LENOVO YOGA SLIM 7I WITH INTEL CORE ULTRA 7 CHIP, AI ENGINE+ LAUNCHED IN INDIA

Lenovo launched its latest Yoga series laptop, the Yoga Slim 7i, in India on Tuesday. The laptop was first unveiled at the Consumer Electronics Show (CES) 2024 in January, and now it has also been introduced in the country. The successor to the Yoga Slim 6i is powered by the Intel Core Ultra 7 processor paired with Intel Arc-integrated graphics and features a 14-inch OLED screen. The Lenovo Yoga Slim 7i weighs 1.39kg and measures 14.9mm in thickness.

Lenovo Yoga Slim 7i price in India, availability

Lenovo Yoga Slim 7i price in India has been set at Rs. 1,04,999 for the single 32GB LPDDR5X RAM and 1TB SSD M.2 PCIe Gen 4 inbuilt storage. The laptop is available in the Lunar Grey colour option. Interested users can purchase the laptop from Lenovo's website, Lenovo Exclusive Stores, major e-commerce platforms, and other offline retail stores. The company has offered a

10 percent discount on using HDFC bank cards as well as no-cost EMI options.

Lenovo Yoga Slim 7i specifications, features
With a thickness of 14.9mm

and weighing 1.39kg, the Lenovo Yoga Slim 7i gets an aluminium chassis with MIL-STD 810H grade durability protection from damage. It features a 14-inch WUXGA

OLED display with a 1,920 x 1,200 pixels resolution, a refresh rate of 60Hz, and a peak brightness of 400 nits. Offering thin bezels, the display supports Dolby Vision and has the TUV Rheinland low blue light certification. Alongside, the Yoga series laptop carries quad 2W stereo speakers with support for Dolby Atmos.

Under the hood, the Lenovo Yoga Slim 7i is equipped with the Intel Core Ultra 7 155H chipset which is paired with Intel Arc graphics. The latest Intel processor also brings multiple artificial intelligence

(AI) capabilities to the laptop with the Lenovo AI Engine+. The laptop packs 32GB of LPDDR5X RAM and 1TB SSD M.2 PCIe Gen 4 inbuilt storage. It runs on Microsoft's Windows 11 Home, which comes pre-installed.

The Lenovo Yoga Slim 7i is backed by a four-cell 65Whr battery with 65W wired charging support. On connectivity, it supports WiFi 6E, Bluetooth 5.1, HDMI 2.1 port, two USB Type-C ports, one USB Type-A port, as well as a headphone jack. It also features a full-HD IR webcam with a privacy shutter.

COACHELLA RE-TRIES BRINGING BENEFITS-LOADED NFTS DESPITE TERRIFYING FIRST TRY

Coachella, touted among world's most famous annual music festivals held in the US, is trying a second stab at launching NFTs with VIP benefits for holders. To do so, the music and arts festival conglomerate has teamed up with OpenSea, the world's largest NFT marketplace that operates only digitally. Coachella has decided to release a total of three NFT lineups. All three will offer different bundles of advantage for the buyers of these digital collectibles through OpenSea.

On an average, around 125,000 attendees reach the Empire Polo Club in Indio, California each year around

April. Coachella's decision to push out NFT collections could directly drive engagement to the NFT sector on a massive level.

The first collection has already been dropped on OpenSea by the name of --

the VIP Pass + Oasis Lounge Keepsake by Coachella. A total of 1,024 NFTs are part of this collection. Holders of these NFTs will get exclusive bar benefits with limited complimentary drinks, and shaded lounge among other

benefits. NFTs from this collection are up for being minted for \$1,499 (roughly Rs. 1.24 lakh) on the AVAX (Avalanche) blockchain.

As far as the other two collections are concerned, Coachella reportedly plans to lift the curtains off them around March and mid-April. "NFT-based music and ticketing collections are one of the best ways for the crypto subsector to gain mainstream adoption.

Tickets can have special memories around them for fans, and there's potential for them to not to just be memorabilia, or a collectible, but also bring in utility," a tweet threat from Avalanche

quoted Devin Finzer, CEO and co-founder of OpenSea as saying.

This, however, is not the first time that Coachella is trying its hand at offering benefits laden NFTs as festival passes and digital souvenirs.

In February 2022, Coachella decided to give away ten lifetime passes to the buyers of its NFTs. The music festival, at the time, had launched an NFT marketplace built by the now bankrupt company FTX US. Soon after, when FTX founder Sam Bankman-Fried's fortune collapse, these passes and their promises fell flat leaving holders high and dry.

APPLE WARNS ELIGIBILITY FOR ALTERNATIVE APP MARKET PLACES COULD BE REVOKED IF USER TRAVELS OUTSIDE EU

Apple added support for alternative app marketplaces on iPhone devices with the iOS 17.4 update, after much anticipation. However, it has now released a support document explaining the nuances around the eligibility of the feature. Surprisingly, the Cupertino-based tech giant said that it might stop access to marketplaces if a user travels outside of the countries and regions belonging to the European Union (EU) for a long period of time. The pre-installed apps will also not be updated for as long as the user has not returned to the EU.

EU's Digital Markets Act (DMA) came into force on March 6, and as per the

guidelines, Apple now allows users to download third-party marketplaces on iPhone and install apps through them. These apps will not have to pay any listing fee or use the tech giant's payment processing system and pay an additional charge on that. However, it has also published a long post

highlighting the eligibility criteria for users to avail of this feature, and factors that can lead to it not working.

As per the guidelines issued by the iPhone maker, the country or region of a user's Apple ID must be set to one of the countries or regions of the EU. Additionally, the user must also be physically

located in the region. The company will monitor that both criteria are fulfilled via on-device processing and claims it will not collect the device's location. In case a user leaves the EU for a long period, they will lose access to some of the features including the ability to install new alternative marketplaces and updating the pre-installed third-party apps. However, the apps will continue to function. The tech giant also added that it will give a grace period for users who travel outside Europe for a short duration, although it did not define what constitutes short-term and long-term travel.

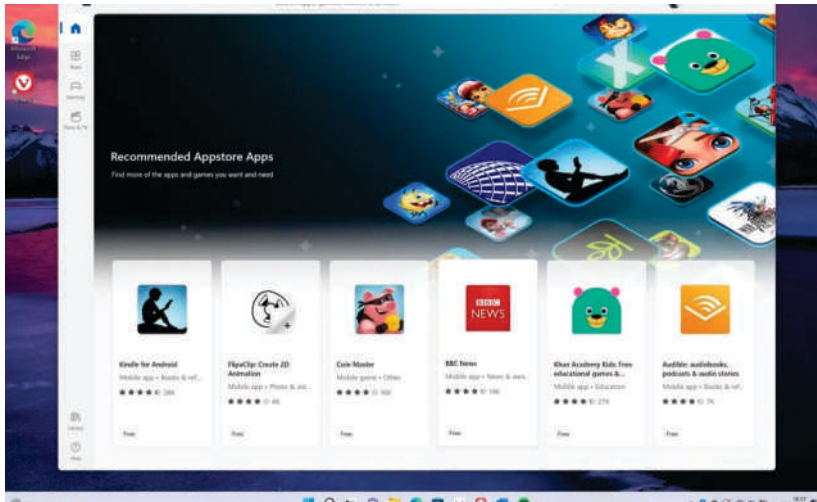

The post also underlined the list of countries and regions

eligible for alternative app marketplaces. These are Austria, Belgium, Bulgaria, Croatia, Cyprus, Czechia, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, and Sweden. Further, Apple has also stated that it will not provide customer support in case users face issues with alternative app marketplaces. Issues around privacy and security including scams, fraud and abuse will also not be addressed by the company. Notably, no third-party app marketplaces are available for iOS.

MICROSOFT ANNOUNCES END OF SUPPORT FOR ANDROID APPS ON WINDOWS 11 IN 2025

Microsoft has made the surprising decision to end support for Windows Subsystem for Android (WSA), a virtual machine that allowed it to bring Android apps to Windows 11 through the Amazon Appstore marketplace. The tech giant first gained the official support for the mobile apps through a deal with Amazon in 2021, and ever since then it has regularly updated the platform. As per the announcement, Windows 11 users will not be able to use Android apps after March 5, 2025.

The announcement was made by Microsoft via a note labeled as "Important" on the Windows Subsystem for Android web page on March

5, 2024. The company highlighted that after the given date next year, Amazon Appstore on Windows and all applications and games dependent on WSA will no longer be supported. "Until then, technical support will remain available to

customers. Customers that have installed the Amazon Appstore or Android apps prior to March 5, 2024, will continue to have access to those apps through the deprecation date of March 5, 2025," it added.

Additionally, Amazon also

posted an update for developers explaining how the development will impact them and important dates for them to note. According to the e-commerce giant, developers will not be able to submit new apps any more. This was put into effect on Tuesday. However, those developers who already have an app can continue to provide updates and support till the discontinuation date in 2025. Users can continue to use any pre-installed apps for the next year till March 5, 2025. However, downloading and installing new apps is not possible. The Amazon Appstore and any associated Android apps on Microsoft Store will not be searchable on Windows 11 either. The

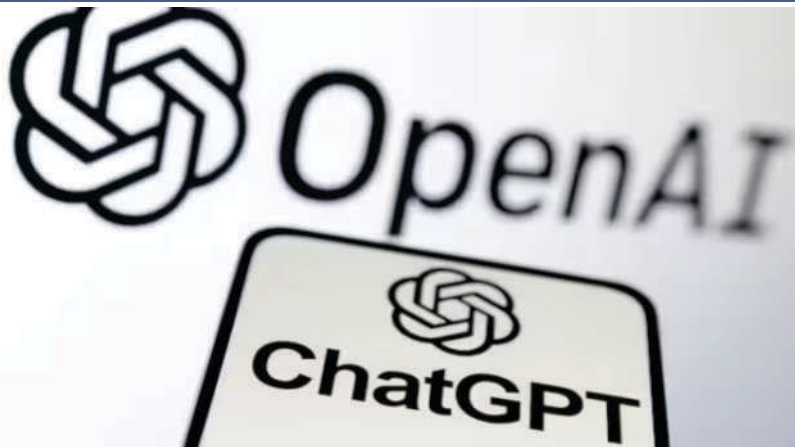

surprise move comes just three years after Microsoft first introduced WSA. While the company did not mention any reason for the decision, a report by Ars Technica has highlighted that Android app users on Windows 11 were quite low.

The report mentions that this was because Microsoft could not make a deal with Google and instead onboarded Amazon Appstore, which has a much smaller selection of apps compared to Play Store. Further, most major app developers already provide either a web-based interface or a Windows app separately. These reasons could have resulted in WSA and native Android apps never catching on in popularity.

CHATGPT GETS NEW ACCESSIBILITY FEATURE, CAN NOW READ ITS RESPONSES ALOUD TO USERS

ChatGPT has received a new accessibility feature that can be helpful for visually impaired people. The artificial intelligence (AI)-powered chatbot by OpenAI announced a Read Aloud feature on Monday that can read out its written responses. The new feature is a different functionality from the voice chat feature that was introduced in September 2023 and uses the AI model's multimodal capabilities. Notably, an earlier report also revealed that the Android app version of the chatbot could soon get a home-screen widget.

The new feature was

announced by the official account of OpenAI on X (formerly known as Twitter) via a post. It said, "ChatGPT can now read responses to you. On iOS or Android, tap and hold the message and then tap "Read Aloud". We've

also started rolling on web - click the "Read Aloud" button below the message." Read Aloud is available for ChatGPT's Android and iOS apps as well as its web client. The feature has been added to both ChatGPT 4.0 which

powers the ChatGPT Plus version, as well as ChatGPT 3.5 which is available to access for free. The feature can read out responses in 37 different languages. However, to respond, it will automatically detect the language of the text it is generating. So, if a response was generated in English, the verbal response would also be in English.

While it appears to be similar to the voice chat feature, it is a different use case of the text-to-speech functionality. In voice chat, users can only verbally speak and listen to the responses, and cannot see the text unless the

conversation has ended. In contrast, with this feature, the mode of communication remains text only, and users can pick and choose which messages to listen to. It can be used if a user is busy and cannot look at the screen to read a long response, or the visually impaired who are unable to read in a given moment.

An earlier report claimed that the Android app of the chatbot could soon get a home-screen widget.

The widget comes with shortcuts to send text messages, upload or send images, voice query, or start a voice chat.

FITAG TEAM VISIT IN ISE 2024 AT BARCELONA

MR. ALOK GHELANI
FITAG President

FITAG Secretary Varun Amin and more than 15 FITAG members had the privilege of meeting with Michael Freter, Senior Director Sales at Integrated Systems Events GmbH, and the Infocomm Team at ISE 2024 in Barcelona. The ISE exhibition

stands as the premier business-to-business event for the AV and systems integration industries globally. With exhibitors presenting solutions across various vertical sectors, and attendees consisting of AV and IT professionals, along

with users of AV systems, the event represents a pivotal gathering for industry leaders. Held at Fira de Barcelona, Spain, from 30 January to 2 February, ISE 2024 was the largest AV and systems integration show in the world.

The exhibition boasted its highest number of exhibitors to date, with 1,408 participants, and occupied the largest show floor space ever recorded at 82,000 sqm net. This impressive showcase underscored the innovation and dynamism of

the pro-AV and systems integration community. As we reflect on our experiences at ISE 2024 Barcelona, let us celebrate the enduring power of partnerships and the exciting opportunities that lie ahead for growth and advancement in our industry.

હેલો આઈરિસ મેમ... ! ફેરબમાં વિદ્યાર્થીઓને ભણાવશે દેશના પહેલા એ.આઈ. શિક્ષક

ભારતમાં શિક્ષણ ક્ષેત્રે એક નવો અધ્યાય શરૂ થયો છે. કેરળ દેશનું પહેલું રાજ્ય બન્યું છે જેમાં આર્ટિફિશિયલ ઇન્ટેલિજન્સ (AI) આધારિત ટીચર બાળકોને ભણાવવાની જવાબદારી નિભાવશે. આ માટે હ્યુમનોઇડ રોબોટનો ઉપયોગ કરવામાં આવી રહ્યો છે. આ જનરેટિવ એઆઈ શિક્ષકને ગયા મહિને જ શાળામાં દાખલ કરવામાં આવ્યા હતા અને તે તરત જ વિદ્યાર્થીઓમાં લોકપ્રિય બન્યા હતા.

રોબોટમાં વાસ્તવિક શિક્ષક જેવી વિશેષતા : 'આઈરિસ' નામના સાડી પહેરેલ AI આધારિત હ્યુમનોઇડ રોબોટ કેટીસીટી

હાયર સેકન્ડરી સ્કૂલ તિરુવનંતપુરમમાં ફિમેલ રોબોટ શિક્ષક છે. તેનો અવાજ સ્ત્રી જેવો છે અને તેમાં વાસ્તવિક શિક્ષકની ઘણી વિશેષતાઓ છે. આ AI રોબોટને રજૂ કરનારી કંપનીના જણાવ્યા અનુસાર, આઈરિસ માત્ર કેરળમાં જ નહીં પરંતુ દેશના પહેલા AI જનરેટિવ સ્કૂલ શિક્ષક છે. ત્રણ ભાષામાં આપે છે જવાબ આઈરિસ ત્રણ ભાષા બોલી શકે છે અને વિદ્યાર્થીઓના જટિલ પ્રશ્નોના જવાબ પણ આપી શકે છે. આઈરિસનો નોલેજ બેઝ અન્ય ઓટોમેટેડ ટીચિંગ ગેજેટ્સ કરતા ઘણો છે કારણ કે તે ChatGPT જેવા

પ્રોગ્રામિંગ સાથે બનેલા છે. હ્યુમનોઇડ્સને વિદ્યાર્થીઓ માટે અયોગ્ય વિષયો, જેમ કે ડ્રગ્સ અને હિંસા વિશેની માહિતી પર તાલીમ આપવામાં આવતી નથી.

જનરેટિવ AI રોબોટ શિક્ષકોની સંખ્યામાં વધારો કરવાનું આયોજન કરી રહી છે શાળા શાળાના આચાર્ય મીરા એમએનના જણાવ્યા મુજબ, વિદ્યાર્થીઓના હકારાત્મક પ્રતિભાવને પગલે ૩૦૦૦થી વધુ વિદ્યાર્થીઓ ધરાવતી શાળા આગામી શૈક્ષણિક સત્રમાં જનરેટિવ AI રોબોટ શિક્ષકોની સંખ્યામાં વધારો કરવાનું આયોજન કરી રહી છે.

ફેસબુક ઇન્સ્ટાગ્રામ ડાઉન થતા માર્ક ઝકરબર્ગને એક કલાકમાં જ થયું ફરોડોનું નુકશાન

મંગળવાર ૫ માર્ચ ૨૦૨૪ના ૯ વાગ્યા આસપાસથી ફેસબુક અને ઇન્સ્ટાગ્રામની સર્વિસ દુનિયાના અનેક દેશોમાં બંધ થઈ ગઈ હતી. લોકો પર સતત ફરિયાદ કરી રહ્યા હતા. એક તરફ સમગ્ર વિશ્વમાં મેટા સર્વિસ લગભગ એક કલાક ડાઉન રહેવાના કારણે યુઝર્સને ભારે મુશ્કેલીનો સામનો કરવો પડ્યો હતો.

ત્યારે બીજી તરફ કંપનીના સીઈઓ માર્ક ઝકરબર્ગને અભજો રૂપિયાનું નુકસાન થયું છે. વીબુશ સિક્વોરિટીઝના મેનેજિંગ ડિરેક્ટર ડેન ઈવેસે જણાવ્યું કે, આ સમયગાળા દરમિયાન માર્ક ઝકરબર્ગને અંદાજે ૧૦૦ મિલિયનનું નુકસાન થયું છે. તેના કારણે મેટા શેર્સમાં પણ લગભગ ૧.૬ ટકાનો ઘટાડો જોવા મળ્યો હતો.

અગાઉ Metaના તમામ સોશિયલ મીડિયા

પ્લેટફોર્મમાં ટેકનિકલ સમસ્યાઓ હતી. વર્ષ ૨૦૨૧માં મેટાના સોશિયલ મીડિયા પ્લેટફોર્મ લગભગ ૭ કલાક બંધ રહ્યા હતા. સોશિયલ મીડિયા પ્લેટફોર્મ ફેસબુક, ઇન્સ્ટાગ્રામ, થ્રેડ અને વોટ્સએપ મંગળવારે રાત્રે અચાનક બંધ થઈ ગયા હતા. જેના

કારણે યુઝર્સ કોઈપણ પ્લેટફોર્મનો ઉપયોગ કરી શક્યા ન હતા.

સોશિયલ મીડિયા પ્લેટફોર્મ ફેસબુક પર યુઝર્સને ફરીથી લોગીન માગી રહ્યું હતું પરંતુ લોગ ઈન કર્યા બાદ પણ એકાઉન્ટ એક્સેસ થઈ શક્યું ન હતું.

મીડિયા રિપોર્ટ્સ અનુસાર, ફેસબુકના એક અધિકારીએ કહ્યું કે, યુઝર્સને આવી સમસ્યાઓનો સામનો કરવો પડ્યો કારણ કે તેમની ઈન્ટરનલ સિસ્ટમ પણ ડાઉન હતી. મેટાનું સર્વિસ ડેસ્કટોપ ઘણી સેવાઓ માટે મોટા મેજર ડિસરપ્શનના મેસેજ આપી રહ્યો હતો.

કેટલાક નિષ્ણાતો માને છે કે, મેટાના પ્લેટફોર્મમાં સમસ્યાઓનું એક કારણ કેટલીક કોડિંગ ભૂલો હોઈ શકે છે. જોકે, કંપની દ્વારા આ અંગે સ્પષ્ટ કંઈ કહેવામાં આવ્યું નથી.

ઝકરબર્ગ વિશ્વના પાંચમા સૌથી અમીર વ્યક્તિ ફોર્બ્સની યાદી અનુસાર, માર્ક ઝકરબર્ગ

વિશ્વના પાંચમા સૌથી અમીર વ્યક્તિ છે. વર્ષ ૨૦૨૩માં તેમની કુલ સંપત્તિમાં લગભગ ૮૪ બિલિયન ડોલરનો વધારો થયો છે. હાલ તેમની કુલ સંપત્તિ ૧૩૯ બિલિયન ડોલરની આસપાસ હોવાનું કહેવાય છે.

અમારા વહાલા વાચકમિત્રોને આથી જાણ કરવામાં આવે છે કે આ મેગેઝીનમાં પ્રસીદ્ધ થતાં લેખો કે મંતવ્યો જે તે લેખકોના છે. પ્રકાશન આ બાબત સાથે સહમત છે કે અસહમત છે તેમ ન માનવું. તથા આ પ્રકાશનમાં પ્રસીદ્ધ થતી જાહેરખબરો - સેવા કે ઉત્પાદનો અંગેની માહિતીની અમે કોઈ ચકાસણી કરતા નથી. તો આ બાબતે નાણા મોકલતા કે તે સેવાનો ઉપયોગ કરતા પહેલા અધિકૃત વ્યક્તિની સલાહ લેવી જરૂરી છે. આ બાબતની કોઈપણ જાતની ફરીયાદ કે દાવા અંગે પર્સનલ કોમ્પ્યુટર ટુ ડે ની જવાબદારી રહેશે નહીં.

સ્પામફોલ-SMSથી બચાવવા સરકાર દ્વારા લોન્ચ કરાયું ચક્ષુ પોર્ટલ

સરકારે સાયબર ક્રાઈમ અને સ્પામ કોલને રોકવા માટે 'ચક્ષુ' અને 'ડિજિટલ ઇન્ટેલિજન્સ' નામના બે નવા પ્લેટફોર્મ લોન્ચ કર્યા છે. જેમાં 'ચક્ષુ' લોકોને શંકાસ્પદ મેસેજ, નંબર અને ફિશિંગ પ્રયાસોની જાણ કરવામાં સક્ષમ બનાવે છે. જ્યારે 'ડિજિટલ ઇન્ટેલિજન્સ' બેંકો, સોશિયલ મીડિયા પ્લેટફોર્મ અને અન્ય સંસ્થાઓને સાયબર ગુનેગારો અંગેની માહિતીની આપ-લે કરવા માટે સુવિધા આપે છે. ડિપાર્ટમેન્ટ ઓફ ટેલિકોમ્યુનિકેશન્સ (DoT) એ સોમવારે સંચાર સાથી પોર્ટલના ભાગ રૂપે ડિજિટલ ઇન્ટેલિજન્સ પ્લેટફોર્મ અને ચક્ષુ લોન્ચ કર્યું. ચક્ષુ કેવી રીતે ફાયદાકારક રહેશે? ચક્ષુનો ઉપયોગ શંકાસ્પદ સંદેશાવ્યવહારની જાણ કરવા માટે થાય છે. ચક્ષુની મદદથી યુઝર્સ નંબર, મેસેજ અને ફિશિંગના પ્રયાસો

વિશે જાણ કરી શકે છે. બીજી તરફ, ડિજિટલ ઇન્ટેલિજન્સ પ્લેટફોર્મ, બેંકો, સોશિયલ મીડિયા પ્લેટફોર્મ અને વોલેટ ઓપરેટર્સ વચ્ચે સાયબર ક્રિમિનલ ડેટાની વહેંચણીને સક્ષમ કરવા માટે એક ઇન્ટર-એજન્સી પ્રયાસ છે. છેતરપિંડી અટકાવવામાં મદદ કરી વૈષ્ણવે જણાવ્યું હતું કે DIP આ છેતરપિંડીઓની તાત્કાલિક જાણ કરવા માટેનું આ એક સંકલિત પ્લેટફોર્મ છે. આ સિસ્ટમનું અપડેટ છે જે ગયા મેમાં લોન્ચ કરવામાં આવ્યું હતું. આ બે પ્લેટફોર્મ ઝડપી સાયબર છેતરપિંડી શોધવામાં નોંધપાત્ર સુધારો કરશે. તેમણે કહ્યું કે આવા તમામ પ્લેટફોર્મ પર અંદાજે રૂ. ૧,૦૦૮ કરોડની છેતરપિંડી અટકાવવામાં આવી છે. DoT એ મે ૨૦૨૩ માં સંચાર સાથી પ્લેટફોર્મ લોન્ચ કર્યું હતું.

ONEPLUS 12 BATTERY, CONNECTIVITY DETAILS CONFIRMED; LIVE IMAGES SURFACE ONLINE

OnePlus 12 is set to launch in China on December 5 as a successor to the OnePlus 11 5G. The latter was introduced in February this year. OnePlus has previously confirmed several key specifications of the upcoming flagship model including processor, camera, and colourways. Now, more details of the handset, such as the battery, charging, and connectivity options have also been confirmed by the company. A top OnePlus executive has shared live images of the phone. More live images that hint at key specifications of the upcoming OnePlus 12 have also leaked online.

Li Jie Louis, OnePlus China President, has shared live images of the OnePlus 12 in Pale Green and White colour

options. The green variant is seen with a marble-like finish on the back panel. The phone is also confirmed to launch in a third Rock Black colour option.

The company has also confirmed in a Weibo post that the OnePlus 12 will be backed by a 5,400mAh battery with 100W wired SuperVOOC charging and 50W wireless charging

support. It will also support wireless reverse charging. The wired and wireless charging solution is said to charge the phone from 0 to 100 percent in 26 minutes and 55 minutes, respectively. OnePlus claims that the battery life of the OnePlus 12 exceeds that of all competing flagship Pro models with a DOU (days of usage) of 1.79 days.

OnePlus added that the OnePlus 12 will be equipped with a "multi-functional infrared remote control function" (translated from Chinese) which is said to help users control home appliances from their handsets. The phone will also come with "all-region multi-functional NFC" and support the new low-power Bluetooth 5.4.

In another post, the company confirmed that the OnePlus 12 will also offer fast connectivity with USB Type-C 3.2 Gen 1. The flagship handset will also arrive with an IP65 rating for dust and splash resistance.

Meanwhile, leaked live images posted on Weibo, have also suggested key specifications of the OnePlus 12. The phone, carrying the

model number PDJ110, is said to launch in three RAM + storage variants - 16GB + 512GB, 16GB + 1TB, and 24GB + 1TB. The leaked images suggest that the phone will feature a 6.82-inch display and a 32-megapixel front camera.

OnePlus 12 is confirmed to come with a 50-megapixel Sony LYT-808 primary sensor, a 48-megapixel sensor with an ultra-wide-angle lens, and a 64-megapixel telephoto shooter with 3x optical zoom support. It will run on Android 14-based ColorOS 14 and pack a Snapdragon 8 Gen 3 SoC. The handset will also sport a ProXDR display with a peak brightness of up to 2,600 nits, 2K resolution, and carry DisplayMate's A+ certification.

SONY INZONE H5 WIRELESS GAMING HEADPHONES WITH UP TO 28-HOUR BATTERY LIFE LAUNCHED IN INDIA

Sony Inzone H5 wireless gaming headphones have been launched in India. The over-the-ear Bluetooth headphones are available in two colour options and have nylon earpads for comfort. The Sony Inzone H5 offer 2.4GHz wireless connectivity. They pack 40mm dynamic driver unit alongside inbuilt microphones with support for Sony's 360 Spatial Sound format for virtualised surround sound. The Sony Inzone H5 headphones are said to deliver up to 28 hours of playback time on a single charge.

Sony Inzone H5 price in India, availability

The price of the Sony Inzone H5 is set at Rs. 15,990 in India. The headphones are offered in Black and White colour options. They will go on

sale in the country from November 30 via the ShopAtSC store, Sony's offline channels, e-commerce websites, and other retail

outlets.

Sony Inzone H5 specifications, features The newly launched Sony Inzone H5 headphones are powered by a 40mm dynamic driver with a frequency response range of 5Hz-20,000Hz, and a sensitivity rating of 89dB. The wireless earphones include a bidirectional boom microphone that reduces unwanted noise. The earphones incorporate AI-based noise reduction technology to pick your voice out from the background. They include nylon earpads and a headband cushion to ensure comfort in long

sessions.

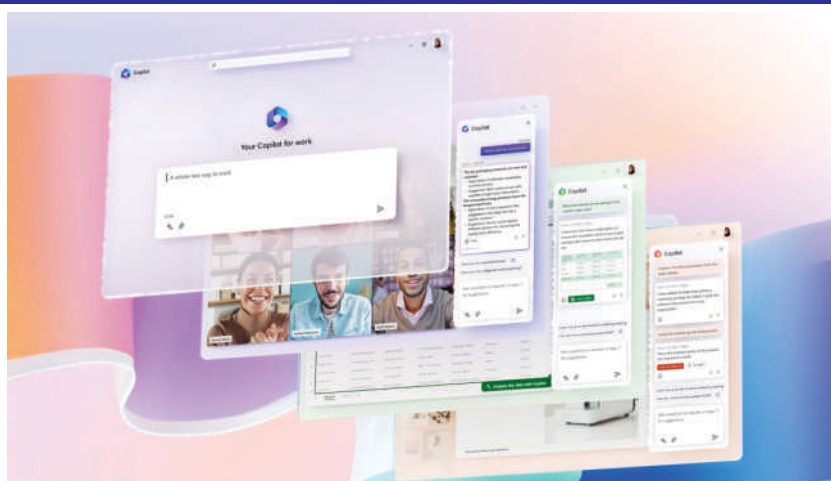

The over-the-ear Sony Inzone H5 wireless headphones come with 2.4GHz wireless connectivity that lets users listen to the game audio using a USB dongle.

They support Sony's 360 Spatial Sound format. The cord of the headphones is detachable and it has a length of 1.5 metres.

Sony claims that the Inzone H5 offer a battery life of up to 28 hours, and the company's speed charge is claimed to provide up to 3 hours of playback with a 10-minute charge. The approximate charging time is 3.5 hours.

MICROSOFT COPILOT APP NOW AVAILABLE FOR IPHONE AND IPAD USERS WITH FREE GPT-4 ACCESS

Microsoft Copilot app is now available for download from the Apple App Store for both iPhone and iPad users. The iOS app comes just days after Microsoft rolled out the standalone Copilot app on Android. The AI-powered chatbot is powered by the latest GPT-4 and DALL-E 3. The app is free to download and use, but obviously there are a couple of features missing from the mobile version of Copilot. Once again, this appears to be a silent release as Microsoft hasn't made any official announcement on the rollout. Copilot was recently

rebranded from Bing Chat, and it essentially lets users create text, get answers for queries, summarise text, write essays, poems, and more. Users can also create

images using the integrated DALL-E 3 image generator. The app also gives users free access to the latest GPT-4 large language model from OpenAI. However, as tested,

you can only get up to 30 responses at a time, and you will have to enable GPT-4 in the app.

The Copilot app on iOS currently doesn't save chat history, which means that you cannot revisit a recent chat. This feature is available on ChatGPT, but the advantage with Copilot is that it gives free access to GPT-4, whereas you'll have to pay for access on ChatGPT. Similar to Copilot on Android, users don't have to sign in to use the chatbot. If you do sign in, you will get access to longer chats.

Users can also use voice or

images to ask questions and start a conversation with Copilot on iOS. As per the App Store listing, the app is compatible with iPhone and iPad running iOS 15 or later. It is also available for download on Mac, but only works with Apple Silicon models running macOS 12.0 or later.

Microsoft recently announced a partnership with Suno, which is an AI-powered music creation service. Users can head to Copilot on the web and use Suno to create their own beats.

However, this requires the user to sign in using a Microsoft account.

GOOGLE PHONE APP MAY SOON SHOW WHATSAPP CALL HISTORY AND GET VIDEO CALLING SHORTCUT

Google might be testing two new features for its Phone app. Reportedly, the Google Phone app now shows WhatsApp call history integrated with normal calls. Some users have also seen a new video call shortcut on the call screen, which redirects the call to Google Meet. These new features appear to have been rolled out to a small batch of users who had signed up for the tech giant's Android Beta Program. Recently, the company rolled out a couple of new features for Google Drive as well. The two features were collectively reported by 9to5Google based on posts

from other users on X (formerly known as Twitter). The report claims that the feature has begun popping up on Pixel phones and some other devices. The WhatsApp call history feature was spotted by the user

@Kishore9196 who also posted a screenshot of his call history.

In the screenshot, call logs can be seen on the Google Phone app. One particular call was labelled 'WhatsApp' where the carrier and channel

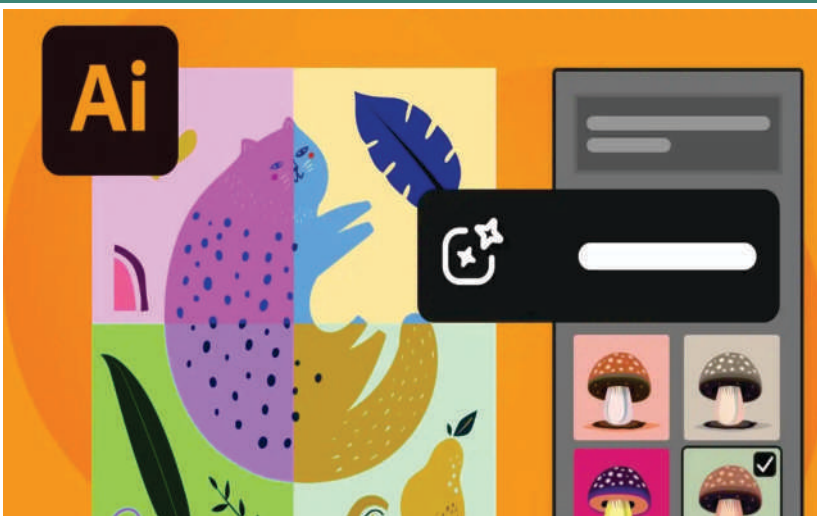

information is shown. All the other usual options including calling, video calling, messaging, and history were also visible in the log. This indicates that Google might be working on creating an integrated call log, however, whether the support is only extended to WhatsApp or if other messaging apps such as Telegram and Signal will also be included is not known. Replying to a comment, the user also confirmed that he is a beta tester and was running Google Phone v124.0.60816 4421-publicbeta and Whatsapp 2.24.6.6. Interestingly, the integrated call log feature has been available on

iOS for quite some time.

The second feature was shared by tipster Mishaal Rahman with other users confirming it. Rahman said, "The Phone by Google app is starting to show a new "video call" chip during phone calls for some users. Tapping this chip opens a page that lets you quickly invite the person you're calling to a Google Meet call." The feature was spotted on Pixel 5a while also running a beta version of the Phone app. While the app already allows users to make Google Meet calls this shortcut apparently lets users switch to the video calling app while on the calling screen.

ADOBE TESTS NEW ADOBE EXPRESS APP WITH GENERATIVE AI CAPABILITIES FOR ANDROID, IOS

Adobe has released a new Adobe Express app for Android and iOS in beta testing. The new app brings Adobe's premium features and the generative artificial intelligence (AI) features of Firefly AI together on a mobile platform for the first time. The company has announced that while the app is in beta, it will be free for users to download and install. Some of the premium features will also be provided for free. However, as per a report, the generative AI features will require Adobe's generative credits. For the unversed, Adobe Express is a cloud-based mobile content creation platform that has gone through multiple name changes and iterations since

2015 and was finally relaunched with its current name in 2021. This new app for Android and iOS combines Firefly AI's features and premium image editing features and offers it through a single interface. Additionally, the company has

also added co-editing, review, and commenting capabilities to the app, which means users working on different smartphones can work on a project at the same time. Users on mobile and desktop will also be able to collaborate on the same project.

Coming to features, Adobe is offering premium photo and video editing features such as removing backgrounds and one-click resizing for free for as long as the app is in beta testing.

However, the generative AI features will not be free, as per a report by The Verge. Using the Firefly-powered features such as generative fill and text-to-image will require Adobe's generative credits.

These generally require a paid subscription, but the beta users will be given 25 credits per month.

Other features include AI-powered text styling, video templates, real-time caption generation in more than 100 languages, support for 4K

videos, access to Adobe fonts, stock videos, music tracks, a content scheduler, and more. To keep content created and edited through its AI tools safe for commercial use, Firefly AI follows the guidelines of the Coalition for Content Provenance and Authenticity (C2PA), an open-source technology to label AI-generated content.

The new Adobe Express mobile app in beta is available for free on Android and iOS devices. Android users can download the beta app from the Google Play store. Due to Apple's restrictions on the number of beta users, iOS users can join the waitlist here and Adobe will guide selected participants through the process.

WINDOWS 11 UPDATE BRINGS NEW AI CAPABILITIES TO COPILOT, IMPROVEMENTS TO WIDGETS & MORE

Windows 11 has received a new update for March 2024 that will bring new features and major improvements to supported PCs, laptops, and workstations. Microsoft announced the long list of features on Thursday and stated that the update has started rolling out to users. However, not all the features will be available immediately, with the new Copilot features coming later this month. Some of the notable features include improvements to Widgets, new skills for the artificial intelligence (AI)-powered chatbot Copilot, and new features for multiple apps.

Announcing the new features via a Windows blog, Yusuf

Mehdi, Executive Vice President, Consumer Chief Marketing Officer at Microsoft highlighted that the Copilot features build on the introduction of the Copilot key on the keyboards powering Windows PCs from earlier this year. He also said that Snap, Widgets, and Inking are receiving major upgrades.

Copilot is getting new plugins that will enable it to perform tasks such as making restaurant reservations via OpenTable and grocery ordering via Instacart. In the coming months, support for Shopify, Klarna and Kayak will also be added. Apart from plugins, Copilot can also do more tasks. By just typing a

prompt users can make it turn on the battery saver, launch the narrator, empty the recycle bin, launch the screen magnifier, show available Wi-Fi networks, and more. These features will be shipped in late

March.

Windows 11 will also bring new AI upgrades for creativity apps. Generative Erase is being introduced to the Photos app which can remove unwanted objects or imperfections from images. This works similar to how the AI feature in Samsung Galaxy S24 series and Google Pixel 8 series. Another improvement is coming to ClipChamp which will now be able to remove awkward silences in audio tracks.

One really interesting feature being added through this update will let users use their Android smartphone as a webcam for video calls. This will require a smartphone running Android 9 or higher

and it needs to be linked with a Windows app that is version 1.24012 or higher. This feature is being rolled out to Windows Insider for testing currently. Improvements are also coming to Widgets and the Snap layout feature. Users will have more control over Widgets and can create their own board based on their preferences. Snap is also getting smarter and will remember user preference for apps, and will quickly organise it accordingly.

Finally, an accessibility feature is also being added. Users can now create custom tasks and add Voice Shortcuts for them, enabling more efficient verbal commands.
