શકીએ છીએ. ટૂંકમાં ડિજિટલ ડેટાનો દરિયો સર્જવાને બદલે ખરા અર્થમાં ડિજિટલ ડેટાનો અમૂલ્ય ખજાનો જ બનાવીએ.

(મુંબઈ સમાચાર માંથી સાભાર)

ટીચર નહીં, ટેકનોલોજી માર્ક આપે છે

સંકલન :- અનંત મામતોરા

કોઈક વાર શિક્ષકની શીખવવાની રીત નબળી હોવાને કારણે તો ક્યારેક વિષય અધરો કે કંટાળાજનક હોવાને કારણે વિદ્યાર્થીઓને ક્લાસમાં બગાડા આવતા હોય છે કે તેઓ ઝોકે ચડી જતા હોય છે. એમાંય ગણિતનો ક્લાસ હોય ત્યારે એ શરૂ થાય ત્યારથી જ એ ક્યારે પૂરો થાય એ માટે વિદ્યાર્થીઓ સતત ઘડિયાળ પર નજર દોડાવતા રહેતા હોય છે. બીજગણિતનો ક્લાસ હોય ત્યારે એકધ્યાન રહેવા માટે વિદ્યાર્થીઓએ ફાંફાં મારવા પડતા હોય છે. જેનિક્સ ટર્નર નામની શિક્ષિકા અગાઉ આ સમસ્યાનો સામનો કરી રહી હતી. આજે જોકે પરિસ્થિતિ બદલાઈ ગઈ છે. હવે બીજગણિતના જ ક્લાસમાં વિદ્યાર્થીઓ એકચિત્તે ટીચર શું શીખવી રહ્યા છે એના પર ધ્યાન આપે છે, પૂછેલા સવાલોના જવાબો આપે છે. આ બદલાવનું શ્રેય જાય છે અદ્યતન ટેકનોલોજીને. એઆઈ તરીકે ઓળખાતી આર્ટિફિશિયલ ટેકનોલોજીના માધ્યમની મદદ મળવાને કારણે મિસિસ ટર્નરને શીખવવામાં આસાની થઈ રહી છે.

ક્લાસરૂમમાં ટીચરની જેટલું જ અને કદાચ એથી વધુ મહત્ત્વ ટેકનોલોજીનું જોવા મળી રહ્યું છે. એનો એક ફાયદો ટીચરને એ થઈ રહ્યો છે કે મિસિસ ટર્નર જે ટેકનોલોજી વાપરે છે એ વિદ્યાર્થીએ સ્ક્રીનમાં કરેલા કામનું પરીક્ષણ કરી એને પોતાની રીતે માર્ક આપી શકે છે. બીજી મહત્ત્વની વાત એ છે કે વિદ્યાર્થીઓ ઘરે હોય ત્યારે ઓનલાઈન લેક્ચર્સનો અભ્યાસ કરી શકે એવી ગોઠવાણ ટીચરે એમના માટે કરી હોય છે. આ નવી વ્યવસ્થાથી ટીચર તો ખુશ છે જ, સાથે

સાથે વિદ્યાર્થીઓ પણ રાજીના રેડ થઈ ગયા છે. ઘણું સ્ટેન કામ ઓનલાઈન પોતાને સમય મળે ત્યારે વિદ્યાર્થીઓ કરી લેતા હોવાને કારણે નિયમિત ક્લાસમાં ટીચર અન્ય એક્સરસાઈઝ માટે સમય ફાળવી શકે છે જેમાં વિદ્યાર્થીઓનો સહભાગ વધારે હોય છે. જમાનો બદલાઈ રહ્યો છે. એલોગેરિધમ તરીકે ઓળખાતી ટેકનોલોજી ક્લાસરૂમમાં પગપેસારો કરી ચૂકી છે. વિદ્યાર્થીને માર્ક કે ગ્રેડ આપવા, વિદ્યાર્થીની આવડત મુજબ એને કોર્સ આપવા જેવા કામ આ ટેકનોલોજીની મદદથી સહેલાઈથી કરવામાં આવી રહ્યા છે. આ ઉપરાંત ઘણાં કોર્સ અને ટ્યુટોરિયલ્સ ઓનલાઈન ઉપલબ્ધ હોવાને કારણે ટીચરો હવે સ્ટેન લેક્ચર ઓછા આપી રહ્યા છે. એની બદલે શિક્ષક અને વિદ્યાર્થી વચ્ચે આદાન-પ્રદાન વધી રહ્યું છે. સંશોધન કરનારા મજબૂત રીતે કામ કરે છે એ સમજવાનો પ્રયાસ કરી રહ્યા છે. એ સમજીને પછી મળેલી માહિતીનો ઉપયોગ શિક્ષણ પદ્ધતિમાં કરવા માગે છે. તેમને વિશ્વાસ છે કે એને કારણે વિદ્યાર્થીઓ માટે ભાગુતર આસાન અને આનંદદાયક બની જશે. આ નવી ટેકનોલોજી વિદ્યાર્થીની પ્રગતિ પર તો નજર રાખે જ છે, એમની નબળાઈ પણ શોધી શકે છે. આ ઉપરાંત પ્રત્યેક સ્ટુડન્ટની જરૂરિયાત મુજબ કન્ટેન્ટ પૂરું પાડી શકે છે. હવે આ ટેકનોલોજી એક ડગલું આગળ વધશે જેમાં માનવ જેવી એક પ્રતિકૃતિ (ઈન્ટરફેસ) વિદ્યાર્થી માટે હાથવગી હશે જેની સાથે વિદ્યાર્થી ટીચર પાસેથી શિક્ષણ મેળવતો હોય એ જ રીતે મેળવતો રહેશે.

એ વાત સોળ આના સાચી છે કે વર્ગમાં અનુભવી શિક્ષક જ શ્રેષ્ઠ શિક્ષણ આપી શકે. જોકે, એ ઘણું ખર્ચાળ હોય છે, એમાં લોકોને

નોકરીએ રાખવા પડે છે અને મોટી સંખ્યામાં વિદ્યાર્થીઓને શિક્ષણ આપવામાં આ વ્યવસ્થા અસરકારક નથી નિવડતી. એઆઈ આ બાબતનું નિરાકારણ લાવી શકે છે.

આ નવી પદ્ધતિ કેટલી અસરકારક છે એનો અભ્યાસ કરવામાં આવ્યો છે અને પરંપરાગત રીતે શિક્ષણ આપાતું હોય ત્યારે

વિદ્યાર્થીનું જે પર્ફોર્મન્સ હોય એના કરતાં આ નવી પદ્ધતિમાં તેમનું પર્ફોર્મન્સ ચઢિયાતું રહ્યું છે. શિક્ષકની સરખામણીમાં કમ્પ્યુટર વધુ ધીરજથી કામ લઈ શકતું હોવાને કારણે તેમ જ તેની નજર વધુ દૂર સુધી પહોંચી શકતી હોવાને કારણે છેવટે ફાયદો તો વિદ્યાર્થીને જ થાય છે.

81 LAPCARE DEALERS ENJOY AMAZING DUBAI TRIP

ALL EXPENSES PAID 6-DAY DUBAI TRIP, IS THE CULMINATION OF LAPCARE'S GRAND REWARDS PROGRAM 2022, A UNIQUE INCENTIVE PROGRAM FOR ALL DEALERS NATIONALLY

Lapcare Dealers at the Ultra-Modern Ferrari World Abu Dhabi

Lapcare Dealers enjoying many attractions in Dubai

Lapcare, the quintessential Dealer's Brand concluded their "Diwali Dhamaka 2022" rewards program this month by rewarding 81 best performing Dealers with an all-expenses-paid 6-day Dubai Trip. This is the 3rd and final leg of the reward program. The 1st Leg featured a Goa Trip and the 2nd Leg featured the highly anticipated Europe trip. The entire program (all 3 Legs) were heavily applauded by the ICT Dealer fraternity nationally. The sequence of high-profile events is an industry first. Never before has a Brand sponsored so many high-value reward programs in

such quick succession. Lapcare's Managing Director, Mr. Atul Gupta, said after the conclusion of the program, "Our channel partners are our greatest assets and our closest cohorts. The Dubai Trip was a resounding success; immaculately executed and delightfully experienced. It's our way of giving back to our partners, and we will continue to champion the Dealer's cause in the current fiscal, and future years". The recently concluded Dubai trip should be considered as the Grand Finale of an already memorable sequence of rewards. All 81 dealers, some of whom journeyed with

spouse and children, were awe-struck by the spectacle of Dubai, a city that seems to have a new battery of attractions every few years. The Lapcare entourage stayed together and journeyed together to see some of the World most sought-after attractions – The Burj Dubai, Ferrari World, Dubai Frame, Dubai Mall, Mall of the Emirates, Palm Island, Atlantis, Burj-Al-Arab, Dhow Cruise, Desert Safari and the white sand beaches of Jumeirah. Some even tried daredevil adventure sports like Sky Diving and Jetpacking at 'The Palm'. Probably the biggest highlight of the trip for some was Abu

Dhabi's Ferrari World, featuring the World's Fastest Roller Coaster, and the world's highest 'Loop'. Awesome for some, but not really for the faint hearted. Best performing dealers from across India were thrilled to experience Dubai's famed luxury shopping, ultramodern architecture, lively nightlife, and unique cosmopolitan culture greatly influenced by the subcontinent. Lokesh Kumar, a Dealer from Delhi (M/S Vaishali infoserv) said "Among all Brands, Lapcare values the Dealer the highest; this grand Dubai trip, with its many marvelous attractions, only underscores what we have always known -

- Lapcare is truly the Dealer's Brand". Dealer Rajiv Mehta from Udaipur, who travelled with his wife Preeti, won a special award for Best Performance in 2 categories, and stated "for me this 6-Day tour it has been the trip of a lifetime; I am very pleased with the care and respect I have received from the RX Team". Other awardees who were part of the Gala Award Night in Dubai included Vishnu Agarwal & Nidhi Agarwal (from Astric Infotech Kolkata), Rahul Giri & Poonam Bharti (from Radiant Infosystems Ranchi), Mohit Dugar & Priya Singhi (from Arihant Computer Bhubaneswar), and many others.

LAPCARE CAPTIVATES PUNJAB

POPULAR ICT BRAND ANNOUNCES MAJOR EXPANSION PLANS IN PUNJAB; HOLDS MULTIPLE DEALER CONVENTIONS

Members of JCDJ Jalandhar with Lapcare staff

Amritsar Dealers with Lapcare Team

Reputed national ICT Brand, Lapcare, conducted a series of Dealer Conventions in Punjab recently, attended by over 500 ICT Businessmen statewide. Held under the auspices of various regional Dealer's Associations, the events took place in - Amritsar, Jalandhar and Patiala respectively. Lapcare announced plans to expand operations in Punjab, by introducing more product lines, enlarging the Retailer base, offering more secondary sales support to businessmen, and making additional strategic partnerships. Office bearers and key members of multiple Associations in Punjab attended the conventions,

and lauded Lapcare's commitment to the state. This included JCDJ from Jalandhar, ACTA from Amritsar, and the all Punjab Association PACT. Organized in collaboration with stalwart Regional Distributors, these conventions gave the ICT fraternity a chance to familiarize themselves with Lapcare's immense product variety, upcoming SKUs, research & development efforts, after-sales service process, techniques for more effective retailing, collaboration between Marketing Channel partners and special offers. The Lapcare team also gave attendees a peek into the near-term future, where new sub-genres of products are

expected to hit the market, starting this month. These include trendy lifestyle based genres like Sports Neckbands, Smart Watches (Wearable Computers) and smart speakers. Many products were kept on display and some were demonstrated live. These Business Meets are part of a wider Roadshow being conducted by Lapcare nationwide in 2023. During the summer and monsoon, the Roadshow Tour is expected to head towards Maharashtra, Goa, Karnataka and Kerala. This is a chance for dealers to interact directly with Lapcare's senior team and see demos first hand. Vikas Narang, former Head of PACT (a federation of all

Punjab Associations) remarked, "Not only has Lapcare reinforced they're position as a major force in the Peripherals & Spares sector, they have also demonstrated proven expertise in various other subcategories, such as Sound Systems, Gaming, Mobility, Networking and several others". Post event, Lapcare's MD, Atul Gupta said "We hail the vibrant MSME sector of Punjab, reflecting the enterprising spirit of the State. Our products are geared to enhance productivity of the MSME sector, and also provide effective solutions to quality & brand conscious Punjab consumers". Lapcare sees great potential for its

products in Jalandhar, since the city is an NRI hub, has been selected in the second phase of the smart city project. Lapcare's large speakers (Ramp, Beast and Lapsonic) were stars of the show, much lauded by visitors. In a region that loves lively upbeat music, these products are public favorites. The twin tower speakers, with extra heavy bass and true surround sound, are perfect to pair with your TV to enhance viewing experience. Lapcare's Portable speakers with their convenient grab-and-go compact design were also on display, much desired by today's youngsters and the young-at-heart, who love outdoor recreation and adventure.

OPENAI MAY FACE ITS FIRST DEFAMATION LAWSUIT OVER CHATGPT CLAIM ABOUT AUSTRALIAN MAYOR

A regional Australian mayor said he may sue OpenAI if it does not correct ChatGPT's false claims that he had served time in prison for bribery, in what would be the first defamation lawsuit against the automated text service.

Brian Hood, who was elected mayor of Hepburn Shire, 120km (75 miles) northwest of Melbourne, last November, became concerned about his reputation when members of the public told him ChatGPT had falsely named him as a guilty party in a foreign bribery scandal involving a subsidiary of the Reserve Bank of Australia in the early 2000s.

Hood did work for the subsidiary, Note Printing Australia, but was the person who notified authorities about payment of bribes to foreign

officials to win currency printing contracts, and was never charged with a crime, lawyers representing him said.

The lawyers said they sent a letter of concern to ChatGPT owner OpenAI on March 21, which gave OpenAI 28 days to fix the errors about their client or face a possible

defamation lawsuit.

OpenAI, which is based in San Francisco, had not yet responded to Hood's legal letter, the lawyers said. OpenAI did not respond to a Reuters email out of business hours.

If Hood sues, it would likely be the first time a person has sued the owner of ChatGPT

for claims made by the automated language product which has become wildly popular since its launch last year. Microsoft integrated ChatGPT into its search engine Bing in February.

A Microsoft spokesperson was not immediately available for comment.

"It would potentially be a landmark moment in the sense that it's applying this defamation law to a new area of artificial intelligence and publication in the IT space," James Naughton, a partner at Hood's lawfirm Gordon Legal, told Reuters.

"He's an elected official, his reputation is central to his role," Naughton said. Hood relied on a public record of shining a light on corporate misconduct, "so it makes a difference to him if people in his community are accessing

this material".

Australian defamation damages payouts are generally capped around AUD 400,000 (roughly Rs. 2,20,95,602). Hood did not know the exact number of people who had accessed the false information about him - a determinant of the payout size - but the nature of the defamatory statements was serious enough that he may claim more than AUD 200,000 (roughly Rs. 1,09,70,118), Naughton said. If Hood files a lawsuit, it would accuse ChatGPT of giving users a false sense of accuracy by failing to include footnotes, Naughton said.

"It's very difficult for somebody to look behind that to say 'how does the algorithm come up with that answer?'" said Naughton. "It's very opaque."

SAMSUNG GALAXY TAB S9 ULTRA SPECIFICATIONS LEAKED, SUGGESTS SIMILAR FOOTPRINT AS PREVIOUS MODEL

Samsung announced its Galaxy Tab S8 series of tablets last year in February alongside its Galaxy S22 series. This year, plans for the same appear to be postponed or delayed as its tablet lineup went missing from its Unpacked event. Lately, we have only begun to see some leaks trickle down the rumour mill. Thanks to a recent leak we now know that the tablets could be announced in the second half of this year and that they could pack in the latest processors from Qualcomm. And now, we have another leak, which gives out more details about the upcoming Galaxy Tab S9 Ultra tablet.

According to tipster Ice Universe (@UniverseIce),

the most high-end model in Samsung's upcoming Galaxy Tab S9 series will feature hardware similar to the current model. The Samsung Galaxy Tab S9 Ultra is expected to have the same

dimensions as the outgoing Galaxy Tab S8 Ultra. The tablet is said to measure 208.6 x 326.4 x 5.5mm, which the tipster claims is similar to the current model. The upcoming tablet's display

could also feature similar dimensions. We can expect it to be a 14.6-inch panel sporting a resolution of 2,960 x 1,848 pixels (WQXGA+). No details about refresh rate have been leaked.

An upgrade on the design front is an IP rating. While a previous leak mentioned an IP67 rating coming to the entire Galaxy Tab S9 series, the tipster mentions that the Galaxy Tab S9 Ultra tablet will get an IP68 rating. The tablet is expected to weigh 737g, which is about the same as the outgoing model.

Given the similar dimensions, the battery's capacity and charging speeds also remain the same as the current model. The Galaxy Tab S9 Ultra as per the new leak is

expected to have a 11,200mAh battery, which could support 45W wired charging. This is different from a previous report, which detailed that the Galaxy Tab S9 Ultra would have a 10,880mAh battery.

The older report also pointed to the new Tab models getting upgraded to Qualcomm's Snapdragon 8 Gen 2 SoCs. The latest leak also indicates the same along with a 16GB LPDDR5X RAM option, which was a variant also announced with the outgoing model. What remains unclear is whether Samsung will go ahead with its customised platform for Galaxy like it did with the new Galaxy S23 series, or the regular processor.
