**TECNO PHANTOM V FLIP ALLEGEDLY SPOTTED ON  
GOOGLE PLAY CONSOLE LISTING ON DIMENSITY 1300 SOC**

Tecno Phantom V Flip launch could happen very soon. The Transsion Holdings subsidiary is yet to confirm the official launch date of the smartphone, but ahead of it, the purported clamshell foldable phone has reportedly appeared on the Google Play Console website with model number AD11. The listing suggests MediaTek Dimensity 1300 SoC on the Tecno Phantom V Flip. It is expected to run on Android 13. Tecno's foldable smartphone portfolio currently includes the Tecno Phantom V Fold that went

official earlier this year. A report by Pricebaba has revealed screenshots of the listing of Tecno Phantom V Flip on the Google Play Console website. The screenshots indicate model number AD11 for the device. The listing suggests 8GB RAM, and Android 13 operating system on the upcoming handset. It is listed with MediaTek Dimensity 1300 SoC, coupled with ARM Mali G77 GPU. The listing shows a full-HD+ display with 1,080x2,640 pixel resolution and 480ppi pixel density on the flip phone.

Further, the Google Play Console listing purportedly includes an official-looking image that shows the Tecno Phantom V Flip with its hole-punch design and a curved display. As of now, Tecno has not mentioned anything about the existence of the Tecno Phantom V Flip. Past leaks suggested an October launch

timeline for the device. It is expected to come in Film White, Minimal Black, and Periwinkle Purple colour options. The Tecno Phantom V Flip 5G is tipped to feature a 6.9-inch AMOLED full-HD+ primary display and a 1.32-inch AMOLED outer panel with a resolution of 466 x 466 pixels. Past reports suggest that the handset would be powered by an octa-core MediaTek Dimensity 8050 SoC, coupled with 8GB of RAM and 256GB of inbuilt storage. It is likely to flaunt a dual camera unit at the rear,

including a 64-megapixel primary rear sensor and a 13-megapixel sensor. The Tecno Phantom V Flip 5G could get a 32-megapixel front camera. It is likely to be backed by a 4,000mAh battery with support for 45W fast charging. Tecno currently has a book-style foldable Tecno Phantom V Fold in its portfolio. The handset was released in April in India with a price tag of Rs. 88,888. The upcoming Tecno Phantom V Flip is expected to compete with the likes of Galaxy Z Flip 5, Oppo Find N2 Flip and Moto Razr 40.

# DYNAMIC BUSINESS LEADER-2023 BY ET FROM TIMES OF INDIA GROUP

This is to felicitate the leaders from various fields who have contributed a lot in the development of the region in various ways.

**Mr. V. K. Bhandari**  
Chairman & M.D.  
Supertron Electronics Pvt. Ltd.

Established in 1993, Supertron Electronics Pvt Ltd [SEPL] is one of the leading Indian companies in IT product distribution and services with an ISO 9001:2008 Quality Certification. The company that started with the aim to provide cost-effective products and solutions in all areas of IT with a few lakhs as capital, has today grown into a professionally managed supply-chain specialist. Founded by Mr. V. K.

Bhandari, Supertron is a leading distribution house of Information Technology and Telecom company in India which has graduated from regional to national level within a short span of time. Mr. V.K Bhandari, Supertron Electronics, Pvt, Ltd shared the journey of his brand, product portfolio, innovations, and future prospects.

Kindly brief us about yourself. Supertron Electronics Pvt. Ltd. with a rich history spanning three decades, has established itself as a prominent distribution business throughout India. Our journey began in Kolkata, and over time, we've expanded our operations across the nation. With an impressive network of 38 branches and 13 satellite branches, our reach is extensive. Our growth trajectory is evident from crossing 5000 crore and projecting a rise to 7000 crore this year. Our success is underpinned by diversified

product lines and a robust network.

Our network stands as a pillar of strength, enabling us to cover every nook and cranny of India. Our focus lies in ensuring that any product bought from us reaches all corners of the country. Backed by over 20,000 registered partners, our versatility allows us to adopt a broad or limited distribution approach, aligned with product specifics and policies. Our broad portfolio encompasses more than just notebooks, desktops, and AI; our prowess extends to foreign and component domains. The distribution channel holds paramount importance for us, serving as our foundational strength. To enhance this strength, we're consistently expanding our product offerings. Four years ago, we launched our VAD (Value Added Distribution) division to tap into technological expertise we lacked. This led us to

collaborate with SI partners to understand customer needs for various segments such as government, high courts, and correctional facilities. Our approach involves jointly crafting solutions with vendors through SI partners. Our focus extends to growing our AV and storage verticals, bolstered by an 18-member technology team and our dedicated Supertron team.

In pursuit of providing an immersive experience, we've established a branch in Mumbai as an experiential center. This center showcases our range of products through a sophisticated and tech-driven demo center, serving as a significant accomplishment. Our presence in Dubai takes a unique direction, as we concentrate solely on cloud services. We envision replicating this focus within India through the VAD division, given the rising popularity of cloud services. In the upcoming months, we

plan to unveil two additional verticals, further diversifying our portfolio. In these challenging times, my message is simple: steer clear of market negativity. Instead, take proactive measures to eliminate shortcomings and cultivate positivity. Empower your partners to excel, emphasizing robust systems, transparent processes, and respecting human resources. By fostering these aspects, sales and profits will naturally follow. Remember, strengthening your foundation paves the way for enduring success.

## WHATSAPP ANDROID APP COULD GET NEW INTERFACE WITH WHITE TOP APP BAR, SUGGESTS BETA UPDATE

WhatsApp is reportedly working on a new interface for its Android app. The design tweak by the Meta-owned instant messaging app brings enhancements to the top app bar and UI elements, as per a report. In the new design, the top bar is shown in white colour, with other UI elements seen in green colour. WhatsApp's revamped design has been reportedly spotted in the WhatsApp for Android beta version 2.23.18.18, which is available via the Google Play Beta programme. However, it is not visible to all testers yet. Recently, WhatsApp also rolled out support for sending

HD photos and videos.

As per a report by WhatsApp features tracker WABetaInfo, WhatsApp is working on a new interface for its Android app. The design revamp was allegedly spotted in the

2.23.18.18 beta version for Android, which is available via the Google Play Beta programme. The new interface is still under development and is not visible to all beta testers.

The report comprises a screenshot of the new design. In the screenshot, the top app bar is seen in a white shade while other UI elements including the app name are shown in a green shade. The navigation bar is seen to be arranged at the bottom of the app.

The WhatsApp redesign could be a move from Meta to align itself with Google's latest Material Design 3 guidelines.

WhatsApp's upgraded user interface for Android is likely to be available in a future update. It may also get updated before the final release. The instant

messaging platform is said to be working on a design revamp of its iOS app as well. According to WABetaInfo, the changes were spotted with the latest WhatsApp beta for iOS 23.17.1.77 update in the TestFlight app.

Meanwhile, WhatsApp also started rolling out the ability to send HD videos through a new toggle in the app earlier this month. It also rolled out support for sending high-resolution images. With the WhatsApp for Android 2.23.17.74 update, users can share videos in 720p resolution instead of the standard — and default — 480p resolution.

## MOTO G84 5G WITH 5,000 MAH BATTERY, 50-MEGA PIXEL REAR CAMERA DEBUTS IN INDIA

Moto G84 5G was launched in India on Friday. The dual nano SIM-supported smartphone is available in a single storage option and three colour variants in the country.

It comes with a Qualcomm Snapdragon 695 SoC and a 5,000mAh battery with 33W wired fast charging support. The model succeeds the Moto G82 5G, which was released in 2022. The newly-launched model is also an

upgrade over the Moto G73 5G that was released earlier this year.

Moto G84 5G price in India, availability

The sole 12GB + 256GB variant of the Moto G84 5G is priced in India at Rs. 19,999. It is also available for a flat Rs. 1,000 discount on ICICI Bank credit cards or a Rs. 1,000 off in a Flipkart exchange offer, bringing the effective price down to Rs. 18,999. It will be available for purchase

starting at 12 PM IST on September 8.

Motorola offers the Moto G84 5G in Viva Magenta and Marshmallow Blue colour options with vegan leather finish. It is also available in a Midnight Blue 3D acrylic glass finish variant.

**Moto G84 5G specifications, features**

The Moto G84 5G features a 6.55-inch full-HD+ (2400 x 1080 pixels) pOLED display with a refresh rate of 120Hz

and a peak brightness level of 1300 nits. The phone is powered by an octa core Qualcomm Snapdragon 695 SoC paired with 12GB of RAM and 256GB of inbuilt storage.

Moto G84 5G ships with Android 13 and Motorola promises an year of Android updates and three years of security patches.

For optics, the dual rear camera unit of the Moto G84 5G includes a 50-megapixel

primary sensor and an 8-megapixel sensor. The front camera is equipped with a 16-megapixel sensor.

It packs a 5,000mAh battery with 33W wired fast charging support.

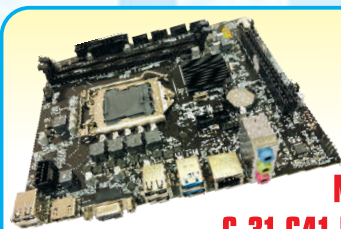

It comes with an IP54 rating for dust and splash resistance.

For security, it carries an in-display fingerprint sensor. It also supports 5G, GPS, Bluetooth, NFC and USB Type C connectivity.

# COMPASS SUCCESSFULLY CONDUCTED ITS CONCLAVE 2023 'IT KA MAHAKUMBH' (CELEBRATING 30 YEARS)

Compass, one of the recognized associations in Eastern India, organized Conclave '23 'IT Ka Mahakumbh' event at Westin, Kolkata. It has 350+ members across Eastern India.

The eagerly awaited event, COMPASS Conclave – IT Ka Mahakumbh started with great pomp and show today. This day was dedicated to Training, Productive Knowledge, Acknowledgement, and Motivation.

On this day, a series of impactful business sessions will take place. From 11:30 am to 1 pm, everyone will be invited to join us for Lunch & Networking. Precisely at 1:30 PM, the Opening Ceremony

and proceedings had begun. Some of the major sponsors are CP Plus, HP, Gigabyte, Asus, BenQ, Dell, Epson, Intel, and Lenovo.

The second day commenced a series of discussions and power packed sessions on the "Importance of Digital Marketing in Today's Scenario" – Presented by Mr. Sandeep Sengupta. It also involved a discussion on the eventful 30 Years Journey of COMPASS. Further the Talk Show on GST which comprises of Guest Speakers: Khalid Aizaz Anwar, IAS, Commissioner, Directorate of Commercial Taxes, Govt. of West Bengal, and Consultant Mr. Vivek Jalan. The session

**Mr. Neeraj Agrawal**  
President, Compass

will be moderated by Sri V.K. Bhandari.

It also will involve the felicitation of Committee Members and The Grand Finale: Motivational Speech by Mr. Sonu Sharma.

Speaking on the occasion, Mr. V K Bhandari, Mentor Compass and now Chairman, Superton says, "Before 7 years we had a vision to have an event where all the members from Eastern India partners, software developers, retailers, distributor, system integrator and on other side all brands could participate. All partners and vendors can participate and exchange ideas on technology, the future road map etc. We have worked hard for team of Compass for putting together 265 delegates and it's a great achievement and it has fallen on dream and IT fraternity has benefitted. Our aim or goal

should be the same where our voice should be strong enough to reach out to the government and nurture the experience of the veterans and benefit for IT fraternity."

Mr. Neeraj Agrawal, President, Compass said, "We are extremely excited to have organized this Mahakumbh event for the first time and we have 25 sponsors at Compass only, 250 delegates from IT fraternity from every corner. We thank all the sponsors and Compass members who are supporting us and working hard to make this plan a success. We know that members have full trust in us and this is what makes us proud."

## SONY XPERIA 5 V WITH 52-MEGAPIXEL EXMOR T CAMERA, SNAPDRAGON 8 GEN 2 SOC LAUNCHED

Sony Xperia 5 V was unveiled on Friday. The smartphone is available in a single storage variant and is offered in three colour options. It is powered by an octa-core Snapdragon 8 Gen 2 chipset. The phone packs a 5,000mAh battery with proprietary fast charging support. It succeeds the Sony Xperia 5 IV, which was released in September 2022 with a Qualcomm Snapdragon 8 Gen 1 SoC. However, the new handset sports a dual rear camera setup rather than a triple rear camera unit found on its predecessor.

Sony Xperia 5 V price, availability

The company has listed the 8GB + 256GB variant of the Sony Xperia 5 V at EUR 999 (roughly Rs. 89,700). It is offered in Black, Blue, and Platinum Silver colour options. The handset will start shipping in Europe, including

the UK, later this month. Sony has not yet confirmed the India launch of this model. Customers buying the phone between September 22 to October 26 from major UK retailers will be able to avail of an exclusive Xperia 5 V

launch bundle that comes with the Sony WH-CH720N headphones.

Sony Xperia 5 V specifications, features The Sony Xperia 5 V has a 6.1-inch full-HD+ (2520 x 1080) OLED HDR display with a refresh rate of 120Hz, a touch sampling rate of 240Hz, and an aspect ratio of 21:9. The phone ships with Android 13 and is powered by an octa-core Snapdragon 8 Gen 2 SoC paired with Adreno 740 GPU, 8GB of LPDDR5X RAM, and 256GB of UFS 4.0 inbuilt storage.

For optics, a dual rear camera unit is available on the Sony Xperia 5 V and includes a 52-

megapixel primary Exmor T sensor along with a 12-megapixel sensor with an ultra-wide-angle lens. The front camera is also equipped with a 12-megapixel sensor. Backed by a 5,000mAh battery, the Sony Xperia 5 V supports 30W wired fast charging. For security, it is equipped with a side-mounted fingerprint sensor. It also supports 5G, Wi-Fi 6E, GPS, NFC and USB 3.2 Type-C connectivity. The handset comes with an IP68 rating for dust and water resistance and has a 3.5mm audio jack. Weighing 182 grams, the phone measures 154mm x 68mm x 8.6mm in size.

## ONEPLUS PAD GO TABLET SAID TO BE IN THE WORKS, PURPORTEDLY SURFACES ON BIS WEBSITE

OnePlus Pad Go is said to be in the works as the second tablet offering from the Chinese tech brand. While details of the tablet are yet to be officially announced, references about the device have purportedly appeared on the OnePlus forums. The OnePlus Pad Go has also allegedly been spotted on the Bureau of Indian Standards (BIS) website, hinting at its imminent arrival in the Indian market. The OnePlus Pad powered by MediaTek Dimensity 9000 SoC was unveiled in February during the company's Cloud 11 event. It is backed by a 9,510mAh battery.

An X (formerly Twitter) user OneNormalUsername

(@1NormalUsername) spotted (via Android Authority) a remark about the "OnePlus Pad Go" and "OPD2304" on the OnePlus forums. The post, which is now removed from the Web, indicates the existence of a new OnePlus tablet.

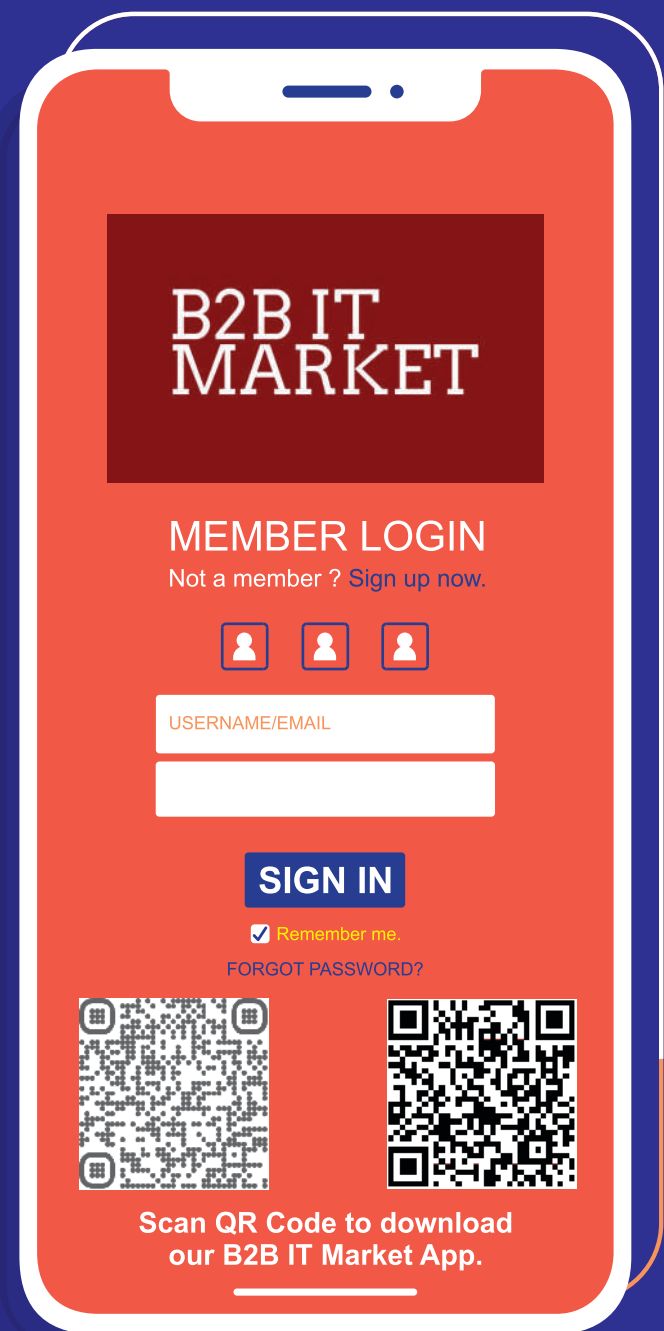

Additionally, the tipster posted screenshots of the purported listing of OPD2304 and OPD2305 on the BIS website. These model numbers are said to be associated with the Wi-Fi and cellular variants of the OnePlus Pad Go. The listing

dated August 16, 2023, does not reveal any specifications of the unannounced tablet. They are shown alongside the OPD2203, the model number of the OnePlus Pad. OnePlus has not yet announced any details regarding the existence of a new Android tablet, so this information should be considered with a pinch of salt.

The purported OnePlus Pad Go is expected to debut with upgrades over the OnePlus Pad. The latter went on sale in India in April this year with a starting price tag of Rs. 37,999 for the base model with 8GB of RAM and 128GB of storage. The variant with 12GB of RAM and 256GB of

storage is available at Rs. 39,999. It is offered in a single Halo Green finish.

The OnePlus Pad (review) features an 11.61-inch (2,000 x 2,800 pixels) LCD display with up to 144Hz refresh rate. It runs on MediaTek Dimensity 9000 SoC, coupled with up to 12GB of LPDDR5 RAM and up to 256GB of UFS 3.1 onboard storage. It carries a 13-megapixel camera module on the back with support for EIS and an 8-megapixel front-facing camera for shooting selfies. The OnePlus Pad comes with a 9,510mAh battery, bundled with a 100W charger in the box. However, the charging support of the tablet is capped at 67W.

IT NEWS MAGAZINE LAUNCHES

## B2B IT MARKET PLATFORM

FOR IT CHANNEL PARTNERS

B2B IT MARKET AN INDIAN STARTUP FOCUSED ON BRINGING TRANSFORMATION TO IT DISTRIBUTION

ANNOUNCED TODAY THE LAUNCH OF ITS  
**B2B DIGITAL PLATFORM**  
FOR GST REGISTERED IT CHANNEL PARTNERS

PLATFORM AIMS TO EXTENSIVELY USE TECHNOLOGY TO BRIDGE THE PLATFORM IS PARTNERING WITH LEADING IT COMPANY & IT DISTRIBUTORS & OEMS TO PROVIDE AN EXTENSIVE RANGE OF PRODUCTS FROM THIS PLATFORM.

## B2B IT MARKET COMMUNICATE WITH IT DEALERS, DISTRIBUTORS & IMPORTERS

50+ CATEGORY

Speaking on the launch, [Uday Bhojani, PCT Magazine Founder] of B2B IT Market said, "The Indian IT channel market is highly fragmented with over 100,000 resellers spread across 3,000 towns and cities. However, the channel partners face difficulties in sourcing products efficiently due to a lack of digital tools & hence making them non-competitive B2B other online/offline sellers, in their respective markets. B2B IT Market aims to bridge this gap by providing a one-stop solution for channel partners to discover products, check availability, compare prices, and complete purchases on a single platform.

B2B IT Market channel partners across india and the platform is live for contract. The company aims to reach over 10,000 channel partners in 100 cities within the first year of operations. B2B IT Market is headquartered in Rajkot (Gujarat) with Delhi, India.

# જાણીતા ગુગલની અજાણી વાતો

આપણે માટે ગૂગલ એટલે જાણે બીજું ઘર અને ઓફિસ! તેમ છતાં, સપ્ટેમ્બર ૪, ૧૯૯૮ના દિવસે જેની સત્તાવાર સ્થાપના થઈ તે ગૂગલ આપણા વિશે જેટલું જાણે છે, એટલું આપણે તેના વિશે જાણતા નથી. અત્યારે ગૂગલની નવ સર્વિસ એક-એક અબજથી વધુ યૂઝર ધરાવે છે - ગૂગલ સર્ચ (૩.૬ અબજ), એન્ડ્રોઇડ (૩ અબજ), કોમ (૨.૬૫ અબજ), ગૂગલ પ્લે સ્ટોર (૨.૫ અબજ), યુટ્યૂબ (૨.૧ અબજ), જીમેઇલ (૧.૮ અબજ) અને ગૂગલ ડ્રાઇવ, ગૂગલ ફોટોઝ તથા ગૂગલ મેપ્સ (૧-૧ અબજ).

આ બધી અને તે ઉપરાંતની ગૂગલની બીજી કેટલીય સર્વિસનો આપણે રોજરોજ, રાત-દિવસ ઉપયોગ કરીએ છીએ (તેમનો પૂરો લાભ લેવા જેટલી જાણકારી હોતી નથી એ અલગ વાત છે!). પરંતુ પાછલાં ૨૫ વર્ષમાં ગૂગલે એવા કેટલાય પ્રોજેક્ટ પણ શરૂ કર્યા, જે આપણો વર્તમાન અને ભાવિ બદલી રહ્યા છે. આમાંથી ઘણા પ્રોજેક્ટ નિષ્ફળ પણ ગયા. મહત્વનું એ છે કે ગૂગલે કમાણી કરવા ઉપરાંત, માનવજાત માટે ટેકનોલોજીના બહેતર ઉપયોગ વિકસાવવા તરફ પણ પૂરતું ધ્યાન આપ્યું. ગૂગલમાંથી આલ્ફાબેટ કંપની બની ત્યારે ગૂગલના સ્થાપક લેરી પેજે લખ્યું હતું કે “૧૧ વર્ષ પહેલાં, અમે ગૂગલ વિશે લખ્યું હતું કે ગૂગલ કોઈ પરંપરાગત, સામાન્ય કંપની નથી. અમે એવી કંપની બનવા માગતા પણ નથી. એ સાથે અમે એમ પણ કહ્યું હતું કે અમે તો પહેલી નજરે બિલકુલ વિચિત્ર લાગે એવી બાબતોમાં પણ

ઝંપલાવીશું, તમે તૈયારી રાખજો...” ગૂગલની જાણીતી સર્વિસિસનો ઉપયોગ કરવા ઉપરાંત, આવા ‘મૂનશોટ્સ’ તરફ પણ થોડું ધ્યાન આપવા જેવું છે.

## એક્સ કંપની

ડ્રાઇવર વિનાની કાર વિકસાવવી, આકાશમાં ઊડતાં વિરાટ બલૂન્સથી ઇન્ટરનેટ કનેક્શન આપવું, કોન્ટેક્ટ લેન્સનાં બે પડ વચ્ચે કમ્પ્યુટર ચિપ મૂકીને વ્યક્તિના બ્લડ સુગરનું સતત મોનિટરિંગ કરવું, પોતાની રીતે ઊડતાં ડ્રોનથી વસ્તુઓની ડિલિવરી કરવી, હવામાં ગ્લાઇડર જેવી વિશાળ પતંગ ઊડાડીને ઊર્જા પેદા કરવી... પહેલી વાર સાંભળીએ ત્યારે આ બધી વાત શેખચલ્લીની કપોળકલ્પના જેવી લાગે, પણ ગૂગલ આ બધા, સાવ તુક્કા જેવા લાગતા વિચારોને સિરિયસ પ્રોજેક્ટમાં ફેરવીને તેના પર રિસર્ચ કરે છે અને તેના વાસ્તવમાં અમલમાં મૂકવાની કોશિશ પણ કરે છે. આમાંથી કોઈ તુક્કો તીર બને, તો કોઈમાં માત્ર બોધપાઠ મળે! શરૂઆતમાં આ પ્રોજેક્ટસને ગૂગલે ખાસ્સા ખાનગી રાખ્યા હતા - લોકો ફક્ત એટલું જાણતા હતા કે ‘ગૂગલ એક્સ’ નામે કોઈ લેબમાં જુદા જુદા પ્રોજેક્ટ પર કામ ચાલે છે. હવે આલ્ફાબેટના સંચાલન તળે આવેલી આ લેબ ફક્ત ‘એક્સ’ નામથી ઓળખાય છે. આ બધા પ્રોજેક્ટ ‘મૂનશોટ્સ’ (હવાઈ તુક્કા) તરીકે ઓળખાય છે. આવા સફળ, અસફળ પ્રોજેક્ટ્સ પર નજર નાખવા જેવી છે.

<https://x.company/>

## પ્રોજેક્ટ લૂન

દુનિયાના ઘણા વિસ્તારોમાં હજી

પણ ઇન્ટરનેટ કનેક્શન પહોંચ્યું નથી. તેમને માટે આકાશમાં તરતાં ખાસ પ્રકારનાં મોટાં બલૂન્સનું નેટવર્ક બનાવી, તેમની મદદથી ઇન્ટરનેટ એક્સેસ આપવાનો પ્રોજેક્ટ ગૂગલે ૨૦૦૮માં શરૂ કર્યો. ૨૦૧૭માં પૈરુમાં પૂર દરમિયાન આ રીતે સફળતાથી નેટ કનેક્શન આપી શકાયું. જોકે પછી ગૂગલને લાગ્યું કે આ પ્રોજેક્ટ કમર્શિયલ રીતે સફળ થાય તેમ નથી, એટલે ૨૦૨૧માં તે સમેટી સેવાયો. જોકે તેની બધી વિગતો સૌને માટે ઉપલબ્ધ છે - બીજું કોઈ તેને આગળ ધપાવે એવી આશાએ! <https://x.company/projects/loon/>

## બોસ્ટન ડાયનેમિક્સ

આપણા માટે તદ્દન અજાણ્યા ગૂગલ પ્રોજેક્ટ્સમાંનો એક. તેની શરૂઆત જગવિખ્યાત મેસેચ્યુસેટ્સ ઈન્સ્ટિટ્યૂટ ઓફ ટેકનોલોજીના એક ભાગ તરીકે થઈ, પછી ૨૦૧૩માં તે ગૂગલના ‘એક્સ’ પ્રોજેક્ટ્સનો ભાગ બની, હવે તે હ્યુન્ડાઈ મોટર ગ્રૂપનો ભાગ છે. આ કંપની સેન્સર આધારિત કંટ્રોલ અને કમ્પ્યુટર પ્રોગ્રામના આધારે કામ કરતા અવનવા, એડવાન્સ્ડ રોબોટ ડેવલપ કરે છે, જે સ્પાઈડરમેનની જેમ દીવાલ પર ચઢી શકે છે કે ઘોડાની જેમ જંગલો ખૂંદી શકે છે. યુએસ આર્મીને પણ આ કંપનીમાં ઊંડો રસ હતો, એ વિવાદ થતાં ગૂગલે કંપની વેચી અને હવે કંપનીએ મિલિટરી હેતુ માટે રોબોટ ન વિકસાવવાનો નિર્ણય કર્યો છે.

<https://bostondynamics.com/>

## પ્રોજેક્ટ મકાની

કંઈક અંશે, પ્રોજેક્ટ લૂન જેવો

જ, સહેલાઈથી દિમાગમાં ઉતરે નહીં એવો એક મહત્વાકાંક્ષી પ્રોજેક્ટ. આ પ્રોજેક્ટની શરૂઆત, ગૂગલથી સ્વતંત્ર એવા ત્રણ લોકોએ ૨૦૦૬માં કરી હતી. તેની શરૂઆત, પવન ઊર્જાનો વધુ કાર્યક્ષમ ઉપયોગ કરવાના ઉપાયો શોધવા માટે થઈ હતી. એ માટે પરંપરાગત પવનચક્કીની સરખામણીમાં મોટી બચત સાથે વધુ પવન ઊર્જા મેળવી શકાય તેવાં નવા પ્રકારનાં વિન્ટ ટર્બાઇન વિકસાવવામાં આવ્યાં. તેમાં શરૂઆતમાં કાપડમાંથી બનેલી પતંગને આકાશમાં ઉડાડી, તેની મદદથી, જમીન પર રહેલા જનરેટર સુધી પવનઊર્જા પહોંચાડવામાં આવતી હતી, પછી એ વિચાર પ્રમાણમાં મોટાં વિમાન સુધી વિકસ્યો, જેના પંખા પ્લેનમાં જ મૂકાયેલા જનરેટરને પવનઊર્જા આપે અને પછી એ પાવરનો જરૂર પ્રમાણે ઉપયોગ કરી શકાય! ગૂગલે ૨૦૧૩માં આ કંપની ખરીદી લીધી. આ પ્રોજેક્ટ કેમ મહત્વનો હતો એ સમજવા જેવું છે. પવનથી વિશ્વને ૧૦૦ ગણી ઊર્જા મળી શકે, છતાં હાલ વિશ્વની માત્ર ૫ ટકા વીજળી પવનથી મળે છે. પવનચક્કીથી ઊર્જા પેદા કરવાનો વિચાર જૂનો છે, તેના પર અમલ પણ થઈ રહ્યો છે, પરંતુ આવી પવનચક્કી ઊભી કરવાના ખર્ચને પહોંચી વળાય એટલા પ્રમાણમાં પવનઊર્જા પેદા થઈ શકે તો જ તે ઊર્જા કામની. મુશ્કેલી એ છે કે દુનિયાની માંડ ૧૫ ટકા જમીન આવી પવનચક્કીઓ માટે યોગ્ય વાતાવરણ આપી શકે છે.

જ્યારે મકાની પ્રોજેક્ટનો હેતુ અત્યંત દુર્ગમ અને પરંપરાગત પવનચક્કી

માટે પૂરતો ન હોય એટલા પવનવાળા વિસ્તારોમાં પણ પવનઊર્જા પેદા કરવાનો હતો. તેમાં પરંપરાગત પવનચક્કી કરતાં ૯૦ ટકા ઓછી સામગ્રીની જરૂર પડે, પરિણામે ખર્ચ અત્યંત ઘટે. આવી પતંગને વધુ ઊંચાઈએ, જોરદાર અને સતત વહેતો પવન મળતો હોવાથી તે લગભગ ૫૦ ટકા વધુ ઊર્જા પેદા કરી શકે! તેમ છતાં, ખર્ચ-ઊર્જા ઉપજનો તાળો ન બેસતાં ૨૦૨૦માં આ કંપની અને પ્રોજેક્ટ સમેટી લેવામાં આવ્યાં. એન્જિનીયરિંગના અભ્યાસુઓને હજી પણ અહલથી ખાસ્સી માહિતી મળી શકે છે: <https://x.company/projects/makani/>

<https://x.company/projects/makani/>

ટેકનોલોજીના ક્ષેત્રે હવે તો બહુ ગાજતો શબ્દ છે આર્ટિફિશિયલ ઇન્ટેલિજન્સ. માનવમગજ સાથે હરીફાઈ કરતી આ ટેકોલોજી બહુ ગાજતી નહોતી ત્યારે ઓક્સફર્ડ યુનિવર્સિટીમાંથી શરૂ થયેલ એક કંપની ‘ડીપમાઈન્ડ’ને ગૂગલે જાન્યુઆરી ૨૦૧૪માં ખરીદી લીધી. આ કંપની એવી ટેકોલોજી અને મશીન્સ વિકસાવવા પર ફોકસ છે, જે પોતાની રીતે નવી નવી વાતો શીખતાં રહે. આ પ્રકારનાં મશીન્સ બહુ ઓછે અંશે પ્રી-પ્રોગ્રામ્ડ હોય છે, તે પોતાને મળેલી કાચી માહિતી અને વિવિધ અલ્ગોરિધમ્સની મદદથી નવી વાતો શીખીને, જુદાં જુદાં કામ કરી શકે છે.

## :: અગત્યની સુચના ::

## :: સુચના ::

અમારા હાલના વાચકમિત્રોને આથી જાણ કરવામાં આવે છે કે આ મેગેઝીનમાં પ્રસીદ્ધ થતાં લેખો કે મંતવ્યો જે તે લેખકોના છે. પ્રકાશન આ બાબત સાથે સહમત છે કે અસહમત છે તેમ ન માનવું. તથા આ પ્રકાશનમાં પ્રસીદ્ધ થતી જાહેરખબરો - સેવા કે ઉત્પાદનો અંગેની માહિતીની અમે કોઈ ચકાસણી કરતા નથી. તો આ બાબતે નાણા મોકલતા કે તે સેવાનો ઉપયોગ કરતા પહેલા અધિકૃત વ્યક્તિની સલાહ લેવી જરૂરી છે. આ બાબતની કોઈપણ જાતની ફરીયાદ કે દાવા અંગે પર્સનલ કોમ્પ્યુટર ટુ ડે ની જવાબદારી રહેશે નહીં.

# એરફાઇબર : વાયરલેસ, પોર્ટેબલ હાઈ-સ્પીડ નેટ કનેક્શન

ગયા અઠવાડિયે રિલાયન્સે ‘જિઓ એરફાઇબર’ નામે એક પ્રોડક્ટની જાહેરાત કરી જેણે સૌનું ધ્યાન ખેંચ્યું. જોકે આને નવી પ્રોડક્ટ કહી ન શકાય, આ પહેલાં એરટેલ કંપનીએ પણ ‘એક્સ્ટ્રીમ એરફાઇબર’ નામે આ જ પ્રકારની પ્રોડક્ટ લોન્ચ કરી છે. વનપ્લસ કંપનીએ પણ ‘વનપ્લસ હબ ફાઇવ-જી’ નામે લગભગ આ જ પ્રકારની પ્રોડક્ટની જાહેરાત કરી છે.

આજે ઘર કે ઓફિસમાં ઇન્ટરનેટ કનેક્શન અનિવાર્ય થઈ ગયું છે તે જોતાં તમને આ એરફાઇબરમાં રસ પડ્યો હોય તો તેના વિશે થોડી વિગતો મેળવી લઈએ.

## એરફાઇબર શું છે?

એરફાઇબર એ ઘર કે ઓફિસમાં વાયર કનેક્શન વિના ઇન્ટરનેટ કનેક્શન મેળવવાનો સહેલો રસ્તો છે. આ સાધન રિલાયન્સ જિઓ કે એરટેલ પાસેથી ખરીદીને આપણે તેને પ્લગ એન્ડ પ્લે કરવાનું રહે છે. અત્યારે આપણે ઘર કે ઓફિસમાં જે ફાઇબર કનેક્શન મેળવીએ છીએ તેમાં કંપનીના સ્ટેશનમાંથી છેક આપણા ઘરના રાઉટર સુધી ફાઇબર ઓપ્ટિક કેબલ આવે છે. એ પછી રાઉટર સાથે આપણે કમ્પ્યુટર કે લેપટોપને કેબલથી કનેક્ટ કરી શકીએ અથવા લેપટોપ/મોબાઇલમાં વાઈ-ફાઈથી ઇન્ટરનેટ કનેક્ટિવિટી મેળવી શકીએ છીએ. અગાઉનાં કેબલ કનેક્શનની સરખામણીમાં ફાઇબર ઓપ્ટિક આધારિત કનેક્શન ઘણી વધુ ફાસ્ટ ઇન્ટરનેટ કનેક્ટિવિટી આપી શકે છે. એરફાઇબર આ જ કામ કરે છે અને એવી જ સ્પીડ આપે છે, પરંતુ તેમાં ફાઇબર ઓપ્ટિક કેબલની જરૂર રહેતી નથી.

## એરફાઇબર કઈ રીતે કામ કરે છે?

જિઓ હોય કે એરટેલ બંને કંપનીના એરફાઇબર લગભગ એક્સરખી રીતે કામ કરે છે. આ બંને પ્રોડક્ટ ‘પ્લગ એન્ડ પ્લે’ પ્રકારની પ્રોડક્ટ છે, જેની મદદથી આપણે ઘર કે ઓફિસમાં કોઈ વાયર કનેક્શન વિના ઇન્ટરનેટ કનેક્ટિવિટી મેળવી શકીએ છીએ. આ પ્રકારના ફોર-જી વાયરલેસ ડોંગલ કે ઇન્ટરનેટ ડેટા કાર્ડનો આપણે ઉપયોગ કરી ચૂક્યા છીએ. ડેટા કાર્ડમાં સિમ કાર્ડની મદદથી ઇન્ટરનેટ કનેક્ટિવિટી મેળવી શકાય છે અને તેની મદદથી અન્ય ડિવાઇસમાં વાઈ-ફાઈ દ્વારા ઇન્ટરનેટ કનેક્ટિવિટી મેળવી શકાય છે. એ પહેલાંના ફોર-જી વાયરલેસ ડોંગલ પણ સિમ આધારિત હતાં, પરંતુ તેને યુએસબી પોર્ટની મદદથી લેપટોપ કે કમ્પ્યુટરમાં કનેક્ટ કરવા પડતાં હતાં.

એરફાઇબર ઘણે અંશે આ જ પદ્ધતિથી કામ કરે છે પરંતુ તે ફાઇવ-જી કનેક્ટિવિટી આપે છે. કદમાં તે યુએસબી ડોંગલ કે ડેટા કાર્ડ કરતાં ખાસ્સું મોટું છે. એરફાઇબર પણ સિમ આધારિત છે. તેને ખરીદ્યા પછી આ સાધન સ્માર્ટફોનની જેમ

નજીકના કંપનીના સેલ ટાવરથી ડેટા સિગ્નલ મેળવે છે ને પછી હોટસ્પોટ તરીકે કામ આપે છે. કમ્પ્યુટર કે લેપટોપને કેબલથી એરફાઇબર સાથે કનેક્ટ કરી શકાય અથવા મોબાઇલ/લેપટોપ વગેરેમાં વાઈ-ફાઈથી સિગ્નલ મેળવી શકાય છે.

## એરફાઇબરના ખાસ લાભ ક્યા છે?

જિઓ અને એરટેલ બંનેના એરફાઇબર ફાઇવ-જી નેટવર્ક પર ચાલે છે. બંનેમાં એક સાથે એકથી વધુ ડિવાઇસિસમાં ઇન્ટરનેટ કનેક્ટિવિટી મેળવી શકાય છે. બંનેની મુખ્ય વિશેષતા એ છે કે બંને કંપનીના એરફાઇબર વાઈ-ફાઈ ફાઇવને બદલે વાઈ-ફાઈ સિક્સ ટેકનોલોજી પર ચાલે છે. વાઈ-ફાઈ ફાઇવ રાઉટર કરતાં વાઈ-ફાઇ સિક્સને સપોર્ટ કરતા એરફાઇબર ૫૦ ટકા વધુ સ્પીડ આપતા હોવાનો દાવો છે. આપણે જે તે કંપનીમાંથી આ ડિવાઇસ ખરીદીએ એ પછી પોતાના સ્માર્ટફોનમાં તેની એપ ઇન્સ્ટોલ કરવાની રહે છે. એ પછી ડિવાઇસને ઓન કર્યા પછી તેના પર આપેલ ક્યૂઆર કોડ સ્કેન કરીને કે આપણા ડિવાઇસમાં વાઈ-ફાઈ ઓન કરીને

તેને એરફાઇબર સાથે કનેક્ટ કરી શકાય છે. આપણે માટે એરફાઇબર ઉપયોગી છે? જો તમારા ઘર કે ઓફિસ સુધી એરટેલ કે જિઓ જેવી કંપનીનું વાયર્ડ ફાઇબર કનેક્શન ઉપલબ્ધ હોય તો તમને એરફાઇબરની જરૂર નથી. હા, જો તમે ઘર અને ઓફિસ બંનેમાં ફક્ત એક જ ઇન્ટરનેટ કનેક્શનથી કામ ચલાવવા માગતા હો તો તમને એરફાઇબર ઉપયોગી થઈ શકે કેમ કે દિવસભર ઓફિસમાં એરફાઇબરથી ઇન્ટરનેટ કનેક્ટિવિટી મેળવ્યા પછી આ ડિવાઇસ પોર્ટેબલ હોવાથી તમે તેને ઘરે લાવી શકો છો (જો કે તે સાદા ડેટા કાર્ડ જેટલું નાનું નથી એટલે રોજરોજ આમ કરવું સગવડભર્યું બનશે નહીં).

જો તમારા બિલ્ડિંગમાં વાયર્ડ કનેક્ટિવિટી કોઈ કારણસર ઉપલબ્ધ ન હોય તો તમને એરફાઇબર ચોક્કસ ઉપયોગી થઈ શકે છે.

એ ખાસ ધ્યાનમાં લેવા જેવું છે કે એરટેલનું એરફાઇબર અત્યારે માત્ર મુંબઈ અને દિલ્હીમાં ઉપલબ્ધ છે અને હાલમાં તેના પ્લાન વાયર્ડ ફાઇબર કનેક્શનની સરખામણીમાં થોડા મોંઘા છે. જિઓ એરફાઇબર સપ્ટેમ્બર ૧૯થી લોન્ચ થશે અને તેના પ્લાનની વિગતો આ લખાઈ રહ્યું છે ત્યારે ઉપલબ્ધ નથી. જિઓની પરંપરા જોતાં તેના પ્લાન શરૂઆતમાં એરટેલની સરખામણીમાં સસ્તા રહેવાની શક્યતા છે. રિલાયન્સની એજીએમમાં થયેલી જાહેરાત મુજબ વાયર્ડ કનેક્ટિવિટીથી રોજનાં પંદર હજાર જેટલાં કનેક્શન આપી શકાય છે, પરંતુ જિઓ એરફાઇબરથી રોજનાં દોઢ લાખ કનેક્શન આપી શકાશે. કંપની આવતાં ત્રણ વર્ષમાં ૨૦ કરોડ કનેક્શન્સનું લક્ષ્ય ધરાવે છે.

**geonix®**  
made to perform

## GEONIX LAUNCHES SIM SUPPORTED ROUTER

PRODUCT IS A GREAT "ENABLER" FOR FAMILIES IN RURAL AND SEMI-URBAN AREAS, WHERE BROADBAND CONNECTIONS ARE STILL RARE OR INEFFECTIVE

Geonix International, among India's fastest growing ICT Brands, recently launched a new-age WiFi Router-cum-Extender, which supports 5G SIM.

This is Geonix's first foray into the burgeoning Networking Devices market, and there could be more to follow in the same genre. The new SIM-Supported (or SIM-Driven) Router, comes with triple

antenna setup, high-speed microprocessor, LAN Port, and provides a speed in excess of 300 Mbps under test conditions. Users (consumers) have already lauded the super-easy Plug-and-Play nature of the product, that ensures truly hassle-free setup. The product is also suitable for rugged environments, given its durable construction. The operating range is excellent – upto 180 meters, provided there are no impeding objects or barriers.

The Micro SIM card slot is convenient and inconspicuously tucked away on the side; it supports both 4G or 5G SIMs of all popular networks.

This product is poised to usher in the era of 5G

capability, in the average Indian household. Widespread use of 5G technology, is considered by many as a truly noteworthy step in human evolution, because it would make the Internet almost ubiquitous. Moreover, the omnipresent nature of 5G technology facilitates and fosters other technologies, like IoT (Internet of Things) and M2MC (Machine to Machine Communication).

During a recent interaction with the press, Geonix emphasized the 5G Supported Router was of tremendous help to people in rural and semi-urban areas, who seldom have broadband connection.

The device is therefore seen as a genuinely useful

"enabler", empowering families and workers of limited means, and supporting the underprivileged. For instance, it will enable rural students to study without interruption, and for the common man to have uninterrupted Internet access.

Every person today, whether worker or student, yearns for a stable Wi-Fi experience. For those who already have dedicated routers, this product can easily be used as a range extender, ensuring you enjoy longer range and there are no dead-zones in your home or office. Ideally, you should place the repeater at a midway point between the router and the place you want the signal to reach. The

standalone design of the product ensures you can also use it as a Wireless Access Point (AP).

At a recent interaction with the press, Mr. Munish, owner of Paramount, a Geonix premium partner said, "in today's digital economy, this is a highly relevant product, because you can potentially stay online wherever you are; we are already seeing significant demand for this product at retail counters".

Geonix follows a Total Quality Management (TQM) process for all its products, whereby each product is subject to multiple tests before release. Geonix also takes care to ensure its burgeoning after-sales network, now in excess of 55 service centers, is well trained to handle all queries.

## GOOGLE HIT WITH COPYRIGHT LAWSUIT BY DANISH ONLINE JOB-SEARCH RIVAL JOBINDEX

Alphabet's Google was hit with a lawsuit on Thursday by Danish online job-search rival Jobindex, a year after the latter complained to EU antitrust regulators that the US tech giant unfairly favored its own job-search service. The Danish Media Association on behalf of Jobindex sued Google at a Danish court alleging copyright violations.

Jobindex has accused Google of copying job ads to its own service without permission and wants compensation and damages

for copyright violations. This is the first lawsuit in the Danish courts under new EU copyright rules regarding

platforms' liability for content uploaded to their services that came into force in 2021. "We're willing to compete with

Google, but it must be on equal terms, not with Google for Jobs having products on its shelves that aren't theirs," Jobindex Chief Executive Kaare Danielsen said in a statement.

Danish Media Association CEO Mads Brandstrup urged Danish authorities to implement the copyright rules against Big Tech.

Jobindex has not used Google's tools for flagging copyright-infringing content, a Google spokesperson said. "The Jobs function in Google Search was created to make

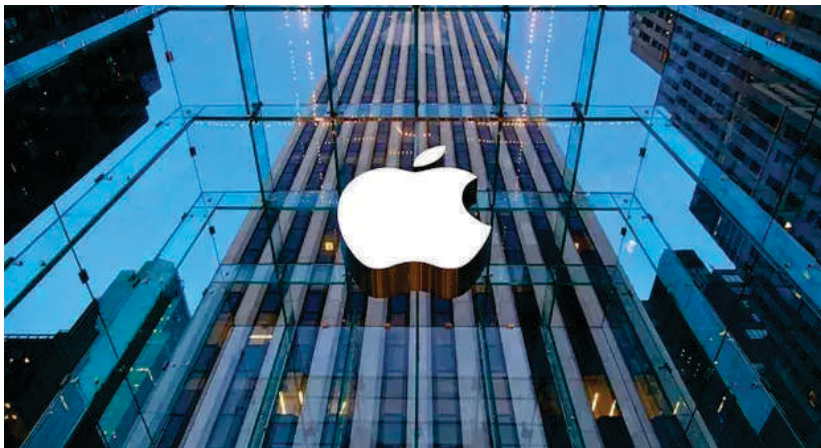

job search as simple as possible, making it easier for people to find relevant job results more quickly and increasing traffic and job matches for participating job providers," she said.

"Any job provider - big or small - can take part. No one is included in the Jobs function in Search unless they want to be - and we respect any decision not to participate in these features."

The EU antitrust watchdog has yet to act on Jobindex's complaint.

## APPLE PLANS TO DROP CHAT SUPPORT FOR CUSTOMERS ON X, YOUTUBE SOON

Apple will reportedly stop providing human assistance to users on social media platforms X (formerly known as Twitter) and YouTube. A recent report has claimed that the Apple chat-based support service will be dropped in October. The Apple Support account on X will stop sending human replies to support requests via direct messages. In addition to X and YouTube, the service will also be dropped from the Apple Support Community online forum, according to the report. Once the service is dropped, users will likely get an automated message on these platforms, redirecting them to the help centre. The

report surfaced weeks ahead of the iPhone 15 launch. According to a MacRumors report, citing an anonymous source, Apple will drop social media support advisor roles on X, YouTube, and the Apple Support Community forum starting from October 1. This

means users will no longer get human responses to their queries on the microblogging platform and YouTube's comment section. Instead, they will get an automated reply redirecting them to alternative ways to connect to Apple customer support.

The report also suggested that Apple is offering chat support employees to move to phone-based support roles within the company itself. Hundreds of employees are likely to be affected by Apple's step. Additionally, the company is also not allowing employees to switch to another chat-based support role unless there are medical issues, the report added.

Further, the report stated that the company will also provide training to the employees for the phone-based support roles, and the process is likely to be completed by November. Apple started offering customer support on X/Twitter in 2016. The

company shares tips about how to use Apple products along with responding to users' queries on the platform.

Meanwhile, Apple is all set to unveil its next generation of iPhone models, i.e., iPhone 15 series at its 'Wonderlust' event slated to take place on September 12. The company is said to unveil a range of products, including the iPhone 15 series, Apple Watch Series 9, and Apple Watch Ultra 2, alongside revealing iOS 17 and watchOS 10 launch dates. The launch event will be streamed live online on apple.com and the Apple TV app.

# GOOGLE PIXEL 8 SERIES PRICE, STORAGE OPTIONS LEAKED; PIXEL 8 PRO MAY GET NIGHT SIGHT FOR VIDEO

Google Pixel 8 series is expected to be unveiled at the company's Made by Google event on October 4. As we are inching closer to Google's annual event, more leaks about the next-generation Pixel phones are appearing online. Most recently, a report has leaked the European pricing details of the Pixel 8 and Pixel 8 Pro alongside their storage configurations and colour options. Past leaks have indicated that the Pixel 8 series might arrive only in an eSIM version. However, new findings suggest that Google will pack physical SIM card slots on the handsets. The Pixel 8 Pro is expected to feature Night Sight video as well.

Tipster Paras Guglani (@passionategeekz), in collaboration with TheTechOutlook, leaked the price details, storage

configurations, and colour options of the upcoming Pixel 8 series. As per the report, the Pixel 8 will be priced at EUR 874.25 (roughly Rs. 78,400) for the 128GB storage variant. The 256GB storage variant is said to have a price tag of EUR 949.30 (roughly Rs. 85,200). The vanilla model is said to be offered in hazel, mint, obsidian, and rose colour options.

The Pixel 8 Pro, on the other

hand, could cost EUR 1,235.72 (roughly Rs. 1,10,900) for the 128GB storage model, while the 256GB storage model is said to be priced at EUR 1,309.95 (roughly Rs. 1,17,500). The high-end 512GB model will reportedly cost EUR 1,461.24 (roughly Rs. 1,31,100). It is said to come in bay, mint, obsidian, and porcelain shades.

All the price tags include 23

percent VAT (value-added tax). Excluding VAT, the Pixel 8 could cost EUR 710.77 (roughly Rs. 63,000) for the base variant and EUR 771.79 (roughly Rs. 69,000) for the top-end model. Without VAT, the Pro model could be priced at EUR 1,004.65 (roughly Rs. 90,000), EUR 1,065 (roughly Rs. 95,000), and EUR 1,188 (roughly Rs. 1,06,600) for the 128GB, 256GB, and 512GB storage models respectively. Separately, a 9to5Google report, citing sources, claims that the Pixel 8 series will carry over the eSIM plus physical SIM slot from previous Pixel phones. This contradicts recent findings by tipster Mishaal Rahman (@MishaalRahman). Like the iPhone 14 series, the Pixel 8 models were speculated to ditch the physical SIM card slots in favour of eSIM, at least in some regions.

Further, the Pixel 8 Pro will reportedly come with Night Sight support for video. This feature would improve the quality of videos captured in low light. This functionality could be enhanced by the faster image signal processor (ISP) and AI capabilities of the Tensor G3 SoC.

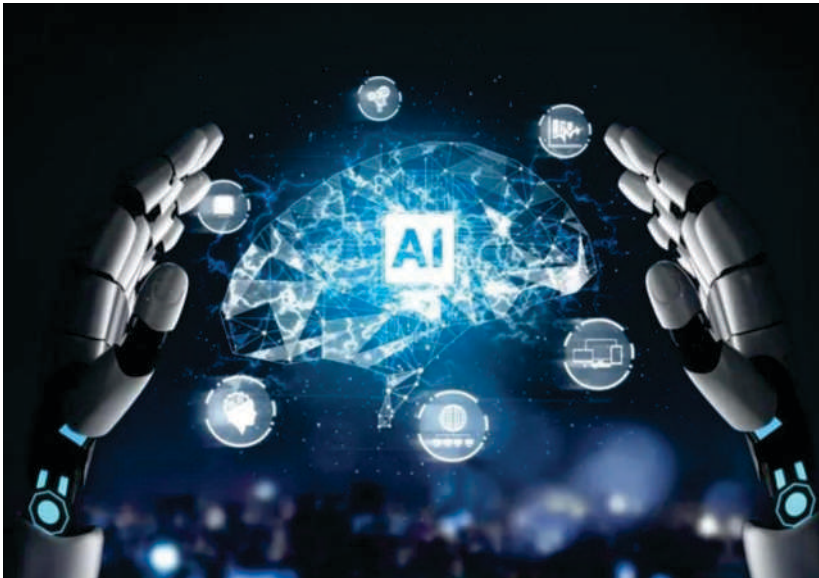

The Pixel 8 series has been a part of lot of leaks recently. Both smartphones are tipped to run on Android 14 and come with 120Hz refresh rate displays. They are expected to ship with a Tensor G3 chip, which would come as an upgrade to the Tensor G2 SoC.

The Pixel 8 Pro is expected to pack a 4,950mAh battery with 27W wired fast charging support. The Pixel 8, in contrast, could be backed by a 4,485mAh battery with 24W wired charging and 12W wireless charging support.

## DELL FORECASTS YEARLY REVENUE TO REACH UP TO 91.5 BILLION AMID AI BOOM, RECOVERING DEMAND FOR PCS

THE COMPANY FORECAST THIRD-QUARTER REVENUE BETWEEN RS. 1,86,101 CRORE AND RS. 1,94,353 CRORE

Dell Technologies raised its full-year forecast for revenue and profit on Thursday, as it benefited from the artificial intelligence (AI) boom and stabilizing demand for computer hardware and server products after a months-long slump. Shares of the Round Rock, Texas-based company rose 8 percent in extended trading. The results are the latest sign that a downturn in tech spending could be drawing to a close after major networking equipment provider Cisco also beat quarterly revenue estimates. The company is expected to see a demand boost for its PowerEdge servers and generative AI designs with Nvidia from rising

investments in artificial intelligence by Big Tech companies.

"AI is already showing it's a long-term tailwind, with continued demand growth across our portfolio," Chief

Operating Officer Jeff Clarke said. The company forecasted third-quarter revenue between \$22.5 billion (roughly Rs. 1,86,025 crore) and \$23.5 billion (roughly Rs. 1,94,251 crore)

beating analysts' estimates of \$21.67 billion (roughly Rs. 1,79,129 crore), according to Refinitiv data. Dell expects earnings per share of \$1.45 (roughly Rs. 120), plus or minus 10 cents compared with estimates of \$1.38 (roughly Rs. 114).

For the full year, Dell now expects revenue between \$89.5 billion (roughly Rs. 7,40,057 crore) and \$91.5 billion (roughly Rs. 7,56,595 crore), and earnings per share of \$6.30 (roughly Rs. 521), plus or minus 20 cents.

Dell reported second-quarter revenue and EPS above analyst estimates.

Servers and networking revenue for the second quarter came in at \$4.27 billion (roughly Rs. 3,52,953

crore), up 11 percent from the first quarter, driven by higher demand for AI-optimized servers, Dell said.

Revenue at the company's client solutions group (CSG) - home to its consumer and enterprise PC business - rose 8 percent from the first quarter to \$12.94 billion (roughly Rs. 1,06,974 crore). Gartner analyst Mikako Kitagawa said Dell keeping 7.5 percent of operating profits vs. revenue (CSG) is impressive in this challenging market environment illustrating the company's "profitability first approach."

The results are in sharp contrast with rival HP which cut its annual forecast due to a slump in PC demand and weakness in China.
