HIKVISION PROFESSIONAL-GRADE CAPTURE SD CARD SERIES: ENGINEERED FOR HIGH-RESOLUTION IMAGING AND VIDEO WORKFLOWS

HIKVISION's CAPTURE SD card series delivers reliable storage solutions tailored for photographers and videographers working in diverse shooting environments. Comprising three distinct models, the series balances speed, data integrity, and durability to support high-resolution content creation.

CAPTURE SD V30 Card – Steady Performance for HD

and 4K Recording
Designed as a practical storage option for HD video production, the CAPTURE SD V30 card offers a minimum write speed of 180MB/s and complies with UHS Speed Class 3 (U3), enabling smooth recording of Full HD and 4K UHD video. With resistance to water, temperature variations, and shock, it helps maintain data integrity under typical outdoor

HIKVISION®
conditions.
CAPTURE UHS-II V60 SD Card – Suited for Professional Photography
This model provides read speeds of up to 250MB/s and Video Speed Class 60 (V60) write performance, supporting continuous high-resolution photo capture and 4K/60fps video recording. The UHS-II interface

enhances file transfer efficiency, while its construction offers protection against common physical and electrostatic interference.
CAPTURE UHS-II V90 SD Card – Ready for High-Bitrate Video Workloads
With read speeds reaching approximately 300MB/s and V90-rated write capability, the CAPTURE V90 card is suitable for 8K video and high-bitrate 4K recording. It

maintains consistent performance during extended recording sessions, meeting the demands of advanced video production. The CAPTURE series is developed to align with the performance and reliability expectations of today's visual content creators. These cards provide dependable support across a range of shooting scenarios, from everyday use to professional projects.

DELL XPS 14, DELL XPS 16 REFRESHED UP TO INTEL CORE ULTRA X7 358H CPU, UP TO 16-INCH DISPLAYS

Dell has refreshed its XPS 14 and XPS 16 laptops in India with Intel Core Ultra series 3 processors paired with up to 32GB LPDDR5x RAM. They feature an 8-megapixel webcam and a quad speaker setup with support for Dolby Atmos audio. Dell has packed a 70Wh battery in both XPS 14 and XPS 16 models. The Dell XPS 14 features up to a 14-inch 2.8K OLED display, while the XPS 16 has up to a 16-inch 3.2K OLED touch panel. Both models are currently available for purchase in India.

Dell XPS 14, XPS 16 Price in India
The price of the Dell XPS 14 starts at Rs. 2,05,990 in India, while the Dell XPS 16 starts at Rs. 2,78,550. The newly launched models are available for purchase through Dell.com, Dell Exclusive Stores, and select retail outlets.

As an introductory offer, shoppers can avail a 10 percent discount up to Rs. 15,000 on purchases made using HDFC, SBI, ICICI and all other bank cards. Additionally, no-cost EMI options are available.

Dell XPS 14 Specifications
The Dell XPS 14 (DA14260) comes in Intel Core Ultra 7 355 and Intel Core Ultra X7 358H chipset options with an integrated Intel NPU that is claimed to deliver up to 50 TOPS of AI performance. It runs Windows 11 Home and offers up to 32GB LPDDR5x RAM and up to 1TB PCIe Gen 4 SSD storage.

For graphics, the Dell XPS 14 has integrated or optional Intel Arc graphics. The laptop features a 14-inch InfinityEdge display. It is offered in two display options — a 2K LCD panel with a 120Hz refresh rate, and a 2.8K OLED touch display with up to 120Hz refresh rate. The

high-end model supports Dolby Vision content. For video calls, the Dell XPS 14 has an 8-megapixel webcam with Windows Hello and HDR support. It includes quad speakers tuned with Waves MaxxAudio and Dolby Atmos. The speakers offer 10W audio output. It features dual microphones as well.

For connectivity, there are three Thunderbolt 4 USB Type-C ports, an audio jack, Wi-Fi 7, and Bluetooth 6.0. The new laptop features a backlit keyboard and a haptic glass touchpad. It uses a 70Wh battery and is bundled with a 100W adapter.

Dell XPS 16 Specifications
The Dell XPS 16 (DA16260)

runs on up to an Intel Core Ultra X7 358H processor. The CPU has 16 cores and is enhanced by Intel AI Boost NPU, delivering up to 50 TOPS of AI performance. It comes pre-installed with Windows 11 Home and carries 32GB LPDDR5x RAM and 1TB PCIe Gen 4 SSD storage. For graphics, it has integrated or optional Intel Arc graphics, depending on configuration.

The Dell XPS 16 boasts a 16-inch 3.2K OLED InfinityEdge touch display with an adaptive refresh rate ranging between 20Hz and 120Hz. The display has Dolby Vision and offers 100 percent DCI-P3 colour gamut.

Like the Dell XPS 14, the Dell XPS 16 also includes an 8-megapixel HDR webcam with Windows Hello and HDR support. Other key

specifications include dual-array microphones and quad speakers tuned with Waves MaxxAudio, MaxxVoice, and Dolby Atmos. It has three Thunderbolt 4 ports, Wi-Fi 7, and Bluetooth 6.0. This model also features a backlit keyboard with a haptic glass touchpad and ambient light sensors.

The Dell XPS 16 features a 70Whr battery alongside a 100W adapter.

Both Dell XPS 14 and Dell XPS 16 feature a CNC-machined aluminium chassis. They have Corning Gorilla Glass 3 coating on the palm rest and Gorilla Glass Victus protection on the OLED display. Both models measure 14.6mm in thickness. The XPS 14 weighs 1.36kg, while the XPS 16 tips the scales at 1.65kg.

“Technology is nothing. What's important is that you have a faith in people, that they're basically good and smart, and if you give them tools, they'll do wonderful things with them.”

The annual general meeting of the Saurashtra Security and Surveillance Association was held on Saturday, 2nd May 2026 in which the accounts of the previous year were approved, a glimpse of the previous year's programs reviewed, and new executive members were selected for the coming year 2026-2027. In this association, like every

time, the committee is formed on the basis of selection, not election. The committee and the president are selected from the working members without any kind of persuasion or election. On this occasion, Vice President of FAITA Shri Prafull Desai, Vice President of Federation of IT Associations of Gujarat

(FITAG) Shri Manish Patel, Spoke Person Shri Jatin Sanghani, President of Rajkot Computer Traders Association (RCTA) Chetan Vakhariya, Joint Secretary Shri Munjal Patel, Visionary Council of IT & ITES Enterprises (VCITE) President Shri Ronakbhai Raiyani, Secretary Devan Patel and Our Media Partner Shri Uday Bhojani of Personal

Computer Today were present. On this occasion, with the unanimous consent of the members present in large number, new executive members were appointed. Which are as follows. President - Shri Priten Pithadiya Vice President - Shri Hari Krishna Dal

Secretary - Shri Hitesh Vandra Joint Secretary - Shri Nishant Badiyani Treasurer - Shri Ramesh Nandania Joint Treasurer - Shri Anjani Patel, Shri Deep Gadhi IPP - Shri Prashant Parmar SSSA Advisors Shri Krunalbhaai Godhasara, Shri Jatinbhai Sanghani, Shri Jaydeepbhai Patel.

The mentors of the association are Shri Manishbhai Patel, Shri Sunilbhai Shah, Shri Vishalbhai Mehta. Shri Nilesh Dalsania, Shri Dharmesh Sarvaiya, Shri Paresch Chauhan, Shri Ashok Mayani, Shri Devang Trivedi, Shri Raj Tilva, Shri Dharmik Joshi, Shri Mitesh Parmar, Shri Ravi Patel (Jamnagar Co-ordinator),

Shri Nilesh Ghodasara (Morbi Co-ordinator), Dixit Dabhi (Surendranagar Co-ordinator) were appointed as executive members. In his farewell speech, President Shri Prashantbhai Parmar recounted the accounts of his work of the last year in which He thanked the companies and members for making the Fourth National

Level Surveillance and IT Business Expo at Rajkot a huge success. The newly appointed President said in his speech that his goal will be to work for the progress of the entire CCTV surveillance industry and all those associated with it in the coming year. At the same time, the Association is ready to organize various

programs for the progress of the people of the surveillance and security industries of the Association in the entire Saurashtra region, except Rajkot, by becoming members of the Association. President, Executive - all this is part of a system. But the responsibility of taking our organization forward lies with all of us. We have to work shoulder to

shoulder to give dignity to our profession, which makes us bright. This Association is not mine or yours - it is ours. Together we have to take the Association to new heights, we all have to move the Association forward in the direction of "One Step Up". And make our Association stronger, more active and more glorious.

META એ Therads ને બનાવ્યું વધુ સ્માર્ટ, કોમ્પ્યુટર પર લાઈવ ચેટ અને મેસેજિંગના ફીચર લોન્ચ કરશે

Meta Launch New Feature for Threads : Metaના સોશિયલ નેટવર્ક Threadsએ વેબ મેસેજિંગ ફીચર લોન્ચ કરવાની જાહેરાત કરી છે. આ ફીચર દ્વારા યુઝર્સ હવે તેમના ડેસ્કટોપ પરથી સીધી વન-ઓન-વન અને ગ્રુપ ચેટ કરી શકશે. આ પગલું Meta દ્વારા ડેસ્કટોપ અનુભવને X અને Bluesky જેવા અન્ય પ્લેટફોર્મ્સ સામે વધુ સ્પર્ધાત્મક બનાવવા માટે લેવામાં આવ્યું છે. આ સાથે જ યુઝર્સ દ્વારા એની સતત ડિમાન્ડ કરવામાં આવી રહી હોવાથી એને લોન્ચ કરવાનું નક્કી કરવામાં આવ્યું હતું.

વેબ મેસેજિંગની સૌથી વધુ ડિમાન્ડ કરવામાં આવી હતી

Metaના Threadsના હેડ Connor

Hayesએ જણાવ્યું કે જુલાઈ ૨૦૨૫માં DMs લોન્ચ થયા બાદ યુઝર્સ તરફથી વેબ

મેસેજિંગ સૌથી વધુ માંગવામાં આવેલું ફીચર હતું. તેમણે પોતાની પોસ્ટમાં લખ્યું કે

‘અમારા સૌથી વધુ એક્ટિવ યુઝર્સ વેબ પર વધુ સમય પસાર કરે છે કારણ કે તેઓ પોતાના ડેસ્ક પર હોય છે અને લાંબા સમય સુધી Threadsનો ઉપયોગ કરે છે.’ તેમણે વધુમાં કહ્યું કે એક કન્વર્સેશન એપ જ્યાં પણ હો ત્યાં કામ કરવી જોઈએ અને હવે આ નવા ફીચર સાથે તે શક્ય બન્યું છે.

વેબ પર નવું Messages ટેબ

Threadsના વેબ વર્ઝનમાં હવે Messages નામનું નવું ટેબ ઉમેરવામાં આવ્યું છે, જે તમને સીધા DM ઇનબોક્સમાં લઈ જશે. તેમાં Requests વિભાગ પણ છે, જ્યાં નવા મેસેજ રિકવેસ્ટ્સ જોઈ શકાશે. યુઝર્સ પોતાના મેસેજ સર્ચ કરી શકશે અને ઝડપથી નવી ચેટ શરૂ કરી શકશે.

ઈવેન્ટ દરમિયાન રિયલ-ટાઈમ વાતચીત માટે લાઈવ ચેટ્સ

વેબ મેસેજિંગ સાથે Threadsએ લાઈવ ચેટ્સ નામનું નવું ફીચર પણ રજૂ કર્યું છે. આ ફીચર સાંસ્કૃતિક ઇવેન્ટ્સ દરમિયાન રિયલ-ટાઈમ વાતચીત કરવાની સુવિધા આપે છે અને હાલમાં NBA Threads કમ્યુનિટીમાં પ્લેઓફ્સ દરમિયાન શરૂ કરવામાં આવ્યું છે. યુઝર્સ મેસેજ, ફોટો, વીડિયો, લિંક્સ અને ઇમોજી રિએક્શન પણ મોકલી શકશે. એક ચેટમાં વધુમાં વધુ ૧૫૦ લોકો એક્ટિવ રીતે મેસેજ મોકલી શકશે, જ્યારે તેની બાદ અન્ય લોકો દર્શક તરીકે જોડાઈ શકશે.

Truecaller ના રીપોર્ટ મુજબ સ્પામ કોલ્સ માટે ભારતનો વિશ્વમાં ૬૬ ટકા સ્પામ ઇન્ટેન્સિટી

Spam Calls in India: જો તમારા પર છેલ્લા થોડા સમયથી અજાણ્યા નંબરના કોલ્સ આવતાં હોય તો તમે એકલા નથી. આ કોલ્સને અવગણવા ખૂબ જ જરૂરી છે કારણ કે એ સ્પેમ કોલ્સ છે. Truecallerના તાજેતરના રિપોર્ટ મુજબ ભારત હવે સ્પેમ અને ફોડ કોલ્સનો સામનો કરતા ટોચના દેશોમાં સામેલ છે અને દુનિયાભરમાં પમાં ક્રમે છે. આથી હવે કોઈના પર પણ આવા કોલ્સ આવે તો એને ઉપાડવા નહીં. આ

પ્રકારના કોલ્સથી ઘણી છેતરપિંડી થઈ રહી છે.

66% સ્પેમ ઇન્ટેન્સિટીને કારણે ચિંતા વધી ૨૦૨૫ના રિપોર્ટ મુજબ વિશ્વભરમાં ૬૮ અબજથી વધુ સ્પેમ અને ફોડ કોલ્સ નોંધાયા હતા. તેમાં ભારતનો મોટો હિસ્સો છે, જ્યાં સ્પેમ ઇન્ટેન્સિટી 66% છે. સરળ શબ્દોમાં કહીએ તો જો તમને અજાણ્યા નંબરથી કોલ આવે, તો તેમાં સ્પેમ, ટેલિમાર્કેટિંગ અથવા ઠગાઈનો કોલ હોવાની શક્યતા વધારે છે,

ખરેખર ઓળખીતો કોલ હોવાની નહીં આથી અજાણ્યા નંબરથી ચેતીને રહેવું જરૂરી છે.

ટેલિમાર્કેટિંગથી સૌથી વધુ સ્પેમ

ભારતમાં મોટા ભાગના સ્પેમ કોલ્સ અચાનક નથી આવતા. તે ટેલિમાર્કેટિંગ જેવા બિઝનેસમાંથી આવે છે.

36% સ્પેમ કોલ્સ ટેલિમાર્કેટર્સ દ્વારા થાય છે, જે પ્રોડક્ટ્સ અને સર્વિસીસનું પ્રચાર કરે છે

18% કોલ્સ લોન, કેડિટ કાર્ડ અથવા રોકાણ જેવી નાણાકીય સેવાઓ સાથે જોડાયેલા છે

12% કોલ્સ સીધી ઠગાઈ અથવા ફોડ સંબંધિત હોય છે આ દર્શાવે છે કે આક્રમક માર્કેટિંગ અને વધતા નાણાકીય ફોડ ભારતના સ્પેમ કોલ્સના મુખ્ય કારણો છે.

વૈશ્વિક સ્તરે ભારતનું સ્થાન

સ્પેમથી પ્રભાવિત દેશોમાં ભારત પમાં ક્રમે છે. ભારત કરતાં આગળના દેશો છે

૧. ઇન્ડોનેશિયા

૨. ચિલિ

૩. વિયેતનામ

૪. બ્રાઝિલ

૫. ભારત

આ રેન્કિંગ બતાવે છે કે ખાસ કરીને ઝડપથી વિકસતા ડિજિટલ અર્થતંત્રમાં આ સમસ્યા કેટલી વ્યાપક બની ગઈ છે.

આ કેમ મહત્વનું છે?

સ્પેમ કોલ્સ માત્ર તકલીફજનક નથી. તે જોખમી પણ બની શકે છે. ઠગાઈના કોલ્સમાં ખોટી ઓફર્સ, ફિશિંગ પ્રયાસો અથવા નાણાકીય છેતરપિંડીનો સમાવેશ થાય છે. આવી ઊંચી સ્પેમ ઇન્ટેન્સિટી વચ્ચે, વપરાશકર્તાઓએ સાવધાન રહેવું જરૂરી છે.

કેવી રીતે સુરક્ષિત રહેવું?

- જરૂર ન હોય ત્યાં સુધી અજાણ્યા નંબરના કોલ્સ ઉઠાવવાનું ટાળો

- Truecaller જેવી કોલર આઈડી એપનો ઉપયોગ કરો

- ફોન પર ક્યારેય વ્યક્તિગત અથવા બેન્કિંગ વિગતો શેર ન કરો

- અન્ય લોકોને સુરક્ષિત રાખવા માટે સ્પેમ નંબરની ફરિયાદ કરો

ભારતમાં વધતા સ્પેમ કોલ્સ એ સ્પષ્ટ સંકેત છે કે ડિજિટલ સંચારનો ખોટો ઉપયોગ થઈ

રહ્યો છે. સાધનો અને જાગૃતિ મદદરૂપ બની શકે છે, પરંતુ આ સમસ્યાને ઘટાડવા માટે કડક નિયમો અને વધુ અસરકારક અમલ જરૂરી રહેશે. ત્યાં સુધી, જ્યારે તમારો ફોન અજાણ્યા નંબરથી વાગે, ત્યારે તેને ઉઠાવતાં પહેલાં બે વાર વિચારવું સારું રહેશે.

:: સુચના ::

અમારા વહાલા

વાચકમિત્રોને આથી જાણ કરવામાં આવે છે કે આ મેગેઝીનમાં પ્રસીદ્ધ થતાં લેખો કે મંતવ્યો જે તે લેખકોના છે. પ્રકાશન આ બાબત સાથે સહમત છે કે અસહમત છે તેમ ન માનવું. તથા આ પ્રકાશનમાં પ્રસીદ્ધ થતી જાહેરખબરો - સેવા કે ઉત્પાદનો અંગેની માહિતીની અમે કોઈ ચકાસણી કરતા નથી. તો આ બાબતે નાણા મોકલતા કે તે સેવાનો ઉપયોગ કરતા પહેલા અધિકૃત વ્યક્તિની સલાહ લેવી જરૂરી છે. આ બાબતની કોઈપણ જાતની ફરીયાદ કે દાવા અંગે પર્સનલ કોમ્પ્યુટર ટુ ડે ની જવાબદારી રહેશે નહીં.

ગુગલે બનાવ્યું રેમી યુઝર્સ માટે કામ કરતું પર્સનલ એઆઈ એજન્ટ

Google New AI Agent: Google તેના Gemini પ્લેટફોર્મ માટે નવા આર્ટિફિશિયલ ઇન્ટેલિજન્સ (એઆઈ) આધારિત પર્સનલ એજન્ટ પર કામ કરી રહ્યું છે. Remy કોડનેમ ધરાવતો આ પ્રોજેક્ટ કામ, અભ્યાસ અને દૈનિક જીવન માટે ૨૪/૭ પર્સનલ એજન્ટ તરીકે સેવા આપવા માટે બનાવવામાં આવી રહ્યો છે. Remy વિશેની આંતરિક માહિતીમાં જણાવાયું છે કે તે Gemini એપને માત્ર પ્રશ્નોના જવાબ આપતી અથવા કન્ટેન્ટ જનરેટ કરતી એપથી આગળ લઈ જઈને એવો સાચો આસિસ્ટન્ટ બનાવશે, જે યુઝર્સ માટે વિવિધ કામ પણ કરી શકે છે.

OpenClawને ટક્કર આપી શકે Remy Remyને સીધી રીતે OpenClawનો પ્રતિસ્પર્ધી માનવામાં આવી રહ્યો છે. OpenClaw એક એઆઈ એજન્ટ પ્લેટફોર્મ છે, જેને આ વર્ષે યુઝર્સ માટે કામ કરવાની ક્ષમતાના કારણે લોકપ્રિયતા મળી હતી. તે ઇમેલ્સનું સમરી બનાવવું, કેલેન્ડર મેનેજ કરવું, મેસેજનો જવાબ આપવો અને વેબસાઈટ્સ પર નેવિગેટ કરવાનું કામ પણ કરી શકે છે. OpenClawની સફળતા બાદ તેને OpenAI દ્વારા ખરીદી લેવામાં આવ્યું હતું.

Googleના ઇકોસિસ્ટમ સાથે ઇન્ટિગ્રેશન રિપોર્ટ મુજબ Remy, Googleના સમગ્ર

ઇકોસિસ્ટમ સાથે અંદર સુધી જોડાયેલું હશે. તે હવે યુઝર માટે મહત્વપૂર્ણ બાબતો પર નજર રાખી શકશે, જટિલ કામોને પહેલેથી સંભાળી શકશે અને સમય સાથે યુઝર્સની પસંદગીઓ શીખી શકશે. હાલમાં આ નવા એઆઈ એજન્ટના લોન્ચ વિશે કોઈ સત્તાવાર સમય જાહેર કરવામાં આવ્યો નથી. પ્રોજેક્ટ હાલમાં ડોગઉડિંગ સ્ટેજમાં છે, જેમાં કંપનીના કર્મચારીઓ પ્રોડક્ટને જાહેર લોન્ચ પહેલાં આંતરિક રીતે ટેસ્ટ કરે છે.

Google I/O ઇવેન્ટમાં થઈ શકે રજૂઆત આ મહિના અંતે (૧૯-૨૦ મે) યોજાનારી Googleની I/O ઇવેન્ટ Remyના લોન્ચ

માટેનું સ્ટેજ બની શકે છે. Googleનો ઇતિહાસ રહ્યો છે કે તે આ ઇવેન્ટ્સમાં તેના મોટા એઆઈ અપડેટ્સ રજૂ કરે છે. Googleએ તાજેતરમાં તેનું Gemini 2.5 Pro મોડલ, Google Searchમાં એઆઈ Mode અને Deep Research ટૂલ લોન્ચ કર્યા હતા.

ઉપરાંત કંપનીએ Project Mariner જેવા અનેક એઆઈ પ્રોજેક્ટ્સ પણ રજૂ કર્યા હતા, જે તરત જાહેર કરવામાં આવ્યા નહોતાં. Project Mariner એવો એઆઈ એજન્ટ છે, જે બ્રાઉઝરનો ઉપયોગ કરીને યુઝર્સ માટે મલ્ટી-સ્ટેપ કામ કરી શકે છે.

ASIRT HOSTS TECHDAY #136: PARTNER INSIGHTS AND PRACTICAL BUSINESS CONVERSATIONS

ASIRT
PARTNER PROGRESS EVOLVE

The Association of System Integrators and Retailers in Technology (ASIRT) successfully conducted TechDay #136 on Thursday, 23 April 2026, at Sai Palace Hotel, Andheri East, Mumbai. The session commenced with Chetan Shah, one of the founders of ASIRT, who set the tone with updates on the association's ongoing initiatives, member engagement, and the steady progress across its consortium ecosystem. His address reflected the growing strength and direction of the

ASIRT community. The first presentation was by 3F Security, a cybersecurity-focused organization offering solutions across endpoint protection, network security, and threat management. Their session highlighted the importance of strengthening businesses' security posture in an increasingly complex threat landscape. This was followed by ITCG Technologies, now rebranded as Goyama Securetech, which presented on Atera and the opportunity for partners to build their own MSP capabilities. The session emphasized how partners can move away from

dependency on external service providers post-deployment and instead create recurring service revenue streams. They also introduced channel schemes around OpenText, opening additional business avenues for members. Jaypee Tex Engineering Pvt. Ltd. then presented its offerings in engineering-driven technology solutions, focusing on delivering reliable infrastructure, specialized project execution, and customized solutions for enterprise environments. The Evolve Speaker session featured Dr. Radhakrishnan Pillai, who spoke on

"Chanakya Neeti for Success, Peace and Happiness in Professional and Personal Life." The session touched on the relevance of ancient strategic thinking to modern business, including aspects of discipline, structured decision-making, and a long-term perspective in both professional and personal contexts. The evening concluded with a networking dinner, where members connected, exchanged ideas, and strengthened relationships within the ASIRT ecosystem. About ASIRT The Association of System

Integrators and Retailers in Technology (ASIRT) is one of India's leading IT associations, committed to empowering system integrators and technology partners through collaboration, knowledge sharing, and business growth. For more information, visit www.asirt.in.

OPENAI CEO SAM ALTMAN TEASES GPT-5.5 CYBER AI MODEL ROLLOUT

OpenAI CEO Sam Altman teased the successor to the GPT-5.4 Cyber artificial intelligence (AI) model on Thursday. Dubbed GPT-5.5 Cyber, the model was announced just a fortnight after the San Francisco-based AI giant introduced its first cybersecurity model. Not a lot is known about the model currently, but it is expected to follow the same limited release format as the predecessor. The model is said to be competing with Anthropic's Claude Mythos, and offers similar real-world vulnerability detection prowess. OpenAI Teases GPT-5.5 Cyber

In a post on X (formerly known as Twitter), Altman shared that GPT-5.5 Cyber will soon be rolled out to critical cyber defenders. Interestingly, the company is also hosting a GPT-5.5 "party" at its San Francisco headquarters on May 5. The company had asked users to sign up to get a chance to attend it. There's a possibility that OpenAI might preview some of the capabilities of 5.5 Cyber during the event. For now, not a lot is known about the large language model (LLM). Besides

teasing the early access rollout, the OpenAI CEO said, "We will work with the entire ecosystem and the government to figure out trusted access for cyber; we want to rapidly help secure companies/infrastructure." The restricted rollout makes sense. When the company released the GPT-5.4 Cyber model, it was designed for cybersecurity functions. It used binary reverse engineering capabilities to analyse compiled software for malware potential, vulnerabilities, and overall security. OpenAI had said that the model does not even require access to the source code of a software to analyse

this. Based on this, it appears that the model's functionality is broadly similar to Anthropic's Claude Mythos. To ensure that the cybersecurity LLM would not be misused, the AI giant scaled its Trusted Access for Cyber (TAC) programme, which only lets the model be accessed by verified individuals and firms. Since little is known about the capabilities of the GPT-5.5 Cyber AI model, it cannot be said with certainty that it can outperform Claude Mythos. However, once OpenAI releases the system card and internal evaluations, the comparison between the two will become clearer.

MICROSOFT ROLLS OUT XBOX MODE ON WINDOWS 11 PCS IN SELECT MARKETS

Microsoft is rolling out Xbox mode on Windows 11 PCs in select markets, bringing a console-like gaming interface to desktops, laptops, and tablets. The mode, which debuted as the Xbox full-screen experience on the ROG Xbox Ally handhelds, is optimised for controllers and aggregates game libraries across Xbox Game Pass, Steam and other storefronts. Xbox mode for Windows 11 was announced in March and was scheduled to be released in April. The mode started rolling out to some users in select markets on April 30. It will be expanded to more

users in those markets in the coming weeks. Microsoft announced in an Xbox Wire post. To get the Xbox mode update, make sure automatic updates on your Windows 11 PC are turned on. To check this, head to Settings, select Windows Update, and turn on 'Get the latest updates as soon as they are available'. Once Xbox mode is available on your PC, you can head to

Windows settings and turn on the feature to start using it. Xbox mode makes it easier to jump into your games across a variety of PC storefronts. The mode's streamlined interface, that takes inspiration from Xbox consoles, makes it easier to access recently played games and library content. With the mode on, you can navigate your library of games and launch a title with a controller. Xbox mode also features aggregated game libraries from Xbox Game Pass, Steam, and Epic Games Store, among others. So, you can jump into an

installed game from either of those PC storefronts directly from Xbox mode. When done playing, you can seamlessly switch to Windows 11 desktop. Xbox mode was first introduced as Xbox FSE on ROG Xbox Ally handhelds and was later pushed to other Windows-based gaming handhelds. The interface aims to bring a more intuitive console-like gaming experience on Windows. Microsoft said feedback from players helped shape Xbox mode on PC. Xbox mode on Windows 11 will continue evolving based on user feedback, the company said.

INTEL'S 'WILDCAT LAKE' PROCESSOR SHOWS UP ON BENCHMARK DATABASE, A18 PRO CHIP ON MACBOOK NEO

Apple's MacBook Neo was launched in early March, during its four-day-long launch spree. The new laptop, introduced as a separate lineup from the MacBook Air and Pro series, is powered by the A18 Pro chipset, which also powers the iPhone 16 Pro and iPhone 16 Pro Max. The first low-cost MacBook model from Apple competes with Chromebooks and mid-range Windows laptops. Soon after its debut, Asus' Co-Chief Executive Officer (CEO) reportedly said that the MacBook Neo has shaken the PC industry, forcing companies to respond. Now, it appears that Intel has begun working on the rival to Apple's A18 Pro SoC, dubbed Wildcat Lake. Intel Wildcat Lake Chip

Reportedly Outperformed Apple's A18 Pro An unreleased Intel Core 5 320 processor has been listed on the PassMark benchmarking platform. According to a TweakTown report, the listing belongs to the Intel Wildcat Lake Series 300 processor, which will likely compete with the new MacBook Neo's A18 Pro chipset. The Intel Wildcat Lake processor is shown to feature a six-core CPU, comprising two performance cores and four efficiency cores. The Intel Core 5 320 processor managed to score 4,047 and 15,222 points on PassMark's single-thread and multi-thread performance tests,

respectively. Among the 5,866 CPUs listed on the platform, Intel's unreleased processor ranks 1,248th and 190th in terms of multi-thread and single-thread performance. The two performance cores of the Intel Wildcat Lake reportedly delivered a peak clock speed of 4.6GHz. According to the report, the unreleased Intel Wildcat Lake processor managed to outperform MacBook Neo's A18 Pro chipset by a significant margin. The MacBook Neo reportedly managed to score 11,993 points on PassMark's multi-thread performance test, which is 21.2 percent lower than the Intel 5 320's score. In the past, the MacBook Neo has also appeared on the

Geekbench benchmarking platform, scoring 3,980 points (single core) and 10,105 points (multi core). The SoC of the laptop was listed with a base frequency of 4.04GHz, while featuring 8GB of RAM. To recap, the MacBook Neo was launched in India and other global markets on March 4 at a starting price of Rs. 69,900 for the base model featuring 8GB of unified memory and 256GB of storage, and Rs. 79,900 for the 512GB storage option. The laptop sports a 13-inch (2,408×1,506 pixels) Liquid Retina IPS display. Apple claims that the A18 Pro chipset is up to 50 percent faster at regular tasks than a Windows PC, powered by an Intel Core Ultra 5 processor.

GOOGLE'S GEMINI AI APP COULD SOON START SHOWING ADS, COMPANY EXECUTIVE REPORTEDLY HINTS

Google has been showing commercials and sponsored search results under and over AI Overviews answers for months now. Moreover, various reports in the past have highlighted that the Mountain View-based tech giant is also testing ads in AI Mode. Now, the company could be preparing to bring

commercials to its conversational AI assistant, the Gemini AI app. During Google's quarterly earnings conference call, a company executive reportedly told company shareholders and journalists that the tech giant is open to showing ads in the app. This comes months after the Sam Altman-led OpenAI

announced it had started rolling out ranked ads in its AI-powered chatbot, ChatGPT. Google Reportedly Mulls Ads in the Gemini AI App A Business Insider report claims that during the company's quarterly results conference call, Google's Chief Business Officer (CBO), Philipp Schindler, said that the tech giant is open to bringing commercials and sponsored results in the Gemini AI app. The executive pointed out that while its focus remains on bringing ads in AI Mode, the tech giant believes that "a format that works well in AI mode would transfer successfully to the Gemini app." Talking about the financial aspect of displaying

commercials in the Gemini AI app, the Google executive reportedly said that ads are expected to "play a key role in growing Gemini," if the same has been executed well. Interestingly, the tech giant already shows ads in AI Overviews search results in various markets, including India, Indonesia, Kenya, Malaysia, New Zealand, Nigeria, Pakistan, Philippines, Singapore, the US, Australia, and Canada, in English on mobile and desktop devices. The commercials are displayed based on a user's query, along with the content of the AI Overview. As of now, AI Overviews show text and shopping ads from existing

search results, as well as "Shopping and Performance Max" campaigns. If Google does roll out ads in the Gemini AI app, it could compete directly with the US-based AI giant, OpenAI. In February, the Sam Altman-led tech firm announced that it had started rolling out ads in its AI-backed chatbot ChatGPT for free and Go users in the US. While announcing this, the company stated that the advertised suggestions "do not influence" ChatGPT's AI-generated responses. Moreover, the ChatGPT ads are only displayed to logged-in adult users, but are now appearing for users under the age of 18.

YOUTUBE EXPANDS PICTURE-IN-PICTURE FEATURE GLOBALLY FOR ALL USERS

YouTube unveiled its Picture-in-Picture (PiP) feature a few years ago, allowing users to continue watching videos in a small window while using other apps. Now, the Google-owned video platform has announced that the PiP mode is expanding to more users worldwide over the coming months. Previously, the PiP feature was limited to YouTube Premium members outside of US on Android and iOS devices. Only non-premium users in the United States could access the feature. YouTube Confirms Global Expansion of PiP Google, through a post on its Support page, confirmed that PiP is now rolling out to all YouTube users globally in the coming months. This feature lets users shrink the video into a smaller player that keeps playing even after they

leave or minimise the YouTube app. Google made the PiP feature available to Premium subscribers on iOS back in 2021. It is a convenient way to multitask, as users can keep the video open while performing other tasks. With the latest update, non-premium users outside the US can now have access to PiP for long-form, non-music content on their Android and

iOS devices. Premium Lite Members will continue to access the PiP for long-form, non-music content on Android and iOS. Finally, the Premium members can access PiP for both music (Premium-only) and non-music content. While watching a YouTube video, users can swipe up or press the home button to leave the app, and the video will automatically keep

playing in a floating window on the screen. The small player can be moved anywhere on the smartphone's home screen and positioned over other apps. You can stop PiP from activating by pausing or stopping the video before leaving the YouTube app. Users may need to adjust either the YouTube app or device settings if it isn't working properly. The PiP can be turned off by opening the YouTube app, heading to Settings > Playback > toggle Picture-in-Picture to off. For turning picture-in-picture on on your Android device, head to Settings > Apps > YouTube > Advanced > Picture-in-Picture and toggle it on. Users can either tap the floating video to show

controls and press the X icon in the top-right corner, or drag the mini player down to the bottom of the screen to dismiss it.

ASK.COM HAS SHUT DOWN, MARKING THE OFFICIAL FAREWELL TO THE INTERNET'S FAVORITE BUTLER

Ask.com, the search engine previously known for its butler mascot named Jeeves, has officially shut down. While Ask Jeeves was rebranded to Ask.com in 2006 by its new owner at the time, InterActiveCorp, this latest closure puts an end to the entirety of the company's search business."As IAC continues to sharpen its focus, we have made the decision to discontinue our search business, which includes Ask.com," the statement on the website

reads. "After 25 years of answering the world's questions, Ask.com officially closed on May 1, 2026. The statement ended by thanking its millions of users,

and saying, "Jeeves' spirit endures." As sad as it is to see a relic of the early Internet days fade into obscurity, we still have Ask Jeeves to thank for why some users still punch

in full questions when querying Google. On top of that, Jeeves was built to provide detailed answers in natural language, which could have arguably acted as a precursor to today's AI chatbots like ChatGPT. Now, Ask.com joins the Internet graveyard that includes competitors like AltaVista, which shut down in 2013. With Ask.com gone, alongside AIM and AOL dial-up services also sunset, we're truly coming to an end of a specific era of the Internet.
