THE 17TH ANNUAL GENERAL MEETING (AGM) OF THE FEDERATION OF INFORMATION TECHNOLOGY ASSOCIATIONS OF GUJARAT (FITAG) WAS HELD ON 1 AUGUST 2026 AT THE BHAGVATI RESORT ON ABU ROAD

Ahmedabad | August 2026

The Federation of Information Technology Associations of Gujarati (FITAG) successfully conducted its Annual General Meeting (AGM) 2026, bringing together Presidents, office bearers and representatives of Information Technology Associations from across Gujarat. During the AGM, certain changes and additions were made to the existing leadership structure to further strengthen the Federation and enhance coordination among its member associations.

Mr. Alpesh Gevariya will continue to serve as the President of FITAG as part of his ongoing two-year tenure. With one year remaining in his current term, Mr. Gevariya will continue to lead FITAG with the support of the existing and newly strengthened leadership team.

Under the continued leadership of President Mr. Alpesh Gevariya, FITAG has witnessed further growth and expansion during the current year. With the addition of new member associations, the FITAG family has now grown to include 48 Associations across Gujarat.

This expansion reflects the increasing trust, unity and collective strength of the Federation and has further strengthened FITAG as a representative platform for the Information Technology industry. The growing network of member associations will also help create greater opportunities for collaboration, knowledge-sharing and collective development.

The updated team comprises experienced office bearers along with newly appointed members, bringing together continuity, experience, fresh perspectives and collective strength. The team will work towards strengthening unity among member associations, promoting professional and industry growth, encouraging knowledge-sharing and addressing common challenges faced by the IT and allied sectors.

The updated office-bearers of FITAG are as follows:

President
Mr. Alpesh Gevariya

IPP
Mr. Alok Ghelani

Vice Presidents
Mr. Uren Patel
Mr. Rakeshkumar Patel
Mr. Ketan Gohel
Mr. Pratik Moradiya
Mr. Jatin Sanghani
Mr. Bharat Ramoliya
Mr. Ketan Doshi
Mr. Sanjay Patodiya

General Secretaries
Mr. Varun Amin
Mr. Bhavin Gathani

Treasurer
Mr. Ravi Dave

Joint Secretaries
Mr. Jagdish Ahir
Mr. Hardik Mistry
Mr. Bhanu Soni
Mr. Nitesh Sanghani
Mr. Hitesh Vyas
Mr. Sunil Shah

Joint Treasurers
Mr. Manji Patel
Mr. Kishor Gorasiya

Spokespersons
Mr. Prashant Parmar
Mr. Bechar Narola
Mr. Shailesh Makasana

FITAG serves as a strong platform connecting Information Technology Associations across Gujarat and plays an important role in promoting unity, professional development, industry awareness, knowledge-sharing and collective progress. With the continued leadership of President Mr. Alpesh Gevariya and the collective strength of the updated leadership team, FITAG will continue to focus on strengthening coordination among its 48 member associations, supporting industry-oriented initiatives, creating new opportunities for members and working collectively towards the growth and development of the IT industry. The combination of experienced leadership and new participation is expected to bring greater energy, wider representation and fresh ideas to FITAG's ongoing initiatives. The AGM marked another important milestone in FITAG's journey, reinforcing its commitment to unity, collaboration and sustainable growth. The Federation looks forward to a productive and impactful year ahead with the continued guidance of its President and the collective efforts of the entire leadership team.

FITAG extends its heartfelt congratulations and best wishes to all the office bearers and looks forward to their valuable contribution towards strengthening the Federation and taking it to greater heights.

HIKVISION M200 USB FLASH DRIVE PREMIUM METAL DESIGN AND MASSIVE STORAGE

HIKVISION M200 USB flash drive emerges as a premier storage solution, expertly engineered to extend storage capacity for various devices while realizing quick, stable, and easy data transmission. Designed to meet the escalating demands of modern digital life, this compact device provides an ideal answer for users seeking to free up valuable device space without compromising on operational performance.

Small in size yet big in storage, M200 USB flash drive boasts a highly portable form factor that easily slips into a pocket or attaches to a keychain. Despite its diminutive physical footprint, the internal architecture is specifically built for high expandability. M200 USB flash drive comes with many capacity choices to cater to diverse user requirements. The storage capacity scales up to an impressive 128GB, delivering enough space for all your daily, academic, or professional needs. Whether users are backing up high-resolution multimedia files, transferring massive project documents, or archiving memorable photos, the M200 handles the digital workload with remarkable efficiency.

Beyond its impressive storage capabilities, M200 USB flash drive features a premium metal and solid build. The sleek metal design not only adds a sophisticated, modern aesthetic but also ensures exceptional durability for rigorous, everyday use. Engineered to be completely dustproof and shockproof, the M200 effectively protects valuable data against accidental physical impacts and harsh environmental elements. This robust construction guarantees that critical files remain secure, even when utilized in demanding or unpredictable environments.

Furthermore, M200 USB flash drive emphasizes high file compatibility, allowing it to seamlessly work across different operating systems, including Windows, macOS, and Linux. This broad compatibility ensures that accessing, transferring, and sharing files remains a completely hassle-free experience across desktops, laptops, and other compatible gadgets. Users can confidently plug the device into various ports, knowing that the quick, stable, and easy data transmission will commence instantly without the need for complex software installations.

Combining robust construction, generous storage options, and swift data transfer speeds, M200 USB flash drive stands as a reliable and highly efficient tool for modern digital storage.

M200 USB flash drive ultimately redefines the balance between physical resilience and digital capacity, proving itself as an indispensable accessory for anyone looking to expand their digital horizons securely and effortlessly.

MICROSOFT SURFACE LAPTOP ULTRA ANNOUNCED WITH BLACKWELL RTX GPU, NVIDIA RTX SPARK SUPERCHIP

Microsoft Surface Laptop Ultra was announced on Sunday as the company's most powerful Surface laptop built to date. Developed in collaboration with Nvidia, the Redmond-based tech giant says its new laptop is aimed at creators, developers, AI researchers, and professionals. The Surface Laptop Ultra features Nvidia's latest Blackwell RTX graphics architecture with up to 128GB of unified memory and full CUDA support for handling demanding workloads such as large AI models, 3D rendering, software compilation, and complex simulations.

Microsoft Surface Laptop Ultra Availability

Microsoft has confirmed that the Surface Laptop Ultra will be released later this year.

However, its pricing details or region-wise availability have yet to be announced. The Surface Laptop Ultra will be offered in Platinum and Nightfall colour options.

Microsoft Surface Laptop Ultra Features, Specifications

The Microsoft Surface Laptop Ultra sports a 15-inch mini-LED PixelSense Ultra touchscreen display with up to 2,000 nits of peak HDR brightness. The panel offers a pixel density of 262ppi and is claimed to deliver high-precision colour accuracy for professional creative workloads. Microsoft says this is the brightest display it has ever shipped on a Surface device.

Under the hood, the laptop is powered by an Nvidia Blackwell RTX GPU. It is also claimed to be the first Surface device to feature full Compute Unified Device Architecture (CUDA) support. As per the company, it can deliver up to 1 petaflop of AI compute performance. This allows users to run local AI models with up to 120 billion parameters.

The Surface Laptop Ultra can be configured with up to 128GB of unified memory that is capable of dynamically allocating system resources between the CPU and GPU depending on workload requirements. The company says the hardware has been tuned for Nvidia RTX Spark workloads and next-generation Windows AI experiences. The RTX Spark, notably, is a new superchip by Nvidia that combines a Blackwell RTX GPU with 6,144 CUDA cores, fifth-generation Tensor cores, and a 20-core Nvidia Grace CPU.

For sustained performance, the Surface Laptop Ultra's thermal system is said to feature up to 2.5 times the thermal capacity of the 15-inch Surface Laptop (7th Edition). On the connectivity front, it includes an HDMI port, USB Type-C ports, a USB Type-A port, an SD card slot, and a 3.5mm headphone jack.

The laptop also features Microsoft's largest haptic touchpad to date and supports Windows Hello for facial recognition. Microsoft says the Surface Laptop Ultra has been engineered with repairability in mind, with internal wayfinding and purchasable replacement parts.

SONY BRAVIA 9 II 115-INCH TRUE RGB TV LAUNCHED IN INDIA WITH BACKLIGHT MASTER DRIVE PRO TECH

Sony Bravia 9 II 115-inch True RGB TV was launched in India on Monday as the latest addition to its Bravia 9 II lineup. It is the company's largest TV to date and joins the existing 75-inch and 75-inch variants. The TV is powered by Sony's proprietary RGB Backlight Master Drive Pro technology. Alongside the flagship 115-inch model, the company has also introduced a new 98-inch option to its Bravia 7 II lineup.

Sony Bravia 9 II 115-inch True RGB TV Price in India, Availability

The retail price of the Sony Bravia 9 II 115-inch True RGB TV in India is set at Rs. 45,99,900. However, customers can purchase the TV at a Best Buy price of Rs. 28,99,990. Meanwhile, the Sony Bravia 7 II 98-inch model is available at a Best Buy price of Rs. 8,71,990.

The Sony Bravia 9 II 115-inch True RGB TV will be available for purchase soon through Sony Centres, Sony Exclusive stores, ShopatSC.com, leading electronics retailers, and e-commerce platforms.

Bravia 9 II 115-inch True RGB TV Features, Specifications

Sony's proprietary RGB Backlight Master Drive Pro technology powers the Bravia 9 II 115-inch True RGB TV. As per the company, it allows the TV to independently control red, green, and blue LEDs, resulting in what Sony claims is the widest colour volume in its TV lineup. It is paired with the BRAVIA XR Processor for improved colour accuracy, contrast, brightness, and picture realism.

The entire Bravia 9 II portfolio supports HDR10, HLG, IMAX Enhanced and Dolby Vision. For gamers, there is Auto HDR Tone Mapping and Auto Genre Picture Mode, supported by PlayStation 5.

The new 115-inch flagship Bravia model also features existing technologies like X-Wide Angle Pro, Luminance Booster Pro, and Smooth Colour Gradation.

On the audio front, the 115-inch Bravia 9 II features an Acoustic Multi-Audio+ system with 12 speakers. It comprises two subwoofers, eight full-range speakers, and two tweeters. The TV runs on the Google TV interface. Sony also confirmed that Gemini for Google TV will arrive via a future over-the-air (OTA) update, which would enable AI-powered voice interactions on not just the Bravia 9 II 115-inch True RGB TV, but other compatible models as well.

Connectivity options include Wi-Fi 6, Bluetooth 5.3, four HDMI ports, two USB ports, an Ethernet port, and RF and satellite inputs.

DELL XPS 13, DELL 14S AND DELL 16S LAUNCHED IN INDIA, ALIENWARE 15 REFRESHED: PRICE & SPECIFICATIONS

Dell XPS 13, Dell 14S and Dell 16S have been launched in India. The Dell XPS 13 has a 13.4-inch 2.5K display and is compatible with Intel Core Series 3 or Intel Core Ultra Series 3 processors. The new Dell 14S and Dell 16S models can be configured with Intel Core Ultra Series 3 processors or the AMD Ryzen AI 400 series processors. Alongside the new models, Dell has also refreshed the Alienware 15 gaming laptop with configurations up to Intel Core 7 240H processors and Nvidia GeForce RTX 5060 graphics.

Dell XPS 13, Dell 14S, Dell 16S, Alienware 15 Price in India

Dell XPS 13 is launched with an initial price tag of Rs. 79,990. It is available in Sky and Storm finishes. The price of the Dell 14S starts at Rs. 1,19,990, while the Dell 16S starts at Rs. 2,29,990. They come in Celestial Blue or Frost Blue colours.

The Dell Alienware 15 with Intel Core processors starts at Rs. 1,28,990. It is offered in Nova Black shade.

All new models will go on sale through Dellstore.com and Dell Exclusive stores (DES). The Dell 14S and Alienware 15 with Intel Core processors are also confirmed to be available through retail and multi-brand outlets.

Dell XPS 13 Specifications

The Dell XPS 13 runs on Intel Core Series 3 or Intel Core Ultra Series 3 processors with up to 32GB of LPDDR5X and Intel graphics. The models featuring Intel Core Ultra Series 3 processors are confirmed to be available at a later date. It features a 13.4-inch 2.5K LCD InfinityEdge touch display with 100 percent DCI-P3 colour coverage and a variable refresh rate ranging from 30Hz to 120Hz. The display is touted to deliver a peak brightness of 500 nits.

Depending on the configuration, the Dell XPS 13 supports either two USB 3.2 Gen 2 Type-C ports or two Thunderbolt 4 or USB Type-C ports. It offers Intel Wi-Fi 7 and includes Dolby Atmos-tuned quad speakers.

Dell XPS 13 features a Backlit chiclet keyboard and a windowed touchpad. The company claims that the laptop has Energy Star certification and is EPEAT Gold-registered with the Climate+ designation. It is advertised to offer up to 17 hours of streaming on a single charge. It has 12.7mm edges and weighs 1Kg. The laptop has a CNC aluminium design.

Dell 14S and Dell 16S Specifications

Both Dell 14S and Dell 16S are powered by Intel Core Ultra Series 3 chipsets or AMD Ryzen AI 400 Series processors, with up to a 50 TOPS NPU for AI-based tasks. The company states that the Dell 16S with Intel Core Ultra X7 358H offers 55 percent higher graphics performance over the last generation. The Dell 14S features a 14-inch full-HD+ OLED non-touch display, while the Dell 16S has a 16-inch OLED touch panel with 2.8K resolution. The duo offers up to a 120Hz refresh rate, 400-nit peak brightness and 100 per cent coverage of the DCI-P3 colour gamut. The panels support Dolby Vision.

For connectivity, the Dell 14S and Dell 16S feature USB Type-C ports, two USB 3.2 Gen 1 Type-A ports, one HDMI 2.1 port and one global headset port.

Both Dell 14S and Dell 16S have a 70Wh battery that can be charged with a 65W USB Type-C adapter. They are made of recycled aluminium and plastics and have Energy Star 9.0 certifications and EPEAT 2.0 Gold. The Dell 14S weighs around 1.46 kg, while the Dell 16S weighs around 1.77 kg. Both models measure 15.3mm in thickness.

Dell Alienware 15 Specifications

Dell Alienware 15 sports a 15.3-inch WUXGA display with a 165Hz refresh rate and a 16:10 aspect ratio. The portfolio now supports up to Intel Core 7 (Series 2) 240H chips and Nvidia GeForce RTX 5060. It is made of polycarbonate resin.

The Alienware 15 includes two USB 3.2 Gen 1 Type-A ports, two USB-C ports, HDMI 2.1, RJ45 Ethernet, a universal audio jack and a dedicated power port. It carries up to a 70Wh battery. It weighs up to 2.25Kg.

FITAG PRESIDENTS' LEADERSHIP CONCLAVE 2026 SUCCESSFULLY BROUGHT TOGETHER 48 ASSOCIATIONS FOR GROWTH, COLLABORATION AND A STRONGER INDUSTRY

AHMEDABAD | August 2026

The Federation of Information Technology Associations of Gujarati (FITAG) successfully organised "The FITAG Presidents' Leadership Conclave 2026" at The Bhagwati Resort, Abu Road, Rajasthan.

The prestigious leadership conclave brought together more than 150 delegates, including Presidents, Secretaries, committee members and representatives from 48 IT & Surveillance Associations across Gujarat, along with leading industry partners, sponsors and key stakeholders from the IT & Surveillance sectors.

The conclave served as a powerful platform for strengthening collaboration among member associations, encouraging leadership interaction, promoting knowledge-sharing and creating new opportunities for collective growth. The event reflected FITAG's continued commitment to building a stronger, more connected and future-ready IT & Surveillance ecosystem across Gujarat.

Under the continued leadership of FITAG President Shri Alpesh Gevariya, the Federation has expanded its network to 48 member associations, further strengthening its reach, representation and collective presence across the state.

Under the visionary guidance and dynamic leadership of FITAG President Shri Alpesh Gevariya, the event was successfully planned and executed through the joint efforts of SSSA, Rajkot, and SITA, Surat. With meticulous planning, continuous coordination and strong teamwork, the organising team ensured the smooth and successful execution of The FITAG Presidents' Leadership Conclave 2026.

The key members involved in the planning and on-ground execution included Shri Bharat Ramoliya, Shri Jatin Sanghani, Shri Darshan Shah, Shri Prashant Parmar and Shri Bechar Narola, along with their respective teams. Their collective efforts, attention to detail and constant coordination played an important role in making the event successful and memorable.

A major highlight of the conclave was the participation of Presidents and leadership teams from all member associations. Each Association was provided an opportunity to present its activities, achievements, initiatives and future vision. These leadership presentations enabled the participants to understand the strengths, best practices and unique contributions of different associations and encouraged greater cooperation among them.

The conclave also reinforced FITAG's vision of "One Vision, One Gujarat," promoting stronger unity among member associations and encouraging Member-to-Member Business Collaboration. The initiative aims to create greater business opportunities within the FITAG network and promote the wider adoption of FITAG-approved products across the IT & Surveillance community.

The event featured meaningful discussions on the changing dynamics of the IT & Surveillance industry, emerging technologies, new business opportunities, industry challenges and the future direction of the sector. The sessions encouraged the exchange of ideas and strengthened the collective commitment of the participating associations towards innovation, professional growth and industry development.

The conclave received enthusiastic support from leading sponsors and industry partners, including CP Plus, Prama, Lenovo, Nextview, Securus, Hi-Focus, iJet and BD Software Distribution. Their valuable partnership contributed significantly to the successful organisation of the event and demonstrated the growing confidence of the industry in FITAG's vision and initiatives.

FITAG also highlighted the growing strength of its approved-product ecosystem. With a hardware turnover exceeding ₹1.5 billion and a strong network of more than 7,000 IT & Surveillance partners, FITAG continues to play an important role in strengthening industry collaboration and supporting the growth of its members and business partners.

The day-long leadership conclave concluded with a vibrant Gala Dinner, Fellowship and Sufi Musical Night. The musical evening created an atmosphere of warmth, enthusiasm and togetherness, providing delegates with an opportunity to interact beyond formal discussions and further strengthen professional relationships and personal bonds.

The FITAG Presidents' Leadership Conclave 2026 marked another significant milestone in the Federation's journey. The event created new opportunities for networking and business collaboration while strengthening relationships among Associations, Industry Partners, Sponsors and Vendors.

With the collective strength of 48 member associations, the continued leadership of President Shri Alpesh Gevariya, and the active support of its leadership team and industry partners, FITAG remains committed to promoting unity, innovation, professional excellence and sustainable growth across Gujarat's IT & Surveillance ecosystem.

The successful conclave reaffirmed FITAG's vision of working together as one strong network and moving forward with a shared purpose —

"ONE VISION, ONE GUJARAT"

એપલે સિક્યોરિટી રિપોર્ટ્સ પર પ્રતિબંધ મુક્યો AI દ્વારા જનરેટ કરાયેલી નકલી ખામીઓથી ટીમ પરેશાન

આર્ટીફિશિયલ ઈન્ટેલિજન્સ (AI) ટૂલ્સ દ્વારા નકલી સિક્યોરિટી રિપોર્ટ્સનો પૂર આવતાં એપલે સુરક્ષા સંશોધકો માટે સબમિટ કરી શકાતા રિપોર્ટ્સની સંખ્યા પર મર્યાદા મૂકી છે. કંપનીની સિસ્ટમમાં ChatGPT જેવા AI ટૂલ્સ દ્વારા મોટા પાયે કાલ્પનિક ખામીઓ સબમિટ થતાં આ નિર્ણય લેવાયો છે. ૩ અઠવાડિયામાં macOSમાં ૫૦થી વધુ ખામીઓ મળતાં એપલે આ પગલું ભર્યું છે. આ નિર્ણયથી સુરક્ષા ફિક્સમાં વિલંબ થવાની ચિંતા છે.

ટેક જાયન્ટ એપલે સિક્યોરિટી રિસર્ચર્સ માટે એક સાથે સબમિટ કરી શકાતા સિક્યોરિટી રિપોર્ટ્સની સંખ્યા પર કડક મર્યાદા લાદી દીધી છે. કંપનીની સિસ્ટમમાં ChatGPT જેવા આર્ટિફિશિયલ ઈન્ટેલિજન્સ (AI) ટૂલ્સ દ્વારા મોટા પાયે નકલી અથવા કાલ્પનિક ખામીઓનો પૂર આવતાં આ મોટો નિર્ણય લેવામાં આવ્યો છે. એપલની ટીમ દરેક રિપોર્ટની મેન્યુઅલી ચકાસણી કરે છે, જેના કારણે આટલી મોટી સંખ્યામાં આવેલા રિપોર્ટ્સને હેન્ડલ કરવા ટીમ માટે અત્યંત મુશ્કેલ બન્યા હતા.

એપલ દ્વારા લાદવામાં આવ્યો સબમિશન કેપ :

AI સિસ્ટમ્સ દ્વારા સબમિટ કરવામાં આવેલા અસંખ્ય રિપોર્ટ્સના કારણે એપલને હવે રિસર્ચર્સ માટે એક જ સમયે ઓપન રાખી શકાતા સિક્યોરિટી રિપોર્ટ્સની સંખ્યા પર મર્યાદા મૂકવાની ફરજ પડી છે.

આ પગલું ભરવા પાછળના મુખ્ય કારણો નીચે મુજબ છે.

કાલ્પનિક જોખમો : AI દ્વારા સબમિટ કરાયેલા કેટલાક અહેવાલો સંપૂર્ણપણે કાલ્પનિક હતા અને તેમાં માત્ર સૈદ્ધાંતિક જોખમોને જ દર્શાવવામાં આવ્યા હતા.

ટીમ પર ભારે દબાણ : આ પરિસ્થિતિના કારણે એપલની રિવ્યૂ પ્રોસેસ પર ભારે દબાણ ઊભું થયું છે, કારણ કે હવે ટીમે સાચી ખામીઓની સાથે-સાથે AI દ્વારા જનરેટ કરાયેલી કાલ્પનિક ખામીઓને પણ ફિલ્ટર કરવી પડી રહી છે.

AI સિસ્ટમ્સ દ્વારા વાસ્તવિક અને કાલ્પનિક બંને ખામીઓ ઉજાગર :

બીજી તરફ, AI સિસ્ટમ્સ માત્ર નકલી જ નહીં, પરંતુ કેટલીક અત્યંત ગંભીર અને વાસ્તવિક ખામીઓ શોધવામાં પણ સફળ રહી છે

સૈદ્ધાંતિક અને ગંભીર જોખમો : AI એ કેટલાક એવા શુદ્ધ સૈદ્ધાંતિક જોખમો પણ ખુલ્લા પાડ્યા છે, જે એટલા ગંભીર હતા કે તેને ફિક્સ કરવા માટે એપલે સોફ્ટવેર પેચ જાહેર કરવા પડ્યા હતા.

માત્ર ૩ સપ્તાહમાં ૫૦ ફ્લો : ઉદાહરણ તરીકે, એક AI સિસ્ટમ દ્વારા માત્ર ૩ અઠવાડિયાના ટૂંકા ગાળામાં macOSમાં ૫૦થી વધુ સંભવિત ખામીઓ શોધી કાઢવામાં આવી હતી.

સિસ્ટમ કંટ્રોલનું જોખમ : આ શોધોમાં એક પ્રિવિલેજ એસ્કેલેશનની ગંભીર ખામી પણ સામેલ હતી, જેનો લાભ ઉઠાવીને કોઈ પણ હેકર મેક ડિવાઇસ પર સંપૂર્ણ કંટ્રોલ મેળવી શકતો હતો.

એપલનો બગ બાઉન્ટી પ્રોગ્રામ :

એપલ લાંબા સમયથી આઈફોન અને મેક જેવા પોતાના ઉત્પાદનોમાં સુરક્ષા ખામીઓ રિપોર્ટ કરવા માટે એક સમર્પિત ચેનલ ચલાવે છે.

૫ મિલિયન ડોલર સુધીનું ઈનામ : જ્યારે કોઈ રિપોર્ટ સાચી ખામી તરીકે કન્ફર્મ થાય છે, ત્યારે કંપની સોફ્ટવેરને પેચ કરે છે અને તેની ગંભીરતાના આધારે સંશોધકોને ૫ મિલિયન ડોલર (અંદાજે ૪૧ કરોડ રૂપિયાથી વધુ) સુધીનું ઈનામ ચૂકવે છે.

સિક્યોરિટી ગ્રૂપ્સ બ્લોક થયા : જોકે, AI-આસિસ્ટાન્સ બગ હંટિંગના કારણે લાદવામાં આવેલી નવી મર્યાદાઓને લીધે બાયનારીઓસ જેવા કેટલાક પ્રતિષ્ઠિત સિક્યોરિટી ગ્રૂપ્સને પણ તેમની નવી શોધો રિપોર્ટ કરવાથી બ્લોક કરી દેવામાં આવ્યા છે.

સિક્યોરિટી ફિક્સમાં વિલંબ થવાની ચિંતા

એપલ દ્વારા રજૂ કરવામાં આવેલા આ નવા નિયમોનો હેતુ AI સિસ્ટમ્સ દ્વારા થતા સબમિશનના ઓવરલોડને મેનેજ કરવાનો છે. પરંતુ ડિફેન્સ એક્સપર્ટ્સમાં આ અંગે ચિંતા પણ જોવા મળી રહી છે

મહત્ત્વના ફિક્સ અટકી જશે : આ કડક પગલાંને કારણે ભવિષ્યમાં મહત્ત્વપૂર્ણ સિક્યોરિટી ફિક્સમાં મોટો વિલંબ થઈ શકે છે તેવી આશંકા છે.

સાચા રિપોર્ટ્સ બ્લોક થવાનું જોખમ : ટેક જાયન્ટ દ્વારા લાદવામાં આવેલા સબમિશન કેપ્સના લીધે ભયજનક ખામીઓ ધરાવતા કાયદેસરના અને સાચા અહેવાલો પણ બ્લોક થઈ શકે છે.

સાવધાન ! એઆઇ થી સાયબર ક્રાઈમમાં 3 ગણો વધારો : OTP કે એલર્ટ વગર થતી છેતરપીડી

ઘરબેઠાં ઓનલાઈન બેંકિંગ વધતા AI-ડીપફેક ટેક્નોલોજીથી સાયબર ક્રાઈમ ચિંતાજનક રીતે વધ્યો છે. OTP વિના જ ખાતાઓમાંથી પૈસા સરી જવાના કિસ્સાઓ બન્યા છે. ગુજરાતમાં ૫ વર્ષમાં ઓનલાઈન ફ્રોડ ૩૦% વધ્યા છે, રોજ ૫૦૦ ફરિયાદો નોંધાઈ રહી છે. ઠગો વોઈસ ક્લોનિંગ અને ડીપફેક વીડિયો દ્વારા KYC બાયપાસ કરી લોકોને છેતરી રહ્યા છે. અમદાવાદ સાયબર ક્રાઈમે ૪ યુવકોને ઝડપી પાડ્યા છે. સરકારે બાયોમેટ્રિક ડેટા લોક કરવા અને સાવચેત રહેવા જણાવ્યું છે.

સાપ્રત સમયમાં ઘરબેઠાં મોબાઈલ કે કમ્પ્યુટરથી ઓનલાઈન બેંકિંગનો ઉપયોગ ખૂબ જ ઝડપથી વધી રહ્યો છે. પરંતુ તેની સાથે સાયબર ક્રાઈમની ઘટનાઓમાં પણ ચિંતાજનક ઉછાળો જોવા મળ્યો છે. વિતેલા કેટલાક મહિનાઓથી યુઝર્સને કોઈ પણ પ્રકારનો એલર્ટ કે OTP આવ્યા વગર જ બેન્ક ખાતામાંથી પૈસા સરી જવાના કિસ્સા સામે આવી રહ્યા છે. સાયબર ઠગો હવે આર્ટિફિશિયલ ઈન્ટેલિજન્સ (AI) અને ડીપફેક ટેક્નોલોજીનો દુરુપયોગ કરીને લોકો સાથે છેતરપિંડી કરી રહ્યા છે.

વૈશ્વિક અને રાષ્ટ્રીય સ્તરે સાયબર ક્રાઈમના આંકડા :

વૈશ્વિક સ્તર : વિશ્વભરમાં AI આધારિત સાયબર ક્રાઈમના કિસ્સાઓમાં ૮૪ ટકાનો વધારો નોંધાયો છે.

ભારતની સ્થિતિ : ચાલુ વર્ષે ભારતમાં ૧ કરોડથી વધુ સાયબર ક્રાઈમના બનાવો બન્યા છે, જેમાં ૩૦ લાખથી વધુ કેસ છેતરપિંડીના છે. આ ઉપરાંત, આ વર્ષે ફાયનાન્સિયલ ફ્રોડના ગુનામાં ૧૭ ટકાનો ઉછાળો આવ્યો છે.

ગુજરાતની સ્થિતિ : ગુજરાતમાં છેલ્લા ૫ વર્ષમાં ઓનલાઈન ફ્રોડના કેસમાં ૩૦%નો વધારો થયો છે અને દરરોજ સરેરાશ ૫૦૦ જેટલી ફરિયાદો પોલીસ ચોપડે નોંધાઈ રહી છે.

ડીપફેક અને વોઈસ ક્લોનિંગ દ્વારા કેવી રીતે થાય છે ઠગાઈ?

સાયબર ઠગો સોશિયલ મીડિયા પ્લેટફોર્મ (જેમ કે વોટ્સ-એપ, ફેસબુક, ઈન્સ્ટાગ્રામ), મેસેજિંગ એપ્લિકેશન, જોબ કે ડેટિંગ પ્લેટફોર્મ અને ફોન કોલ્સ દ્વારા લોકોને ટાર્ગેટ કરે છે.

ચહેરા અને અવાજની ચોરી : સોશિયલ મીડિયા પરથી ફોટોગ્રાફ્સ મેળવીને અથવા ફોન કોલ દરમિયાન વાતચીત રેકોર્ડ કરીને તમારો અવાજ (વોઈસ ક્લોનિંગ) અને ચહેરાના હાવભાવ મેળવવામાં આવે છે.

ડીપફેક વીડિયો નિર્માણ : AI ટૂલ્સની મદદથી તમારી આંખોના પલકારા, માથું ફેરવવું અને અવાજની આબેહૂબ નકલ કરીને બનાવટી વીડિયો તૈયાર કરાય છે.

KYC બાયપાસ : આ ડીપફેક વીડિયો અને બાયોમેટ્રિક ડેટાનો ઉપયોગ કરીને બેંકો તથા નાણાંકીય સંસ્થાઓની KYC પ્રક્રિયાને બાયપાસ કરવામાં આવે છે. જેનાથી OTP વગર બોગસ એકાઉન્ટ ખોલવા અથવા લોન લેવા જેવા કૃત્યો આચરવામાં આવે છે.

થલતેજ અને અન્ય શહેરોની ઘટનાઓ

અમદાવાદના થલતેજ વિસ્તારમાં એક વ્યક્તિના ઓળખ કાર્ડના ડેટા મેળવી, OTP વગર મોબાઈલ નંબર બદલી, ડીજી લોકર હેક કરીને નવા બેંક ખાતા ખોલવા તથા ઓનલાઈન લોન લેવાનો પ્રયાસ પ્રકાશમાં આવ્યો હતો. અમદાવાદ સાયબર ક્રાઈમ સેલે આ કેસમાં તપાસ કરીને અમદાવાદ, આણંદ, વડોદરા અને ભરૂચમાંથી ૪ યુવકોની ધરપકડ કરી છે, જેઓ અન્ય રાજ્યોના માસ્ટરમાઈન્ડ સાથે મળીને આ નેટવર્ક ચલાવતા હતા.

સાયબર ઠગાઈથી બચવા માટે કેન્દ્ર સરકારની ઍડવાઈઝરી

ભારત સરકારના સાયબર ક્રાઈમ કો-ઓર્ડિનેશન સેન્ટર દ્વારા નાગરિકો માટે સુરક્ષા માર્ગદર્શિકા જાહેર કરવામાં આવી છે.

બાયોમેટ્રિક ડેટા લોક કરો : પોતાના ફોટોગ્રાફ્સ અને બાયોમેટ્રિક વિગતો સુરક્ષિત રાખો.

નેટવર્ક કે SIM બંધ થાય તો : જો મોબાઈલનું સિગ્નલ કે SIM કાર્ડ અચાનક બંધ થઈ જાય, તો તરત જ ટેલિકોમ કંપનીનો સંપર્ક કરો.

પોલીસ ફરિયાદ : કોઈ પણ શંકાસ્પદ આર્થિક હેરાફેરી કે ફ્રોડની જાણ થાય તો વિલંબ કર્યા વગર સાયબર ક્રાઈમ પોલીસનો સંપર્ક કરો.

સોશિયલ મીડિયામાં શિસ્ત : સોશિયલ મીડિયા પર પોતાના કે પરિવારના અંગત ફોટોગ્રાફ્સ અને વિગતો શેર કરતી વખતે સ્વયંભૂ શિસ્ત જાળવવી અત્યંત જરૂરી છે.

Whatsappના ધમાકેદાર ફિચર્સમાં નકામા મેસેજથી મળશે મુક્તિ

મેટા-માલિકી ધરાવતું લોકપ્રિય મેસેજિંગ પ્લેટફોર્મ વોટ્સએપ યુઝર્સના ચેટિંગ અનુભવને વધુ બહેતર બનાવવા માટે એક મોટો અને મહત્ત્વપૂર્ણ બદલાવ કરવા જઈ રહ્યું છે. વોટ્સએપ હાલમાં એક નવા ફીચરનું ટેસ્ટિંગ કરી રહ્યું છે, જેના હેઠળ યુઝર્સની મુખ્ય ચેટ સ્ક્રીન પર એક નવું સેક્શન અથવા ફોલ્ડર જોવા મળશે. આ ફીચરનું મુખ્ય નામ 'Offers & Updates' રાખવામાં આવ્યું છે. આ નવા અપડેટનો મુખ્ય હેતુ મોટી કંપનીઓ, બેંકો, ઈ-કોમર્સ પ્લેટફોર્મ્સ અને એરલાઈન્સ તરફથી આવતા પ્રમોશનલ મેસેજીસ, ડિસ્કાઉન્ટ કૂપન્સ અને ડિલિવરી અપડેટ્સને મુખ્ય ચેટ લિસ્ટથી અલગ રાખવાનો છે, જેથી યુઝર્સની પર્સનલ ચેટ લિસ્ટ એકદમ સાફ-સુથરી અને વ્યવસ્થિત રહી શકે.

હાલમાં કંપની આ ફીચર માટે અલગ-અલગ ટાઈમ ડ્યુરેશનનું ટેસ્ટિંગ કરી રહી છે. આ સિસ્ટમ હેઠળ, જ્યારે કોઈ મોટી બિઝનેસ કંપની યુઝરને ઓફર કે ડીલનો મેસેજ મોકલશે, ત્યારે તે મેસેજ થોડા સમય બાદ (જે મહત્તમ ૨૪ કલાક સુધી હોઈ શકે છે) મેઈન ચેટ લિસ્ટમાંથી ગાયબ થઈ જશે અને આપમેળે 'Offers & Updates' ફોલ્ડરમાં શિફ્ટ થઈ જશે. આનાથી યુઝર્સના ફેમિલી અને ફ્રેન્ડ્સના મહત્ત્વના મેસેજ બિઝનેસ સ્પામ મેસેજીસની નીચે દબાઈ જશે નહીં.

યુઝર્સને મળશે કસ્ટમાઈઝેશન કંટ્રોલ, સેન્ટિંગ્સમાંથી બંધ પણ કરી શકાશે

આ ફીચરની સાથે વોટ્સએપ યુઝર્સને કેટલાક કંટ્રોલ્સ પણ આપશે જેને તેઓ પોતાની જરૂરિયાત મુજબ કસ્ટમાઈઝ કરી શકશે.

ડિસેબલ કરવાનો ઓપ્શન : જો કોઈ યુઝરને આ નવું ફોલ્ડર પસંદ ન આવે અને તેઓ તમામ મેસેજ પહેલાની જેમ એક જ મુખ્ય ટાઈમલાઈન પર જોવા માંગતા હોય, તો તેઓ સેટિંગ્સમાં જઈને આ ફીચરને સંપૂર્ણપણે બંધ પણ કરી શકશે.

ટાઈમિંગ પર કંટ્રોલ નહીં જોકે, આમાં એક મર્યાદા એ રહેશે કે યુઝર્સ પોતાની મરજી મુજબ મેસેજ ટ્રાન્સફર થવાનો ચોક્કસ સમય (જેમ કે ૧ કલાક કે ૫ કલાક) જાતે નક્કી કરી શકશે નહીં, તે કંપની દ્વારા સેટ કરેલા ડિફોલ્ટ ટાઈમ મુજબ જ કામ કરશે.

આ નવા ફીચર પાછળનું મુખ્ય કારણ અને વ્યાપારિક સમીકરણો :

મેટાની વધતી કમાણી અને ઈનબોક્સમાં વધતો સ્પામ

આ નવું ફીચર એવા સમયે આવી રહ્યું છે જ્યારે મેટાનો વોટ્સએપ બિઝનેસ પ્રોગ્રામ ખૂબ જ સફળ સાબિત થઈ રહ્યો છે. તાજેતરમાં જ માર્ક ઝુકરબર્ગે જાહેરાત કરી હતી કે કંપનીની અન્ય આવક ૧ બિલિયન ડોલરને પાર કરી ગઈ છે, જેમાં વોટ્સએપ પેઈડ મેસેજિંગનો મોટો હિસ્સો છે. પરંતુ કંપનીની આ વ્યાપારી સફળતાના કારણે સામાન્ય યુઝર્સના ઈનબોક્સ સ્પામ મેસેજથી ભરાઈ રહ્યા હતા. આ અગાઉ કંપનીએ વર્ષ ૨૦૨૪માં યુઝર્સને માર્કેટિંગ મેસેજ અનસબ્સ્ક્રાઈબ કરવાનો ઓપ્શન આપ્યો હતો અને ઓક્ટોબર ૨૦૨૫માં બિઝનેસ મેસેજ મોકલવાની લિમિટ પણ નક્કી કરી હતી. હવે આ સમસ્યાના કાયમી ઉકેલ તરીકે આ નવું ફોલ્ડર લાવવામાં આવી રહ્યું છે.

શરૂઆતમાં વોટ્સએપનું આ નવું ફીચર માત્ર વેરિફાઈડ અને મોટી બિઝનેસ કંપનીઓ (જેમ કે મોટી બેંકો, ઈ-કોમર્સ સાઈટ્સ અને મોટી બ્રાન્ડ્સ) પર જ લાગુ કરવામાં આવશે. નાના વેપારીઓ અને પર્સનલ એકાઉન્ટ્સનો ઉપયોગ કરનારાઓને હાલ પૂરતા આ નિયમમાંથી બહાર રાખવામાં આવ્યા છે.

:: અગત્યની સુચના ::

અમારા માનવંતા વાચક મીત્રો -વિજ્ઞાપન દાતાઓ લવાજમ ધારકો તથા શુભેચ્છકોને જણાવવાનું કે હવેથી પર્સનલ કોમ્પ્યુટર ટુ ડે નો તમામ પ્રકારનો પત્રવ્યવહાર સુચનો ફરીયાદો અમને અમારી નીચેની ઓફીસના સરનામે જ મોકલશો.

RAJKOT COMPUTER TRADERS ASSOCIATION ORGANIZED THEIR BUSINESS ORIENTED FLAGSHIP PROGRAM TECHNOBLAST 7.0 ON 10TH JULY 2026

MR. UDAYKUMAR BHOJANI
EDITOR - PCT Magazine
MEDIA PARTNER - RCTA

It was supported by Schneider Electric and ITCG Solutions Ltd. Schneider Electric gave insights of their products such as Racks & UPSes while ITCG showcased the EDR product from Sonicwall. RCTA members were imparted with thorough insightful knowledge of these products. On Behalf of Schneider Electric Mr. Sachin Sanchare, Mr. Kamlesh Darji, Ms. Dimple Panchal, Mr. RakeshSinh were present. Mr. Jayen Rachchh and Mr. Hardik Repesented ITCG Solutions. RCTA Committee Heartly thanks all the sponsors and members of the association who were present at the event.

PROCOLORED K13 LITE REVIEW: A COMPACT DTF PRINTER BUILT FOR SMALL BUSINESSES

Direct-to-film (DTF) printing has become one of the fastest-growing methods for creating custom T-shirts, hoodies, tote bags, and other personalized products. Unlike traditional vinyl printing, DTF allows users to print full-color designs with fine details and transfer them onto different fabric types using heat. For beginners, however, commercial DTF machines can often be expensive, bulky, and difficult to maintain.

The Procolored K13 Lite aims to make DTF printing more accessible. Designed as a compact 13-inch (A3) printer, it targets home creators, Etsy sellers, hobbyists, crafters, and small apparel businesses looking for an easier way to start producing custom garments. Rather than focusing on industrial production, the K13 Lite emphasizes a beginner-friendly workflow, simplified maintenance, and space-saving design.

What is DTF Printing?

Direct-to-film printing involves printing a design onto a special PET transfer film using CMYK and white inks. After printing, adhesive powder is applied to the film, cured with heat, and then transferred onto fabric using a heat press.

Compared to vinyl printing, DTF eliminates the need for cutting and weeding, making it much easier to produce complex, multi-color graphics. It also supports gradients, detailed illustrations, and full-color artwork more effectively. Unlike sublimation, DTF works on a wider range of fabric types, giving creators greater flexibility when producing apparel.

What's Included in the Box?

The Procolored K13 Lite comes with everything needed to begin learning the DTF process. Inside the package, users receive the printer itself, CMYK plus white starter ink, adhesive powder, PET roll film, printhead protection tools, USB and power cables, and a Studio Lite software dongle.

While these starter supplies help users begin printing quickly, additional consumables such as replacement inks, PET film, adhesive powder, and other accessories will eventually need to be purchased separately for continued production.

Compact Design Built for Small Workspaces

One of the biggest

advantages of the K13 Lite is its compact footprint. The printer is designed to fit comfortably inside home studios, craft rooms, or smaller workspaces where larger commercial DTF systems may not be practical.

Its clean, modern appearance gives it a professional look without overwhelming beginners. The built-in touchscreen interface also makes navigation simpler, helping users perform basic operations without relying entirely on a computer.

Although the printer itself occupies relatively little space, users should still plan for additional work areas dedicated to powder application, curing, and heat pressing during the transfer process.

Beginner-Friendly Setup Process

Setting up the K13 Lite involves installing the ink cartridges, loading PET transfer film, connecting the printer, installing Studio Lite software, checking the printhead, and learning the overall transfer workflow.

The touchscreen interface helps simplify many setup tasks, while one-touch ink pumping makes ink management easier than on some traditional DTF systems. Studio Lite software is also designed with beginners in mind, offering an interface that is relatively easy to understand.

However, new users should expect a learning curve. Successfully producing high-quality transfers still requires learning proper adhesive powder application, curing methods, heat press temperatures, fabric settings, and print configuration.

Hardware and Printing Features

The Procolored K13 Lite uses an LH-500 printhead along with a CMYK plus white (CMYK+W) ink system. Its 13-inch A3 print size is suitable for producing a wide range of custom products without taking up excessive workspace.

The printer is well-suited for creating T-shirt graphics, chest logos, hoodies, tote bags, personalized gifts, limited-edition merchandise, and other small-batch apparel projects. This makes it particularly attractive for small businesses that produce custom orders or on-demand products.

Maintenance Features Designed for Beginners

One area where the K13 Lite focuses heavily is reducing maintenance complexity. It incorporates LiteHead Technology, which is designed to make printer upkeep easier for new users.

The printer also features white ink circulation, helping keep white ink moving continuously to reduce ink settling. Automatic cleaning further helps minimize printhead clogging, especially for users who do not print every day.

These features can reduce maintenance requirements, but they do not eliminate them. Users should still follow routine cleaning schedules, protect the printhead, and properly maintain the printer to ensure consistent print quality over time.

Print Quality and Color Performance

The K13 Lite is capable of producing vibrant full-color graphics suitable for logos, text, illustrations, gradients, and detailed artwork. Its white ink layer provides a solid foundation for printing on darker garments such as black, navy, and other dark-colored fabrics.

Final print quality depends on several factors beyond the printer itself. Artwork resolution, print settings, adhesive powder coverage, curing temperature, and heat press settings all play an important role in achieving professional-looking transfers.

Before accepting commercial orders, users are advised to perform wash durability tests to verify long-term performance on different fabrics.

Simple DTF Workflow

The overall production process follows the standard DTF workflow. Users first create or import their artwork into Studio Lite software before preparing the design for printing. The printer then produces the design on PET transfer film.

After printing, adhesive powder is applied to the transfer, followed by curing. The finished transfer is then applied to the garment using a heat press.

Compared to traditional vinyl methods, this workflow eliminates cutting and weeding while making multi-color printing much simpler. It also supports personalized and on-demand production, making it well-suited for custom apparel businesses.

Studio Lite Software Experience

The included Procolored Studio Lite software handles print preparation, RIP workflow management, and white ink processing. Its beginner-oriented interface makes it easier for first-time DTF users to understand the printing process without extensive technical experience.

Users should always download the software from official Procolored sources and begin with test prints before moving on to customer orders. Spending time learning the software can help reduce wasted materials and improve print consistency.

Who Should Buy the Procolored K13 Lite?

The K13 Lite is aimed at home creators, Etsy sellers, hobbyists, local customization businesses, and small apparel brands looking to move beyond Cricut machines, vinyl cutting, or sublimation printing.

Its compact size and beginner-friendly design make it a practical option for users entering the DTF market without investing in large commercial equipment.

However, it is not intended for factory-scale production or high-volume print shops. Buyers expecting a fully automated commercial workflow or maintenance-free operation may find it unsuitable for their needs.

Things to Consider Before Buying

Although the printer includes starter supplies, users will still need additional equipment, such as a heat press and curing setup, to complete the DTF workflow. Replacement PET film, adhesive powder, and DTF inks also become ongoing operating costs.

Regular white ink maintenance, printhead care, cleaning, and proper storage remain essential responsibilities, even with the printer's automated maintenance features.

Pros and Cons

The Procolored K13 Lite offers several strengths, including its beginner-friendly operation, compact A3 size, CMYK plus white printing system, LiteHead Technology, white ink circulation, automatic cleaning, touchscreen controls, Studio Lite software, and included starter supplies. It is well-suited for home studios and small-batch apparel production.

On the other hand, users should remember that regular maintenance is still required. There is also a learning curve for those new to DTF printing, while heat press and curing equipment must be purchased separately. It is also not designed for industrial-scale production, and wash durability should always be tested before selling products commercially.

Final Verdict

The Procolored K13 Lite offers an accessible entry point into the world of direct-to-film printing. Its compact A3 design, CMYK+W printing system, LiteHead Technology, white ink circulation, automatic cleaning features, and beginner-friendly software help simplify many aspects of DTF production for first-time users.

While learning the complete DTF workflow and maintaining the printer still require time and effort, the K13 Lite provides a practical solution for home creators, Etsy sellers, hobbyists, and small apparel businesses that want to start producing custom apparel without investing in a large commercial printing system.

NET PROTECTOR HOSTS 'KRYPTON ENTERPRISE CISO CONCLAVE FY26–27' IN MUMBAI

Mumbai, July 9, 2026: In a significant initiative to strengthen India's cyber security ecosystem, Net Protector Cyber Security successfully organized the Krypton Enterprise CISO Conclave FY26–27 at Ginger Mumbai Airport, Vile Parle East. The event brought together Chief Information Security Officers (CISOs), IT leaders, cyber security experts, enterprise decision-makers, and channel partners from across the region.

The conclave served as a platform for knowledge sharing, industry collaboration, and discussions on emerging cyber threats, regulatory compliance, and enterprise security strategies. Renowned industry speakers addressed the audience on critical topics, including Artificial Intelligence in Cyber Security, the Digital Personal Data Protection (DPDP) Act, RBI Cyber Security Compliance, IoT Security, and evolving cyber risk management practices.

Speaking on the occasion, representatives from Net Protector emphasized the growing need for proactive cyber defence and the adoption of advanced security technologies to safeguard organizations against sophisticated cyber threats.

The event also featured live demonstrations of Net Protector's Krypton Enterprise Security Solutions, including Krypton Secure MFA Token (KSMT), Krypton Enterprise AI Insight, Krypton Storage Insight (KSI), and Endpoint Security (EPS & EDR). These demonstrations highlighted practical approaches to enhancing enterprise security, identity protection, data security, and regulatory compliance.

A dedicated IT Partner Track introduced attendees to the Krypton Platinum Partnership Program, offering system integrators, solution providers, managed service providers (MSPs), and channel partners opportunities to expand their cybersecurity business through enterprise-focused solutions and technical enablement.

The programme concluded with an Award Ceremony, recognizing the contributions of industry leaders and partners, followed by a networking dinner that encouraged meaningful interactions between CISOs, technology experts, and business partners.

The Krypton Enterprise CISO Conclave FY26–27 reaffirmed Net Protector's commitment to supporting India's digital transformation by promoting cybersecurity awareness, innovation, and collaboration among enterprises and the IT partner community.

About Net Protector Cyber Security

Net Protector is one of India's leading cybersecurity companies, offering comprehensive security solutions for consumers, businesses, enterprises, educational institutions, and government organizations. Its portfolio includes endpoint protection, EDR, XDR, data loss prevention, encryption, multi-factor authentication, backup, AI-powered security, and enterprise cyber defence solutions designed to help organizations build resilient and secure digital environments.

GOOGLE UPGRADES GEMINI FOR MACOS WITH ABILITY TO TRANSCRIBE, REFINE NATURAL LANGUAGE VOICE INPUTS

Google upgraded the Gemini for macOS with the introduction of Gemini Spark, the personal AI agent for Apple desktops and laptops, which was first showcased during the keynote presentation of this year's Google I/O. The dedicated Gemini AI app for the platform was launched earlier this year in April, making it relatively new compared to its rivals. Now, the Mountain View tech giant has released a new update for the Gemini for macOS app. Rolling out to all users globally, the update lets Gemini for macOS transcribe natural-language voice inputs and use on-screen context to generate better responses.

Gemini for macOS Update: What's New

In a blog post on Wednesday, the Mountain View-based tech giant announced a new update for the Gemini for macOS app, bringing new capabilities to the AI chatbot on Apple's desktops and laptops. The update is currently being rolled out to all users globally. It upgrades the Gemini for macOS app with the ability to generate transcriptions from a user's natural language voice inputs.

Google says that the feature will allow users to "create, edit, and summarise" with the Gemini for macOS app, regardless of the app the user is currently using.

To access the ability, users must long-press the function key on their macOS device, and then they can "speak naturally into any window" on their device. The "intelligent dictation" functionality is turned on by default, the tech giant said.

The new Gemini for macOS ability is similar to the Rambler tool, which was first unveiled during this year's Android Show: I/O Edition event. For reference, Gemini for macOS will be able to correct words and remove unnecessary phrases like "um," "ah", and "like". It will be able to refine text converted from speech for users on macOS devices. It will also be capable of removing formatted text automatically.

Apart from this, the new update also allows Gemini for macOS to transcribe "intelligently" by using the context on the screen of the user's device.

This is an opt-in functionality, which can be turned on by enabling Gemini Reasoning in the Settings menu. Users will be able to extract and summarise information, highlight local files, images, and documents on their macOS device.
